Please provide a description of the methods used to solicit community input on community needs (attach additional pages if necessary): In 2008, the operating affiliates of Exeter Health Resources - Exeter Hospital, Core Physicians, Exeter Healthcare and Rockingham VNA and Hospice - and their community partners conducted a Community Needs Assessment, focusing on priority health needs identified in the 2003 Community Needs Assessment. The purpose of the Assessment was to engage actual community members – through key leader interviews and Community Forums – to achieve the following objectives:

1. Educate and inform key leaders and Community Forum participants of the results of the 2003 Community Needs Assessment and achievements to date to meet identified needs
2. Validate Priority Health Needs identified in the 2003 Community Needs Assessment and further define these needs in 2008 from the stakeholders' perspective
3. Identify unmet needs that have emerged since the 2003 Community Needs Assessment

4. Engage key leaders and Community Forum participants in a discussion to identify solutions to address community health needs
5. Share the findings of the UNH Survey Center Household Telephone Survey
6. Where appropriate, motivate key leaders and Community Forum participants to participate in efforts to address community health needs going forward
7. Serve as a continuing foundation for the development of a Community Benefits Plan, as mandated under RSA 7:32-e

The 2008 Community Needs Assessment included telephone survey, focus group and key leader interview components:

Exeter Hospital funded a random household telephone survey that was conducted by the University of New Hampshire Survey Center as a means of gathering information pertaining to the healthcare needs of the community. A total of 509 greater Seacoast adults were interviewed between May 22 and June 2, 2008.

A total of seven Community Forums were conducted in June, 2008, in the communities of Raymond, Portsmouth, Rochester, Dover, Hampton, Kingston and Exeter, with 119 total attendees.

Key Leader Interviews were conducted with various key leaders and stakeholders within the communities served by the operating affiliates of Exeter Health Resources and their community partners.

Addendum
The Operating Affiliates of Exeter Health Resources
Narrative Report of Community Benefits, FY 2012

The mission of Exeter Health Resources and its affiliates is *to improve the health of the community*. This mission will be principally accomplished without compromising Exeter Health Resources' sustainability by supporting the provision of health services and information to the community by the affiliated companies of Exeter Health Resources.

Throughout the past year Exeter Hospital, Core Physicians, Exeter Healthcare and Rockingham VNA & Hospice have continued the pursuit of this mission. During FY 2012 the affiliates provided \$30,582,651 in charity care and other community benefit programs and services to communities in the areas served. Since the inception of the community benefit reporting requirement in FY 2000, the affiliates of Exeter Health Resources have provided a total of \$233,601,079 in community benefits.

Exeter Hospital is a 100-bed community-based hospital serving New Hampshire's Seacoast Region. Exeter Hospital's scope of care includes comprehensive medical and surgical health care services in breast health, maternal/child and reproductive medicine, cardiovascular, sleep medicine, occupational and employee health, oncology, orthopaedics and emergency care. Exeter Hospital is accredited by DNV Healthcare, Inc.

Core Physicians is a community-based, multi-specialty group practice affiliated with Exeter Health Resources, providing comprehensive primary, specialty and pediatric dental care throughout the greater Seacoast Region. Over 160 providers in 32 locations pursue exceptional patient satisfaction through clinical competence and professional office administration.

Exeter Healthcare, Exeter's former sub-acute and rehabilitation care facility, offered patients multidisciplinary expertise that integrated rehabilitation, nursing, nutritional management, medical care and respiratory therapy. Exeter Healthcare closed late in FY 12, discharging its last patient in August 2012. The facility is currently utilized as hospital office space.

Rockingham Visiting Nurse Association & Hospice is a community-based home health and hospice agency providing individuals and families with the highest quality home care, hospice and community outreach programs within Rockingham County and the surrounding towns of Barrington, Lee and Durham.

This addendum includes some of the affiliates' many community benefit services and programs that address identified needs:

- Access to Care for Uninsured/Underinsured
- Mental Health Access
- Dental Care Access
- Prescription Medication Affordability
- Elderly Services
- Access to Substance Abuse Services
- Transportation
- Obesity

Access to Care

Financial Assistance Exeter Hospital has three components to its health care access program:

- The Uninsured Care Discount/Hospital Access Plus Program extends a 26% discount off total charges to patients.
- The Financial Assistance Program is a community-based program for uninsured and underinsured patients who meet specific income, geographical and other guidelines, and who do not otherwise qualify for any state or federal assistance.
- Exeter's Catastrophic Care Program provides financial relief for those patients who do not qualify for the Financial Assistance Program, but who are faced with a substantial debt due to a serious illness or injury. This program is calculated based on a percentage of the patient's gross income.

