

Instructions for Use:

*For the full program Terms and Conditions please refer to Part 3 of your application. You **MUST** be a **MICHIGAN** residential customer to qualify for these Efficiency UNITED rebates.*

Step 1: Determine Eligibility:

Verify the utility company listed on the rebate application is your utility service provider. Applications for other participating utility service providers can be found on the www.efficiencyunited.com website by selecting the name of your utility service provider.

Thoroughly read the requirements in the “Terms and Conditions” section to verify the items you have installed meet all of the eligibility terms. You **must** be a **Michigan** customer to qualify for these rebates. All appliances included in the Bundle Bonus promotion must be purchased within seven calendar days. Only one appliance type per bundle bonus; all appliances must be installed at the utility service address listed on the utility bill.

Step 2: Install program defined measures:

Some measures may be installed by you, the homeowner. If this is the case, make sure you save the receipts for the measures for which you plan to request a rebate.

If you hire a contractor, make sure you get a paid receipt/invoice from them. Your receipt or invoice must clearly indicate the equipment type, make, model, serial number, price and date of purchase or installation. Also, make sure you ask your contractor for their signature on the designated line on the application. **Applications must be received by December 31, 2013.**

Step 3: Complete and submit your rebate application:

Make sure you fill out the application completely. If applying for a Bundle Bonus in addition to the standard rebate amount, please check the “Bundle Bonus” box and indicate the number of appliances included. Fields left blank on your application will delay the processing of your rebate application. To verify you have included all the items required see the checklist on Page 1 of the application. You **MUST** be a **MICHIGAN** residential customer to qualify for these Efficiency UNITED rebates.

Thank you for participating in the Efficiency United energy optimization program.
