LAMPING OPTIONS

□ LLMS S

SPECIFICATIONS

Construction

Extruded aluminum housing forms a 3 5/8" x 4 1/16" rectangular profile. Die-cast aluminum end caps mechanically attach with no exposed fasteners.

Shielding

Arc-shaped, parabolic low iridescent semi-specular or white painted aluminum louver.

Reflectors

High reflectance white painted reflector system.

Finish

Satin anodized finish consists of satin anodized housing with end caps painted to match. Custom colors available, consult factory.

Electrical

Specify 120V, 277V or 347V. Pre-wired with 16AWG fixture wires. For special circuiting or wire gauge, consult factory. Plug-in electrical connectors included. UL and C-UL listed.

Luminaire Length

4', 8' and 12' lengths in a single section for exact suspension spacing of 4', 8', and 12'. For total luminaire length, add 7/8" for each end cap. Using internal joiners, 4', 8' and 12' sections can be joined to form longer rows.

INTEGRATED nLIGHT MICRO SENSOR

Determine the appropriate sensor type, network type and sensor power source for your application. Enter the code in the Options section of the Catalog Number.

EXAMPLE: PDT1

Sensor Type (choose one)	
ADC nLight model nES ADCX	Daylight Dimming Specify 0-10V dimming ballast No occupancy sensing
PDT nLight model nES PDT7 ADCX	Daylight Dimming and/or Occupancy Detection Specify 0-10V dimming ballast for daylight dimming Specify fixed-output ballast for occupancy detection only (daylight dimming disabled)

Network Type & Sensor Power Source (choose one)	
1*	nLight-Enabled (Network-Ready) with Luminaire-Integrated Power Pack 10' Cat-5e cable and splitter provided
2	Standalone Operation (No Networking) with Luminaire Integrated Power Pack No Cat-5e cable provided
3*	nLight-Enabled (Network-Ready) with Remote nLight Power Pack or nPanel 10' Cat-5e cable and splitter provided Order required remote nLight Power Pack or nPanel separately through nLight (Acuity Brands Controls)

For more information about the Integrated nLight Micro Sensor, its capabilities and options, download the PDF guide at: PeerlessLighting.com/nLight-Sensor-Guide

*nLight-Enabled (network-ready) options include one RJ-45 connector on the luminaire and 10' of Cat-5e cable and a splitter to control the entire luminaire row (depending on wattage/voltage limitations). The Cat-5e cable drop is located in the same section as the sensor. For multiple zones, please contact techsupport@peerlesslighting.com.

WEIGHTS & SUPPORT SPACING

Surface mount spacing equals section length. Default location shown. Consult factory for stem mounting suspension spacing and alternate locations.
