TIPS TO SAVE ON MATERIAL HANDLING

Consolidate shipments (i.e., if minimum shipment weight is 100 lbs)

Separate Shipments

6/08 - 60 lbs charged @ 100 lbs \$69.25
 6/10 - 52 lbs charged @ 100 lbs \$69.25
 6/11 - 65 lbs charged @ 100 lbs \$69.25
 Total for 177 lbs is: \$207.75

Consolidated Shipment

3 pieces (1 shipment)
 177 lbs @ 200 lbs is a total of: \$138.50
 Added benefit - your shipments are less likely to get misplaced if they are packaged together with larger items.

Note: Freeman has waived the fees normally associated with special handling for Intersolar North America, and the definitions below are intended for information purposes only.

Special handling applies to shipments that are loaded by cubic space and/or packed in such a manner as to require additional labor/handling, such as ground unloading, constricted space unloading, designated piece unloading, carpet only shipments or stacked shipments. Also included are mixed shipments and shipments without individual bills of lading. Shipments loaded in this manner require additional time, labor, or equipment, to unload, sort and deliver.

WHAT IS GROUND LOADING/UNLOADING?

Vehicles that are not dock height, preventing the use of loading docks, such as U-hauls, flat bed trailers, double drop trailers, company vehicles with trailers that are not dock level, etc.

WHAT IS CONSTRICTED SPACE LOADING/UNLOADING?

Trailer loaded "high and tight" shipments that are not easily accessible. Freight is loaded to full capacity of trailer – top to bottom, side to side. One example of this is freight that is loaded down one side of a trailer that must be bypassed to reach targeted freight.

WHAT IS DESIGNATED PIECE LOADING/UNLOADING?

Drivers that require the loading crew to bring multiple pieces of the freight to the rear of the trailer to select the next piece, having to remove freight from the trailer then reload to fit or the trailer must be loaded in a sequence to ensure all items fit.

WHAT ARE STACKED SHIPMENTS?

Shipments loaded in such a manner requiring multiple items to be removed to ground level for delivery to booth. Stacked or "cubed out" shipments, loose items placed on top of crates and/or pallets constitute special handling.

WHAT ARE MULTIPLE SHIPMENTS?

Multiple shipments on a truck do not automatically indicate special handling, unless the shipments are mixed on the truck, failing to maintain shipment integrity and/or have multiple delivery areas.

WHAT DOES IT MEAN IF I HAVE "NO DOCUMENTATION"?

Shipments arrive from a small package carrier (including, among others, Federal Express and UPS) without an individual Bill of Lading, requiring additional time, labor and equipment to process.

WHAT ABOUT CARPET ONLY SHIPMENTS?

Shipments that consist of carpet and/or carpet padding only require special handling because of additional labor and equipment to unload.

WHAT IS THE DIFFERENCE BETWEEN CRATED AND UNCRATED SHIPMENTS?

Crated shipments are those that are packed in any type of shipping container that can be unloaded at the dock with no additional handling required. Such containers include crates, fiber cases, cartons, and properly packed skids. An uncrated shipment is material that is shipped loose or pad-wrapped, and/or unskidded without proper lifting bars and hooks.

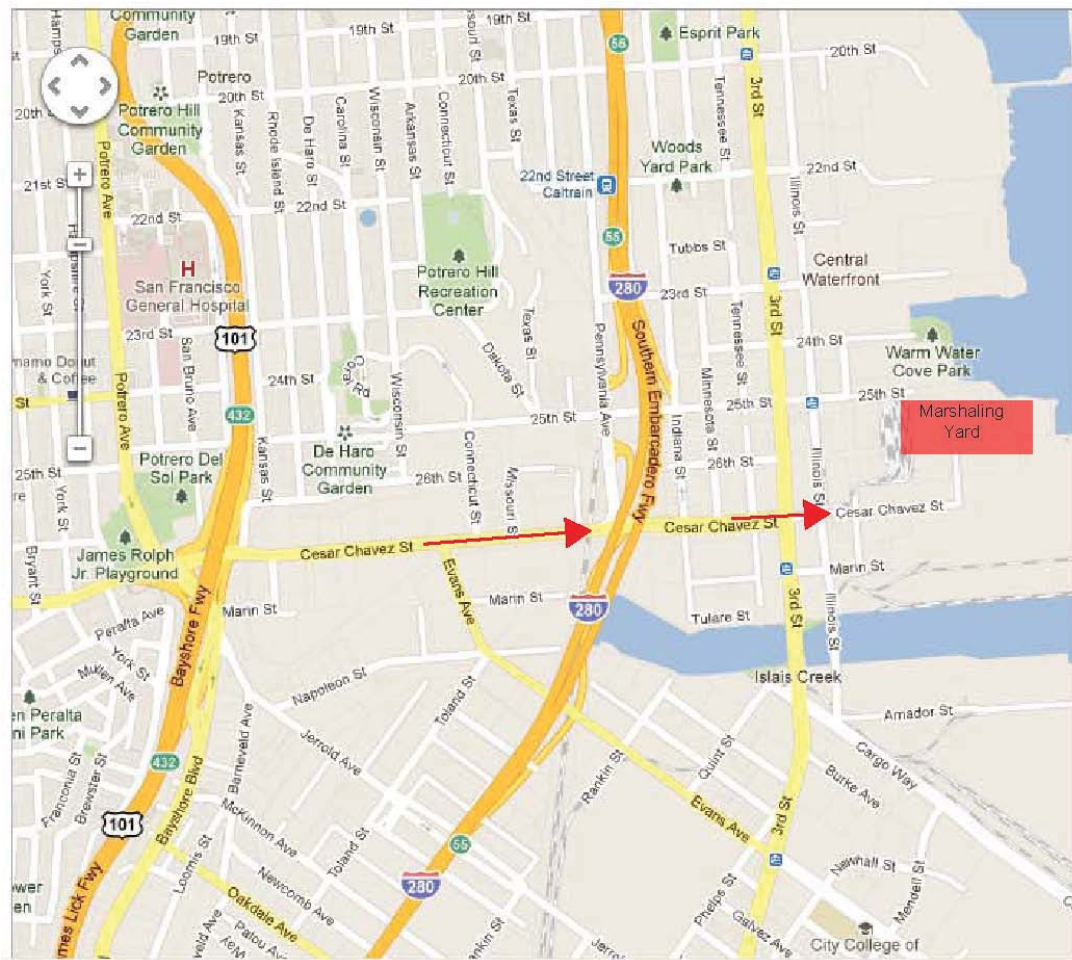

Log on to www.freemanco.com/store under Material Handling, "What is Material Handling" to see photo examples of crated and uncrated shipments.
