REGISTER:

In CI 104, students examine the life cycle of a real estate investment, including the acquisition, ownership, and disposition phases, and evaluate the economic impact of investment decisions. After completing this course, students will be able to:

- Apply key investor decision-making analyses to optimize investment returns
- More effectively forecast investment performance by quantifying real estate risk
- Leverage CCIM analytical tools to improve decision making

Join CCIM instructors and classmates for face-to-face education and networking in our traditional four-day classroom format with online exams.

COURSE PREREQUISITES
