1996
Honda
Accord
**A midsize
pacesetter
that's also
fun to
drive.**

**By
Michelle
Krebs**

Introduction

For many years now, the Honda Accord has been synonymous with high-quality, reliable transportation that includes a high fun-to-drive index.

That continues to be true for this popular model, which is the best-selling car in America in terms of retail sales and second best overall behind the Ford Taurus, which enjoys a large number of sales to company and daily rental fleets.

The Accord consistently appears on Top 10 lists for magazines. It also wins consistently high scores in various quality surveys, including the J.D. Power Customer Satisfaction Index, a measurement of quality after the first year of ownership.

For 1996, the Accord sports modestly revised front and rear styling touches. More important, the trunk opening has been expanded by nearly five inches for easier loading and unloading.

Also new for 1996, all LX and EX sedan and coupe models feature variable intermittent windshield wipers, and the stereo radio antenna is integrated into the rear window. All LX models now ride on 15-in. tires and new wheels. A 6-way power driver's seat has been added to the LX V6 and EX 4-cyl. leather models.

The Accord, which last underwent a major redesign in 1994, is scheduled for a complete make-over for the 1998 model year. In the meantime, it continues to be one of the world's best sellers. Since most Accords are assembled in the U.S., that world-wide popularity has helped Honda to become this

country's number one automobile exporter.

Walkaround

The Accord's styling changes over the years have been evolutionary, not revolutionary, although Honda did up the visual ante in the last makeover, putting a little more dash into the design. The cosmetic restraint is largely due to the fact that Honda is onto a winning formula as Accord buyers come back to buy again more frequently than buyers of most other brands.

For 1996, that continues to be true. The most noticeable change in the front is a chrome accent around the grille. The freshened rear styling features new lights and chrome accents as well as wider parking lights for improved visibility and a larger trunk opening.

The Accord is offered in a variety of trim levels and configurations.

The 4-cyl. sedans are available as a base DX, a mid-level LX and a top-of-the-line EX, which offers a long list of standard equipment and few standalone options. The coupe and station wagon are offered in base LX or loaded EX versions. For 1995, Honda finally added a V6 engine option to the Accord lineup. The V6 models, available only as sedans, are offered as an LX and EX.

The coupe and wagon were designed and engineered in the United States and are built exclusively in Ohio. Most Accord sedans, likewise, are built in Ohio, though some are imported from Japan.

We sampled a number of different models for our evaluation, but our primary focus was on an LX automatic sedan.

Interior Features

Inside, the Accord features a handsome, comfortable interior that feels instantly familiar to previous Honda owners. The quality of the materials is excellent, and, like the exterior, the fit and finish are outstanding.

There is plenty of legroom in the front and rear. Headroom is good in the front, though tall folks might find it lacking in the rear.

Some drivers may wish for a seat height adjuster because the Accord sits low. However, that is a feature only available on the EX model.

The cloth-covered front buckets of the tested model were comfortable and supportive, much improved from past generations of Accords. Like so many midsize cars, the rear seats technically can accommodate three adults, but the center position is not comfortable for the third person.

Except for the center rear position, all seats have 3-point safety belts. Unfortunately, they require a separate locking clip to secure a child safety seat.

The low cowl and thin roof pillars provide good visibility to the front and sides, always a strong suit in Honda designs. Also in typical Honda fashion, the controls and gauges are logical, easy to locate and easy to operate. Our only complaint was the small horn buttons in the steering wheel spokes,

which are hard to locate in an emergency, due to the driver airbag. On any vehicle, we prefer to be able to push the steering wheel hub and have the horn blow.

The trunk, now much easier to access thanks to a larger opening, can easily accommodate a few suitcases and a couple of duffel bags. The rear seatback can fold down to expand the trunk even further. However, the locking release is inconveniently placed in the middle of the rear package shelf.

