Crop: _____/planting:_____
Field: _____ (___ acres/rows)

Important: First four columns are the most important, and we request be kept by growers in collaboration with coordinators. Others columns may be gotten by coordinator/grower communication

Guidelines:

Task: such as cultivations, primary tillage, planting, compost application, sprays. Fill in date as well.

Implement/ input/rate: Amendment or implement used, for example "compost", "sweep cultivator", "S-tine". **Shorthand is fine!!** If the cultivating equipment is always on the G tractor, then *"G w/cult."* Is sufficient.

Rate: for fertility amendments or sprays: tons per acre, pounds per acre, etc.

AM/afternoon/eve. Approximate time of day

Soil moisture: for tillage and cultivation operations, was soil too dry, too wet, or within the proper range. Can be abbreviated W, G, D

Person-hours: abbreviate 3 persons working for four hours 3@ 4. Can be omitted if time-sampling of operations is done.

Other/observations: enough said

Target pests: for sprays

Grower/Coordinator collaborate:				***Optional/ Coordinator takes lead***				
Task (field operation, application, etc.)	**date**	**Implement/ input**	**Rate**	**AM/after-noon/eve.**	**Soil moisture (wet, good, dry)**	**Person -hours**	**Other/ observations**	**Target pests**
Example: weeded	5/20	Einbock (*tine weeder)*	--	eve	G		Lots of lambsquarters	--
