

FIL-IDF Canada Conference and Workshop on Dairy Sustainable Development and Environment

March 16-17, 2010 – Ottawa, Canada

The Conference and Workshop on Dairy Sustainable Development and Environment has been organised under the auspices of the Canadian National Committee of the International Dairy Federation (FIL-IDF Canada), in partnership with Dairy Farmers of Canada (DFC), Dairy Processors Association of Canada (DPAC) and the Canadian Dairy Commission (CDC).

The important and innovative workshop is being held to take stock of the current situation world-wide on climate change, as well as to examine initiatives dairy farmers, processors and stakeholders throughout the dairy supply chain have undertaken to promote sustainable development, in Canada and around the world.

As part of the workshop, FIL-IDF Canada will highlight the challenges and opportunities for the Canadian dairy industry and set the table to discuss an Action Plan for Canada's dairy industry

FIL-IDF Canada and its partners hope to integrate the Canadian dairy industry's actions into the International Dairy Federation's (IDF) Global Dairy Agenda for Action on Climate Change and IDF Green Paper and Initiative. For more information on this initiative please visit:

www.dairy-sustainability-initiative.org

Location: Mariott Ottawa, Ottawa ON

Date: March 16-17, 2010

Registration: The registration form is attached to this invitation and contains all information regarding hotel reservations and contact information. An agenda will also be circulated to all participants registered.

Please note that as a result of the involvement of FIL-IDF Canada, Dairy Farmers of Canada, the Dairy Processors Association of Canada and the Canadian Dairy Commission, there is no fee for attending this conference.
