

20____ Academic School Year

The **Pensacola State College (PSC) advisor** and **high school guidance counselor** will work collaboratively to create an action plan for struggling students in order to assist students with success. Dual Enrollment courses are instructed based on college rigor. Students may, therefore, require assistance in taking ownership of the identified problem. An action plan will provide a formal plan to address academic issue(s) needing immediate attention for success. This formal plan will facilitate the student's understanding of the expectations. Although the action plan is a collaborative effort between the **PSC advisor** and the **high school guidance (HS) guidance counselor**, it is the student's responsibility to adhere to the plan.
