## **‘Water Law in a Nutshell’ Workshop**

‘Water Law in a Nutshell’ is presented by Aaron Clay, Attorney of Law and former Water Referee for the Colorado Water Court, Division 4. The seminar is an all day event from 8am to 5pm and includes discussions on **appropriation, perfection, use, abandonment and enforcement of various types of water rights and ditch rights. Further discussion may also include special rules for groundwater, public rights in appropriated water, and federal/interstate compacts.** The cost of the seminar is \$50 and will include lunch. We welcome EVERYONE, including landowners, realtors, water district employees, and anyone else interested in water law. Twenty individuals are needed to make this seminar a success, so please call Katlin with the Middle Park Conservation District at 970-531-0127 to sign up. You may also email Katlin at [middleparkcd@gmail.com](mailto:middleparkcd@gmail.com).

**When: April 10, 2015 (8am-5pm)**

**Where: Summit County Commons in Frisco, CO**

**Cost: \$50, includes lunch**

**RSVP by March 27, 2015**

This same workshop was previously held in Grand County on May 3, 2013, and January 17, 2014. We had 50 attendees at each workshop and received great reviews...

*“As a small rancher with many water-rights issues, Aaron Clay's water law class was great. I have spent about 18 years learning about water rights on my own, and really wish that Aaron's class had been available when I started the learning process. Because of his lengthy experience in the water court, he had a vast reservoir of knowledge about what is important to laymen. The information he presented was practical and easy to understand. For \$50, this class was a true bargain.” ~Drew McCoy*

*“Our subdivision owns and manages a reservoir which has minority interest partners and both absolute and conditional water rights. What seemed complex to us novices, Aaron made very understandable with his teaching style and course content.” ~ John Hart*

*“This was a fabulous class. I appreciated the case law stories to illustrate the importance of gaining knowledge in this field. The insight into what may happen in the future was extremely interesting from an investment standpoint as well. As a realtor, I feel that any brokers with land/ranch buyers and sellers should be required to take this class!” ~ Sonia Chritton*

*“The class was everything I anticipated a very educated and knowledgeable professor. If there is going to be a part 2 to the class, I would love an email.” ~ Tim Hartman*
