DRIVER EDUCATION PROGRAM

Driver Education Information:

- The State of Minnesota requires that all newly licensed drivers under the age of 18 complete and pass a minimum 30 hours of **classroom** instruction and be enrolled in a certified Behind-the-Wheel program to be eligible to take the Minnesota State Permit Test (written test.) Passing the permit test and paying the required fee allow the student to legally practice driving on streets and highways.
- The State of Minnesota requires that all potential drivers under the age of 18 complete and pass 6 hours of driving instruction with a qualified instructor. However, if the instructor deems that a student is not ready to pass his/her road test, more hours of instruction will be given at an additional \$35/hour cost to the student. *Therefore, it is essential that every student practice on their own!*
- Every effort is made to provide **quality** instruction. The curriculum has been designed by professional educators and instruction is provided by licensed teachers. Emphasis is not only placed on learning the material to pass the Minnesota State test, but on attitudes and risk taking, knowledge of laws, signs and signals, responsibilities, decision making, basic and advanced driving maneuvers, exposure to different driving conditions, and buying and insuring a car.
- **FEES:** The fees cover the costs of the entire ISD #911 Community Education Driver Education Program. The cost of the classroom (\$75) must be paid at the time you register. To enroll in the Behind-the-Wheel part of the program and to take your state Permit Test, you must pay \$150 (non-refundable), which is the down payment for Behind-the-Wheel. The balance of \$125 must be paid prior to completing the Behind-the-Wheel instruction. The whole fee can be paid up front.
- **John Hirsh’s Cambridge Motors** leases new cars to the ISD #911 Community Education Driver Education Program. Students learn to drive in late model cars that are equipped with many new options.