Driving Impressions

The base Accord models come standard with a 2.2-liter, single overhead cam 16-valve, 4-cylinder engine coupled with a 5-speed manual transmission. The engine is rated 130 horsepower. Also available, on the uplevel EX models, is the 145-hp 16-valve, VTEC four cylinder on EX models. In addition, Honda began offering a 2.7-liter V6 engine in its LX and EX sedans.

These models have a somewhat longer nose and a different grille to accommodate the larger engine, the same V6 that was used in the original Acura Legend.

The character of the Accord changes subtly depending on the engine and transmission combination, but all are responsive and provide an excellent sense of control.

The 4-cyl. models, the most popular being the mid-level LX with the automatic, are refined family cars with somewhat sporty manners. The manual transmission adds a livelier feel. With the base engine, we recommend it be combined with the manual transmission for peppier performance.

In general, the Accord accelerates responsively and smoothly whether equipped with the 4-cyl. or the V6. Honda 4-cyl. engines are typically among the best in the business.

Obviously, the V6 version is faster, smoother and quieter, though somewhat less economical in terms of fuel efficiency and price. We found the V6, which is only available with the electronically controlled 4-speed automatic, created a somewhat different flavor. It's an even sportier sedan.

Optional on all models (and standard on the V6 versions) is the electronically controlled 4-speed automatic transmission, which includes a feature called Grade Logic. The logic system provides smoother shifting when climbing or descending hills. Indeed, we found the transmission selected the most appropriate gears for all of the various conditions we drove in.

Thanks to its sophisticated double wishbone suspension, the ride in any of the Accord models is firm but comfortable, with excellent reflexes in emergency maneuvers. That's why Accord owners enjoy driving these cars.

The interior is generally quiet, though some noise is noticeable when the 4-cyl. engine is driven hard.

The Accord provides very good road feel, with modest body roll in turns, and the steering is quick and accurate. Honda has always put good handling high on its list of design priorities, and that's what the Accord provides.

Braking is another key element in all-around competence, and the Accord performs well in this

regard, too. To keep the base price down, the basic DX models are equipped with front disc and rear drum brakes, and an antilock option isn't offered. However, mid-level and top-of-the-line versions have front and rear disc brakes, and ABS is either optional or standard. ABS is optional on LX models like our primary test car, for example, while V6-powered Accords and all EX versions have them as standard equipment.

Fuel economy averages nearly 28 miles per gallon for the 4-cyl. manual transmission models, about 26 with the automatic and around 21 for the V6 models.

Summary

Accord prices range from a base price of a DX sedan (including the destination fee) to a fully loaded V6. In the better-equipped models, such as our LX tester, you still pay a bit of a premium for an Accord, but Honda has managed to whittle that premium down considerably over the last couple of years.

And when you've signed the bottom line, you drive home in a car that will provide years of trouble-free driving pleasure.

The Accord has earned a reputation as one of the most consistently reliable cars on the market. You simply can't go wrong with this car.

Model Line Overview

Model lineup:	N/A
Engines:	2.2-liter sohc 16v 4-cyl.

Years Owned: 3 Years
Mileage: 200000
Style: LX /5-Spd/4-cyl/2-Dr
Owned Before: I have previously owned a vehicle of this make.

Pros: Reliable, Sporty look, Strong engine, Decent gas mileage
Cons: none for me

Review : We bought our 96Accord with 125K miles 3 years ago. Since then, we've put in 75K miles and it is still running strong. We do of course give it regular oil changes & maintenance...For ex. we chose to change the timing belt as recommended and schedule a major tune-up every 25-30K. This vehicle has never left us stranded, ever. We just recently replaced the brakes/rotors. At 200K, we still drive it everywhere---

Pros: Overall Excellent Car
Cons: None yet

Review: I recently purchased a 96 Accord EX. The car is in excellent condition and if you take care of it properly, it can last for 10+ yrs. I also own a 90 Accord EX that has 160K miles and it drives excellent. Plus the accord has an excellent re-sale value. I have no complaints about this vehicle

CARFAX Price Adjustment™

Accidents, service records, number of owners and many other history factors can affect a vehicle's value. The CARFAX Price Adjustment is a tool that analyzes millions of used car transactions to measure how the combination of all the information reported to CARFAX affects the value of a particular vehicle. The vehicle's retail book value plus the CARFAX Price Adjustment will give you a more accurate measure of the vehicle's value. Use this tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

What is a Special Value Vehicle?

