MARYLAND DNR WILD TURKEY OBSERVATION SURVEY FORM

SURVEY PERIOD: JULY 1 – AUGUST 31

OBSERVER INFORMATION	INSTRUCTIONS
Name:	• Each time you see turkeys, record the date, county, and number of adult hens, poults (young of the year), & adult gobblers. Record ALL turkeys seen, not just broods. Use additional sheets if necessary. • Avoid reporting duplicate sightings (e.g. if you see the same number of hens and poults in the same location several days in a row, only record once). • If you cannot determine sex or age, record them in "UNKNOWN" column – that information is still important. • Either mail, fax, or email the survey by September 10 to: Bob Long, MD DNR 828 B Airpax Rd. Suite 500 Cambridge, MD 21613 Fax: 410-221-0026 Email: blong@dnr.state.md.us
