Introduction

The objective of this handbook is to outline CN’s Safety Guidelines for Contractors and non-CN personnel. For the purposes of this document “Contractor” may also apply to individuals on CN property, whether under contract to CN or not.

These guidelines are not to be considered as a substitute for the applicable government regulations. These guidelines are the minimum requirement and must be exceeded where the hazard or government regulations warrant.

It is not possible to deal with every hazard in this one handbook. These guidelines are to be employed in conjunction with Government Acts, Regulations, local Ordinances and good judgment to facilitate the safe completion of the work.

Additional information regarding safe work practices may be included in contract documents and specifications. In the event of a discrepancy between these guidelines and the contract, the contract shall govern.

CN Safety and Health Policy

The Contractor’s attention is drawn to the following excerpts from CN’s “Safety and Health Policy”:

1. Take all reasonable measures to ensure the protection of employees, customers, property, and the general public.
2. Address promptly all environmental and safety concerns.
3. Analyze all accidents or incidents resulting in, or having potential for, loss or injury, and take remedial action promptly to prevent recurrence.
4. Require all persons granted access to Company property to comply with applicable Safety and Loss Control policies, standards, and procedures.
5. Provide employees with appropriate training to enable them to work safely.
