**APPENDIX E**  
**NATIONAL ELECTRICITY (STATE) LAW**  
**SECTION 28K(1)(c)**

**STATEMENT OF REASONS**

This statement of reasons explains why the AER considers it reasonably necessary for the information described in this Notice to be provided, prepared and maintained in the manner and form specified.

Under clause 6.27 of the NER, the AER must prepare and publish an annual benchmarking report to describe the relative efficiency of each *Distribution Network Service Provider* in providing *direct control services* over a 12 month period. Further, under clauses 6.5.6 and 6.5.7 of the NER, the AER must have regard to benchmark operating expenditure and benchmark capital expenditure when assessing these types of expenditure.

Accordingly, the AER requires detailed information relating to DNSP and its regulated electricity network services to conduct benchmarking. Information detailing how the AER proposes to conduct and apply benchmarking and the reasons the AER requires the information in this Notice are contained in:

- the AER's Expenditure Forecast Assessment Guidelines issues paper (December 2012);
- Economic Insights' report on the economic benchmarking of electricity network service providers, prepared for the AER (June 2013);
- the AER's explanatory statements for the draft and final Expenditure Forecast Assessment Guidelines for electricity transmission and distribution (August 2013 and November 2013); and
- the AER's explanatory statements for the draft and final economic benchmarking regulatory information notices (September 2013 and November 2013).

These documents are available on the AER's website at <http://www.aer.gov.au/node/18864> or <http://www.aer.gov.au/node/21836>.

We have considered the costs to NSPs of providing the information and consider they are outweighed by the social benefits. The explanatory statement for the final Expenditure Forecast Assessment Guidelines (referred to above) contains detailed consideration of the costs and benefits.

Therefore, the AER considers that the information required by this Notice is reasonably necessary for the AER to perform its functions under chapter 6 of the NER.
