## **5E Lesson Plan Template**

Learning		Type of		
Phase	Developmental Progression	Discourse	Activity Description	Facilitation Questions
Engage	How does this phase stimulate curiosity?	Student-Student		
		Student-Teacher		
	How does this phase activate prior knowledge?	Teacher-Student		
	What questions might students raise?			
	What accommodations could be included in this phase to make learning more accessible?			
Explore	What concept(s) will students explore?	Student-Student		
		Student-Teacher		
	What new vocabulary will students need for this phase of the lesson?	Teacher-Student		
	What accommodations could be included in this phase to make learning more accessible?			
Explain	What connections are essential for the student to understand?	Student-Student		
		Student-Teacher		
	What new vocabulary is introduced in this phase?	Teacher-Student		
	What algorithms (computational procedures) are connected to the concept?			
	What accommodations could be included in this phase to make learning more accessible?

Learning		Type of		
Phase	<b>Developmental Progression</b>	Discourse	<b>Activity Description</b>	Facilitation Questions
Elaborate	How is the new concept applied or extended?	Student-Student		
		Student-Teacher		
	How will I encourage the use of vocabulary?	Teacher-Student		
	What concepts and processes must students understand to be successful with this phase of the lesson?			
	How (if at all) must the algorithms be applied?			
	What accommodations could be included in this phase to make learning more accessible?			
Evaluate	What concept(s) will I assess?	Student-Student		
	·	Student-Teacher		
	What additional skills must students have to complete this phase successfully?	Teacher-Student		
	What accommodations could be included in this phase to make learning more accessible?
