

BCIT 2015/2016 Biotechnology Career Awareness Program

This package contains:

- Program Overview
- Summary of Events
- Criteria
- Workshop Descriptions
- Career options
- Application form

Program Overview

Welcome to the thirteenth year of the Biotechnology Career Awareness Program. The program is directed at Grade 10, 11 and 12 students with an interest in science and is built on a partnership between BCIT, Life Sciences BC, local biotechnology companies and participating school districts.

The program consists of a series of integrated elements (please see Summary of Events):

- A student application and selection process
- Final student selection
- Laboratory workshops at BCIT
- Industry visits

There will be **48** openings for the workshops and industry visits. The program will assign an initial student quota to each district and every effort will be made to accommodate interested students if district quotas are not filled.

Districts will be responsible for student selection ensuring that students meet the selection criteria (please see Selection Criteria and the attached application form). **It is very important that students rank their workshop preferences rather than indicating only their first choice.** If students are only able to make one of the workshops, we will do our best to accommodate them.

The program will provide bus transportation (when applicable) between the laboratory and the industry site. The Biotechnology Career Awareness Program working group endeavors to improve the program each year. We welcome your feedback on any part of the program at any time.

Thank you for helping make the program the success it has become.

The Program Planning Committee

Getting Started

- ✓ Students meeting the stated selection criteria apply to their teachers using the application form (last two pages of this document).
- ✓ District coordinator, teacher or school representative sends application forms **via e-mail** to biotech@bcit.ca BCIT Biotechnology department by **NOVEMBER 6, 2015**.

NOTE TO TEACHERS/FACILITATORS

Please submit completed forms as soon as they are received to secure seat booking. Applications are accepted from September to November and workshop placements are on a **first-come first-served** basis. Accepted students will be notified via email the week of November 13th, 2015.

Please note that the course fee is now 203.02\$.

Due to continued increases in expenses/supplies and our desire to maintain the highest quality student experience possible, we have had to make this necessary adjustment.

Send application forms by email to: biotech@bcit.ca

PROCESS UPON ACCEPTANCE TO EITHER:

WORKSHOP A: December 7-11, 2015 or

WORKSHOP B: April 25-29, 2016

1. Student will be notified of acceptance during the week of November 13
2. Accepted applicant creates student number <https://secure.bcit.ca/sis/reg/> and sends to biotech@bcit.ca
3. Once receipt of student number has been confirmed, applicant must make payment <http://www.bcit.ca/study/courses/biot0001>
4. **In order to confirm seat, each student fee payment MUST be made to BCIT no later than **FRIDAY NOVEMBER 20, 2015**.** If payment does not occur by the deadline, seat will be offered to applicants on the waiting list.

PAYMENT OPTIONS

BCIT offers a variety of convenient payment options for tuition and related student fees:

- Online banking (bill payment)
- In-person – cash, debit card, cheque, bank draft, money order

Please note, BCIT **does not accept credit cards** for payment of tuition and related student fees or for rent.

1. **Online banking (bill payment):** BCIT accepts payment from Canadian banks and credit unions and it is the **recommended method** for paying your fees. Payments can be made quickly and at your convenience through your bank's online services using your home computer, tablet or smartphone. Canadian financial institutions have two payment options: Tuition and Rent. Find the bill payments section on your institutions' website and add either "BCIT – Tuition Payments" as a **PAYEE**. Your nine (9) digit student ID (A#####) is your account number. If the student ID is not present, the funds will be returned to your financial institution.

