Peds R Us

Medical Education, L.L.C.

www.Peds-R-Us.com • 1-888-280-Peds (7337)

**More individual practice time
than a cadaver lab!**

- Highly interactive presentations with "real-life" scenarios
- Practice high-risk, low-frequency pediatric procedures
- Small class sizes ensure a unique learning experience
- Chance to brush-up on IOs, crics, traches, difficult airways, and MORE!

Sneak peek video at:
peds-r-us.com

"Excellent presentation! Opportunity to see and play with pig anatomy improved my understanding of physiology."

G. Blair, NREMT-P

Airway Management

Hands-on Emergency Skills Review

This one of a kind, hands-on review course is being sponsored by Your Hospital and is supported in part by a pediatric emergency educational grant. Pediatric Procedures, Practice, & Playtime was developed by pediatric nurse expert Scott DeBoer to help reinforce the essentials of pediatric emergency care. During the morning sessions, attendees will be a part of a highly interactive pediatric medical and traumatic emergencies review with breaks that include the opportunity to work with human umbilical cords, bones, fetal pigs, and MORE! After lunch, it's time to get messy and work with harvested pig hearts, lungs and tracheas. The hands-on portions of the class will enable students to better understand pediatric emergency/critical care anatomy and procedures... seeing things from the inside out!

"Amazing! Totally the best class I've been too! Humor will help me remember those Peds PEARLS. Love the hands-on pig portion!" Gilkey - RN ER

"Thank you for a great experience! I drove a long way... Well worth it." C. Wagner - ED Physician

"Great combo of lecture and hands-on. Filled with fantastic info!" Barbara Young - Flight Nurse

"Awesome Day! Best conference/hands-on experience ever!" Amy Dease - RT

Credit Hours

This continuing education activity is approved for 6 hours by the State of California Board of Nursing. This activity is also approved for 6 hours by the States of Illinois and Indiana, Divisions of EMS for paramedics and 6 hours for Respiratory Therapists by the American Association for Respiratory Care.

Instructor

Scott DeBoer RN, MSN,
CPEN, CEN, CCRN, CFRN, EMT-P

International pediatric seminar leader and nurse consultant with over 25 years of nursing experience. Scott was a flight nurse for the University of Chicago Medicine, is a medical malpractice expert witness, and works part-time in the ED. He is the author of 6 books and co-author of nearly 100 medical articles for nurses, paramedics, and RTs.

Scott will take complex information and present it in a way that will make understanding the most difficult concepts simple. His humorous and "reality is the best teacher" style is sure to benefit the newest students to the most seasoned professionals.

In 1996, Scott and his wife Lisa founded Peds-R-Us, a seminar company which is dedicated to pediatric emergency education and training. "Teaching better ways to care for kids" is the ongoing focus of Peds-R-Us Medical Education.
