

SUBCONTRACTOR PRE-QUALIFICATION

We value our successful working relationships with the local subcontracting community and thank you for your interest in Bell Engineering and Construction Corporation. Hereinafter referred to as "BeacCorp". This package contains 5 pages of "information gathering", and 5 pages of information to help ensure your relationship with BeacCorp is a positive experience. We welcome your questions and feedback.

You may obtain Pre-Qualified status, and be placed on our approved Bidders List, by carefully completing and returning the enclosed forms and attaching the required supporting documentation.

This Pre-Qualification Form combines the Pre-Qualification information required for all specialized divisions of BeacCorp.

If you should have any questions regarding this process, you may contact:

BeacCorp- Bell Engineering and Construction Corporation

21 Plumage Lane
W.P.B., Fl. 33415-2652
Phone: (561) 779-3213
Fax: (561) 753-2282

E-mail: info@beaccorp.com

We appreciate your interest and look forward to having your company on our Bidder's List.

Sincerely,

Randolph (Randy) S. Bell
CEO- BeacCorp

INSURANCE REQUIREMENTS - GENERAL

A Certificate of Insurance (original sent by your insurance carrier) must be on file in our office to complete the pre-qualification process. When you actually begin work, you will be required to provide another Certificate of Insurance naming BeacCorp and the Owner as additionally insured parties for each job. This is required of all companies before commencing

work on, or delivering materials to, a jobsite. (If you are a material supplier, you need only supply us with a blanket certificate evidencing proof of insurance.)

The Subcontractor's Comprehensive General Liability and Automobile Liability Insurance shall be written with limits of liability not less than the following and shall be on an occurrence basis and combined single limits:

1. GENERAL LIABILITY:

- a) **General Liability** **\$ 2,000,000 aggregate**

NOTE: Comprehensive General Liability includes completed operations and contractual liability. Explosion, collapse, and underground coverage must be included for all work performed under ground level.

- b) **Products - Completed Operations Aggregate** **\$ 2,000,000 aggregate**

- c) **Bodily Injury and Property Damage** **\$ 1,000,000 per occurrence**

2. AUTOMOBILE LIABILITY **\$ 1,000,000 per occurrence**

NOTE: Coverage must be for "Any Auto."

3. WORKER'S COMPENSATION/EMPLOYER'S LIABILITY **Statutory Limits**

NOTES:

1. If your firm has "leased employees" through a Professional Employment Organization (PEO) your Worker's Compensation policy must include Bell Engineering and Construction Corporation an additional insured.
2. Statutory Limits must be met.
3. An exemption from the State of Florida is not accepted in lieu of Worker's Compensation Insurance.

**BeacCorp EDUCATIONAL FACILITIES
DIVISION
and
PUBLIC PROJECTS WORK**

Each Bidder / Subcontractor is responsible for requesting and completing a Pre-Qualification package from Bell Engineering and Construction Corporation. Hereinafter named (“BeacCorp”).

Mandatory Pre-Qualification of Bidders / Subcontractors:

Each Bidder pursuing Contracts of \$25,000 or greater must be Pre-Qualified before sealed bids are accepted for these projects. Bids received from any non-Pre-Qualified entity will not be accepted.

Form Completion: Pre-Qualification Forms must be filled out truthfully, completely and accurately. This “long” form is to be completed initially; a “short” form may be provided for annual updates and/or new projects.

Pre-Qualification Deadline: Bidders must be Pre-Qualified no later than three (3) weeks prior to the Bid date. BeacCorp requires two (2) weeks to process Pre-Qualification Packages; therefore, the deadline to submit Pre-Qualification Packages is no later than five (5) weeks prior to the Bid date.

A sealed Bid received from any Bidder who has not been Pre-Qualified by the Pre-Qualification Deadline will not be opened; it will be returned to the Bidder.

Pre-Qualification Status: BeacCorp is responsible for advising Bidders of their Pre-Qualification status within 48-hours of the Pre-Qualification Deadline (“Pre-Qualification Status Deadline”). In the event a prospective Bidder has not been notified by BeacCorp of their Pre-Qualification Status but can produce evidence proving the requisite paperwork had been submitted in a timely and proper fashion, that Bidder must notify BeacCorp's Project Manager in writing within 24-hours of the Pre-Qualification Status Deadline and request their Pre-Qualification status notification. BeacCorp will then have two (2) normal working business days to declare the status of the prospective Bidder. If, under this process, a Bidder is determined to

be Pre-Qualified, those Pre-Qualification benefits will be invoked for the Bidder.

Further, if the Bidder provides the status request notification and does not receive a status notification response from BeacCorp by the close of business on the second normal working business day, the Bidder should construe that they are eligible to bid the project and should notify the Project Manager in writing as to this circumstance. The Bidder must attach a copy of their status request notification to the exterior of the Sealed Bid Envelope. Failure to post this notice on the exterior of the envelope may cause the Bidder's position under this procedure to go unrecognized subsequently causing the Bid to be declared as non-Pre-Qualified and rejected as such. Such conditions shall not be the responsibility of BeacCorp; thus, the need for the Bidder to strictly comply with this instruction.

