Conference Goals

The goal of Nyack Hospital's Sixth Annual Trauma Conference is to provide a multidisciplinary approach to the discussion of complex issues and subjects that affect the care of the trauma patient. The target audience for the conference includes Nurses, PA's, NP's, Paramedics and other Health Care Professionals. A faculty of well recognized local and national experts in all aspects of medical care will provide the audience with their own unique perspectives on issues dealing with medical care of the adult and pediatric trauma patient including management in the pre-hospital care setting, emergency room through discharge.

Objectives

1. **To review and discuss the principles of adult and pediatric trauma management in the pre-hospital environment.**
2. **To review and discuss assessment and treatment of trauma patients..**
3. **To review the current advances in Multi-Casualty training, VIP events and technical skills**
