## North West Leeds Traffic Surveys

Leeds City Council are conducting surveys into the travel patterns of people in the north west of Leeds District. This information will be used in developing a Transport Model which will be used to plan future transport schemes in the area. As part of this we require details of individual journeys including the exact address of where people are travelling to and from. Please complete the questionnaire in relation to the journey you were making when you received this form and return to the Freepost Address overleaf. To ensure total confidentiality the stored results of the survey will contain no details of or reference to any individual person or address.