Insurance: Specific insurance requirements must be met (Please see sample Certificate of Liability Insurance, Page 8, for details). A Certificate of Insurance (original sent by your insurance carrier) must be on file in our office to complete the pre-qualification process. When you actually begin work, you will be required to provide another Certificate of Insurance naming BeacCorp and the Owner as additionally insured parties for each job. This is required of all companies before commencing work on, or delivering materials to, a jobsite. (If you are a material supplier, you need only supply us with a blanket certificate evidencing proof of insurance.) The Comprehensive General Liability and Automobile Liability Insurance shall be written with limits of liability not less than those noted on the sample Certificate of Liability Insurance attached to this form.

Payment and Performance Bonds: On subcontracts where the bid exceeds \$100,000, the Sub-Contractor may be required to provide a 100% performance bond and a 100% labor and material payment bond from a surety company authorized to do business in the State of Florida by the Department of Insurance. Bidders are not permitted to list themselves as the company providing applicable Payment and Performance Bonds unless a special notation is made indicating that the Bidder intends to post a cash bond.

Workforce: The Subcontractor / Bidder must agree to perform no less than 15% of the project construction work utilizing its own employees.

Sub-Contractor Experience: The Sub-Contractor must have successfully completed no less than two projects of similar size and complexity within the last five years.

**I am interested in performing work for
BeacCorp's Educational Facilities
Division and/or Public Projects.**

Yes

No

**HOW WE EXPECT SUBS TO DEAL WITH US
PRECONSTRUCTION PHASE**

- Read all plans and specs carefully before responding.
- § Qualify the bid, including what is included; what is excluded; scope of work outlining unusual or questionable items; and how work is to be accomplished. Give us the best price on the first bid.
- Don't fail to enter a bid on bid day without prior notification.
- Provide accurate input to our job schedule.
- Respond quickly to request for prices.
- Read and understand the contract before signing it.
- Promptly return plans and specifications used for bidding.
- Immediately submit any suggestions and/or alternate methods of construction that may be efficient or result in time or dollar savings.

CONSTRUCTION

- Respond quickly to requests for prices.
- Keep work on schedule.
- Meet commitments for being on the job site. If you cannot meet your commitments, advise us beforehand.
- Return phone calls promptly.
- Send knowledgeable, competent and prepared representatives to job meetings.
- Demand quality work from your employees and subcontractors.
- Keep the same project manager/foreman on the jobsite for the duration of the project.

- Keep jobsite clean.
- Provide accurate and timely submittals and RFIs.
- Cooperate in furnishing detailed delivery schedules of manufactured items when requested.
- Enforce safety standards.
- Document requests for Change Orders in a timely manner.
- Look ahead; make sure all items you need to complete your work will be available. If you find something is not available, submit alternates with sufficient time to get approved, ordered, etc. Don't wait until it is too late.
- Don't "nit-pick" with minor requests for Change Orders.
- Be cooperative with other subs: observe "Team" concept.
- Provide insurance certificates, releases of liens from sub's subs and vendors, financial information, and references in a timely fashion when requested.
- Record "As-Built" information regularly and accurately.
- Respond promptly and efficiently to punch list items.
- If there is a problem, don't sit on it. Let the contractor know so that steps can be taken to resolve the matter.
- Post As-Built information regularly; at least bi-weekly. It is a prerequisite for payment.

POST CONSTRUCTION PHASE

- Provide as-builts, operating instructions, warranties, guarantee letter(s), etc., promptly in accordance with the Contract Documents.
- Perform warranty work, as required by contract Documents.

HOW WE DEAL WITH SUBCONTRACTORS

PRECONSTRUCTION PHASE

- We will distribute all addenda and informational changes promptly.
- We will ask subs for input to the job schedule to make the schedule realistic.
- We will notify subs about changes to the status of the job and the schedule.
- In cases where an insufficient number of representative bids in major categories are

not received (at least three), we will solicit additional prices.

- We will not shop sub's bids.
- We will write fair subcontracts.
- We will provide bid results to bidders when requested.
- We will promptly return phone calls.
- We will review and agree on procedures for pricing Change Orders during subcontract negotiations.

CONSTRUCTION PHASE

- We will promptly return phone calls.
- We will hold job meetings with subs doing related work present at the same meeting.

- We will approve and return submittals quickly.
- We will ensure easy access to work areas of subcontractor's work force.
- We will give as much notice as possible regarding when a sub is to start work on the job.
- We will keep the jobsite clean and enforce clean-up rules for other subs.
- We will provide proper authorization for Change Orders.
- We will pay promptly, in accordance with the terms and conditions of the Contract.
- We will release retention when Owner releases our retention, or at least reduce the amount to two times the value of the punch list.

CHECKLIST OF ATTACHMENTS

(If you transmit this package via e-mail, please print and fax this last signatory page)

- Copies of Applicable Licenses/Certifications Attached (check applicable boxes):
 - Contractor Certifications
 - Contractor Licenses
 - Occupational Licenses
 - M/WBE, SBE, DBE Certifications
 - Verification of General Liability Insurance Coverage
 - Verification of Worker's Compensation Insurance Coverage
 - Verification of Automobile Insurance Coverage

- Letter from Bonding Company stating Bonding Capacity
- Payroll and insurances for labor of this company are paid by:
 - This company directly
 - An employee leasing company