The operating affiliates actively promote these programs through direct patient education, paid advertising and community partnerships.

Exeter Hospital provided \$4,823,178 (calculated at cost) in charity care during FY 2012. In FY 2012 the charity care program served 2,173 people.

Core Physicians offers a financial assistance program for patients who meet certain geographic and financial criteria. In FY 2012 Core provided \$1,825,777 (calculated at cost) in charity care.

Women's Wellness Clinic: This clinic provides uninsured and underinsured women with recommended breast and cervical cancer screenings. In FY 2012 the Women's Wellness Clinic served 77 women and Exeter Hospital provided \$60,344 to continue this initiative.

Community Partners

The operating affiliates of Exeter Health Resources work collaboratively with local non-profit agencies and organizations which strive to improve the health of the community. These relationships include:

Lamprey Health Care: In FY 2012 Exeter Hospital continued its financial support of Lamprey Health Care with a community benefit grant in the amount of \$440,000.

Lamprey Health Care is New Hampshire's oldest and largest private, non-profit community health center with locations in Newmarket, Raymond and Nashua. The organization serves over 16,500 patients of all ages each year. As a community health center, they provide primary care and health-related services to all individuals and families, regardless of insurance status or ability to pay. By focusing on prevention and health care management, Lamprey Health Care strives to keep insured and uninsured patients healthy.

SeaCare Health Services: Exeter Hospital supported SeaCare Health Services in the amount of \$267,750

SeaCare is the oldest volunteer provider network presently functioning in the U.S. Organized in 1989, SeaCare initially provided primary care for children in Portsmouth but expanded in 1994 to include primary and specialty health care coordination services for people of all ages in 21 towns in the Seacoast Region.

Families First Health and Support Center: In FY 2012 Exeter Hospital made a financial contribution to Families First in the amount of \$35,000.

Families First is a community health center offering a wide variety of health services and programs including primary care, prenatal care, dental care and mobile health care for the homeless.

New Outlook Teen Center: Exeter Hospital continued its support of New Outlook Teen Center in the amount of \$25,000.

New Outlook is a recreational, educational and prevention-oriented program located in Exeter, NH offering after-school and summer adventure program settings for middle and high school youth. New Outlook serves more than 350 youth in the towns of Brentwood, East Kingston, Exeter, Kensington, Newfields and Stratham.

Behavioral Health Care

Seacoast Mental Health Center: Exeter Hospital partners with Seacoast Mental Health to offer mental health services to patients and their caregivers in the Emergency Department and Cancer Care Center. In FY 2012 Exeter helped to underwrite mental health services in the amount of \$386,589.

Dental Care Access

During FY 2012 Core Physicians' General Dentistry and Oral Surgery Practice provided subsidized dental services in the amount of \$120,446.

The School-Based Mobile Dental Program continued to provide pediatric oral health care to children grades K-5, in 18 towns throughout the greater Exeter area. Services provided during the past year included oral screenings, dental examinations, radiographs (x-rays), preventive sealants, cleanings, restorations, oral health education, and care coordination.

During FY 12 (5,327) children received education through the school mobile dental Program; 555 children received an oral screening; 36 children received an Examination and x-rays by a dentist; and 90 children received a dental cleaning.

Transportation

Exeter Hospital's transportation program is an important health care support service provided in response to an identified community need. Each year the program enhances access for hundreds of patients who otherwise would not be able to obtain needed health care and health related support services. During FY 2012 Exeter Hospital provided 2,411 transports at a cost of \$139,973.

Additional Community Benefit Programs and Services

Health Professions Education

The operating affiliates of Exeter Health Resources continue to support professional education opportunities for those pursuing a future in health care.

Through the health professions education program, students in various stages of their academic careers benefit from the experience of working with professional clinical staff. An agreement with Dartmouth-Hitchcock Medical School allows medical students to pursue internships through Core Physicians' Exeter Pediatrics practice. A partnership with the Seacoast School of Technology allows high school juniors and seniors to explore future health career options available to them. Each year a large number of nursing students are given the opportunity to work alongside the excellent clinical staff of Exeter Hospital, Core Physicians and Rockingham VNA & Hospice.

During FY 2012 159 students spent a total of 11,443 hours participating in training and internship programs provided by the affiliates of Exeter Health Resources at a total of \$661,411.

Research

The Center for Cancer Care at Exeter Hospital participates in several national research groups sponsored by the National Cancer Institute, which enables the Center to offer clinical trials to patients undergoing treatment at Exeter Hospital. These offerings allow patients to voluntarily take part in leading edge research that does not necessitate travel outside of the Seacoast area. During FY 2012 Exeter Hospital provided \$63,383 for clinical trials and research that served 260 patients.
