

Somerville College, Oxford

2015 Data Protection and Photography Permission Form

Data Protection

Due to the Data Protection Laws in the United Kingdom, our Treasury officers are unable to discuss student financial affairs with anyone other than the student themselves unless the student has given us permission to do so. For many parents or other financial sponsors this can be frustrating as they are not able to liaise with college staff about paying fees. If you would like our Treasury officers to talk to anyone other than yourself about your college and University finances please give their details below.
