

Course Faculty

❖ Overseas :

- **Medical Oncology:** Dr Ana B. Oton, Associate Professor of Medicine, Thoracic Malignancies Program, University of Colorado Cancer Center, Denver, Colorado, USA
- **Radiation Oncology:** Dr. Ritsuko Komaki, Professor of Radiation Oncology, University of Texas MD Anderson Cancer Center, Houston, Texas, USA
- **Palliative Care:** Dr. Florian Strasser, Associate Professor and Head, Oncological Palliative Medicine, Division of Oncology, Department of Internal Medicine & Palliative Care Centre, Cantonal Hospital, St. Gallen, Switzerland

❖ National : Eminent faculty from various departments of PGIMER, Chandigarh and Tata Memorial Centre, Mumbai that are involved in multidisciplinary management of lung cancer:

- Medical Oncology
- Surgical Oncology
- Radiation Oncology
- Pulmonary Medicine
- Pathology
 - Histopathology
 - Cytology
 - Molecular Biology
- Radiodiagnosis and Imaging
- Nuclear Medicine

Highlights

❖ Course Agenda

- ◆ Case Based Presentations & Interactive Sessions on different clinical scenarios related to lung cancer:
 - * Early stage/resectable NSCLC
 - * Locally advanced NSCLC
 - * Metastatic NSCLC
 - * SCLC
- ◆ Mock Tumor Board Discussions
- ◆ Three Breakout sessions :
 - * Molecular Biology/Pathology
 - * Surgical Techniques
 - * Palliative/Supportive Care

❖ Faculty

- ◆ Three International Faculty selected by ASCO
- ◆ National Faculty from PGIMER, Chandigarh & TMC, Mumbai

❖ Attendees

- ◆ Registration limited to 200 participants
 - * Attendees get to interact with faculty freely
 - * Smaller groups in breakout sessions for focussed discussions on specialized topics

American Society of Clinical Oncology

Making a world of difference in cancer care

April 05-06, 2014
Lecture Theatre Complex,
Nehru Hospital, PGIMER, Chandigarh

Jointly Organized by
ASCO, ISSLC, PGIMER and TMC

Welcome Message

Dear friends,

It is a matter of great pleasure for us to inform you that the Indian Society for Study of Lung Cancer (ISSLC) in collaboration with the American Society of Clinical Oncology (ASCO) is organizing the first Multidisciplinary Lung Cancer Management Course at Chandigarh (India's City Beautiful) in the first week of April 2014.

ASCO is renowned world over being one of the largest professional oncology societies and that focuses on cancer research, education and ultimately provision of high-quality patient care. ASCO's membership is diverse and includes more than 30,000 professionals who specialize in different fields and subspecialties of oncology. It is a truly global organization with approximately 30% of its total members being from outside the USA and thus represents more than 120 countries. The ISSLC is the only professional body in India that is exclusively dedicated to education and research in the field of lung cancer.

The multidisciplinary training course on lung cancer is a long awaited step forward given the enormous burden and consequently morbidity and mortality related to this disease in India. Lung cancer remains one of the most frequent smoking related cancers and one of the most frequent cancers among males in this country. Three renowned oncologists from USA/Europe selected by ASCO for their expertise in different aspects of lung cancer management would be coming to participate as faculty in this course. This course shall also have the active involvement of eminent faculty members from two of the most prestigious institutions in India namely the Tata Memorial Centre, Mumbai and the Postgraduate Institute of Medical Education and Research, Chandigarh. This course aims at achieving uniformity within this country in relation to the

management approach towards this disease amongst physicians, surgeons and other health care professionals. It also seeks to promote facilitation of the exchange of knowledge and knowhow amongst the course faculty while developing an effective management protocol for this disease since resource constrained settings which are common in developing countries like India pose unique challenges for medical and allied personnel.

Once again, we appreciate ASCO's decision to become a part of this course and look forward to continued collaboration for similar courses in the future. We look forward to welcoming all attendees for this unique course on April 5-6, 2014.

Dr D Behera
President ISSLC

Senior Professor,
Department of Pulmonary Medicine,
PGIMER, Chandigarh

Dr Navneet Singh
Course Coordinator

Assistant Professor,
Department of Pulmonary Medicine,
PGIMER, Chandigarh

Dr CS Pramesh
Course Coordinator

Professor of Surgical Oncology &
Chief, Thoracic Surgery,
Tata Memorial Centre, Mumbai

Registration form

Please write clearly or enclose your business card

Name: _____

Address: _____