At Infiniti /Nissan Marin we consider every vehicle special, but we have a special place in our business for those vehicles 7 years old (or older) that have 75,000 or more miles. We refer to them as a “Special Value Vehicle” because we can offer them for sale at a discounted price knowing they may have some minor issues that our guests can chose to repair or not, either now or in the future.

Taking advantage of a “Special Value Vehicle” affords many people the opportunity to own a reliable and safe vehicle that has been inspected by professional mechanics. You can count on the vehicle being SAFE to drive, has passed California Smog emissions, the Steering system is reliable, the Brakes have 30% wear or greater, and Starts with no problem. We also effort to make the car as clean as possible, even having it professionally detailed.

It is important to know the “Special Value Vehicle” will almost always have some mechanical and cosmetic issues. It is common to experience fluid drips / seeps, dents, stains, interior blemishes, and other minor issues that do not fall into the inspection criteria above.

Transparency is a cornerstone of our company, and by providing you this explanation we wanted you to know that we take your expectations seriously. Thank you for your business!

8. **Nissan Marin** will buy your used vehicle, within 7-days of our appraisal, **whether you buy a vehicle from us or not**.
9. **Nissan Marin** will provide you with a **loaner vehicle at no charge** for any service estimated at \$400 or more.
10. We provide **free scheduled shuttle service** to all **Nissan Marin** customers.

Our goal is 100% customer satisfaction! See what our customers are saying about us:

In Marin for the weekend, had a problem with my Nissan, the level of service I received at Marin Nissan makes me want to move up north, my dealer in SoCal could learn a thing or 2 when it comes to treating a customer with respect and servicing my car so professionally! I met the new GM, Scott. He has the place exciting.

Just got back from driving my new Xterra to Tahoe! It is awesome. Thank you so much to Nissan Marin and their team for such an awesome experience and vehicle! I would highly recommend this dealership. Especially sales Manager, Robert Singh, Jay Soto in the Sales department and Omar who takes care of the paper work and finances!

I've purchased many cars over the years with mixed results. I went to Marin Nissan expecting the usual car speak and shenanigans from the sales folk and managers. I worked with Greg and it was one of the best purchasing experiences I can remember. Greg and Ryan worked hard to find me the truck I desired with a true "hassel free experience". My truck was totaled and Greg voluntarily provided me with a rental vehicle until the Nissan Frontier I purchased arrived at the dealership...that was fantastic. I was impressed with the overall operation, managers and especial Greg for their professionalism and straight forward business practice. I would strongly recommend purchasing from Marin Nissan and advise any customer to ask for Greg Giuliani.

This was by far the best experience I have ever had buying a car. There was no haggling, no B.S. Just a fair price on a used Juke and a good bargain on a trade-in. I told Julian what I wanted (which was realistic) and he gave it to me, no problem, immediately. The whole transaction including the test drive took two hours. It was easy and pleasant.

This is a brand new dealership in Marin and everyone was extremely eager to please. They gave me everything that I asked for and FREE LIFETIME CAR WASHES with the purchase.
Who could ask for more?

So impressed with Nissan Marin. Friendly staff who cares about earning your business. Jay was fantastic and took the time to make sure I was taken care of. I came back three times to make my decision to buy my Nissan Leaf. Jay welcomed me every time and made sure all my questions were answered.
Thank you Jay and Nissan Marin. I LOVE my LEAF.

My husband and I had a great experience at Marin Nissan. Our sales manager, Miguel Lopez and Product Specialist, Jay Soto, offered us excellent customer service. Very pleasant experience and we got a fantastic deal on an Altima. We are very happy with our car! We will stick with them!
Angie and Nick
