

BENEFITS

Increase confidence as you train with onsite wastewater professionals and ...

- Gain continuing education for license renewal and CEO credits
- Learn new 75-A DOH regulatory updates
- Learn alternative design solutions for difficult sites
- Submit better septic designs
- Meet manufacturers' representatives
- Gain a competitive advantage
- Consult with Eric Murdock, P.E.
- Receive certificate of completion

Continuing Education Credits

- ✓ Professional Engineers/ Architects
- ✓ Code Enforcement

September 23 and 24, 2015

Celebrating 10 Years!

Alternative Onsite Wastewater Treatment Technology Training and Tour

Hosted by:
Eric Murdock, P.E.

Earn up to 15 PDHs!
(Professional Development Hours)

Who should attend?

- Professional Engineers
- Architects
- Code Enforcement Officers
- Contractors
- Wastewater professionals

The Skaneateles National Community Decentralized Wastewater Demonstration Project was initiated with funding assistance from USEPA to introduce alternative onsite wastewater treatment technologies in the Skaneateles Lake Watershed. The Skaneateles watershed offers many challenging site conditions. Advanced technologies help protect this high quality water resource that is used as an unfiltered drinking water supply for the City of Syracuse. By demonstrating design, installation, operation and maintenance, the project has expedited the introduction of alternative systems to the region. This training serves to sustain valuable natural resources.

The New York Onsite Wastewater Treatment Training Network, Inc. (OTN) represents various industry and agency professionals, including specialists from NYSDEC, NYSDOH, and NYSDOS. The OTN provides hands-on training throughout NYS to those involved with onsite systems.

This event is being coordinated by OTN in conjunction with RCAP Solutions, a federally funded not-for-profit community development agency.

Training Location:
Sherwood Inn
And at multiple sites around
Skaneateles Lake

Date: September 23 and 24, 2015
Time: 7:30 am Registration & Breakfast (Wed.)
8:00 am to 5:00 pm
Location: Sherwood Inn
26 West Genesee St.
Skaneateles, NY 13152
1-800-374-3796 (Sherwood Inn)

Special 10-Year Celebration
Pricing: \$299!

Half price for Regulators and
Code Enforcement Officers:
Only \$149!

Day 1 includes classroom training,
breakfast and lunch, and optional vendor-
sponsored dinner cruise

Day 2 includes lakeside system
maintenance demonstrations, and lunch
with manufacturers' representatives

Participating Manufacturers:

- American Manufacturing Drip Irrigation
- Anua - US Peat Filter
- Clarus Environmental - Fusion Treatment
- Infiltrator
- Knight Treatment Systems White Knight
- Orenco, Inc. AdvanTex Textile Filter
- Premier Tech Peat System

Skaneateles Lake
Alternative Onsite
Wastewater Treatment
Technology
Training and Tour
with Eric Murdock, P.E.

Celebrating 10 years!

- **Earn up to 15 Continuing**
Education Credits

Day 1 - Solutions for difficult
sites:

- ❖ Design, construction, & operation
- ❖ How to conduct annual maintenance

Day 2 - Onsite systems tour:

- ❖ System maintenance tour of alternative technologies
- ❖ Meet manufacturers' representatives