Please note there may be a delay of up to 48 hours from when you make your payment to when the payment reaches BCIT, so ensure you schedule sufficient time before your payment deadline. **You can view your BCIT receipt in your myBCIT account to confirm payment has been received by BCIT.**

2. **In-person (Student Information and Enrolment Services):**

Customers can choose from a variety of in-person payment options including:

- Cash
- Debit card – please keep in mind your daily transaction limit
- Cheque – please ensure the cheque is made payable to BCIT and includes your student ID
- Bank draft
- Money order

Criteria

Eligible students must:

- Have an expressed interest in science-related curriculum, be enthusiastic about scientific research and lab work, and be interested in learning about careers related to biotechnology
- Be a Grade 10, 11 or 12 student
- Actively participate in the lab-based workshops and attend all sessions
- Be able to initiate and maintain conversation with practicing professionals at an industry site concerning occupational information and scientific focus

Refund Policy

Refunds for students who cancel their participation in the Program will be reviewed under BCIT's part time studies refund guidelines and ultimately determined by the staff in BCIT's School of Health Sciences. **Please contact Leesa Watt 604-432-8831 or biotech@bcit.ca to discuss cancellation and refund process.**

Two (2) week notice for cancellation is required in order for student to receive refund.

Workshop Information

Note:

An e-mail with location and schedule details will be sent 2 weeks before start dates.

December 7-11, 2015

April 25-29, 2016

Biotechnology Laboratory
SW09 208, BCIT Burnaby Campus

Examples of Careers in Biotechnology

In Research & Development

– **Research Scientist**

Responsible for initiating, directing and executing all preclinical scientific research and/or development strategies for a company through the research staff or individual studies which are critical.
Typically requires a PhD in a scientific discipline.

– **Research Associate**

Responsible for research and/or development in collaboration with others for projects.
Typically requires a B.Sc. or a M.Sc. in related field.

– **Laboratory Assistant**

Responsible for performing a wide variety of research and/or development laboratory tasks and experiments.
Requires a high school diploma or some laboratory experience.

– **Quality Control Analyst**

Responsible for conducting routine and non-routine analysis of raw materials, in process, and finished formulations according to standard operating procedures.
Typically requires a B.Sc.

– **Quality Assurance Associate**

Responsible for performing a wide variety of activities pertaining to assuring compliance with applicable regulatory requirements by conducting audits, training programs, data and documentation reviews and analysis.
Typically requires a B.Sc.

In Regulatory Affairs

– Regulatory Affairs Associate

Responsible for the coordination and preparation of document packages for regulatory submissions to regulatory bodies, such as the Food and Drug Administration (FDA) in the US and the Therapeutic Drug Program in Canada, from all areas of the company, internal audits and inspections. Typically requires a B.Sc.

– Manufacturing Associate

Responsible for the implementation of production and large scale manufacturing procedures to optimize processes and regulatory requirements. Typically requires a B.Sc.

– Process Development Scientist

Responsible for the development of methods for the production, purification, fermentation and testing of new process formulas, technologies and products. Typically requires a PhD in a scientific discipline.

In Clinical Research

– Medical Director

Responsible for managing the direction, planning, execution, and interpretation of clinical trials (clinical trials are research involving humans) and the data collection activities. Typically requires a MD or PhD.

– Medical Writer

Responsible for researching, writing, and editing clinical reports, summarizing data from clinical studies for submissions to the FDA and for publication and/or presentation. Typically requires a B.Sc. or M.Sc.

– Clinical Research Associate

Responsible for the design, planning, implementation and overall direction of clinical research projects. Typically requires a B.Sc., RN or BSN degree.

– Biostatistician

Responsible for the design, development, modification and evaluation of a technical infrastructure to expedite conducting and evaluation of clinical trials. Typically requires a M.Sc. or PhD.

BCIT 2015/16 CAREER AWARENESS

E-MAIL APPLICATION FORM send to biotech@bcit.ca

COMPLETE THIS FORM AND RETURN IT TO YOUR TEACHER

Applicants Last Name: _____ First Name: _____

Address: _____

City: _____ Postal Code: _____

Telephone: _____ Email: _____

Date of Birth: _____

Gender: _____

Grade: _____ School: _____ District #: _____

Teacher's Name: _____ Average Grade (letter): _____

Did you apply to this program in 2014/15? Yes No

BCIT will possibly be using photographs of participating students for promotional material for this program. Parental permission is needed.

My personal information (photographic/video image only) may be collected under the Authority of the Institute Act (RSBC 1996, Ch.225) for the purposes of instruction or promotion. I hereby authorize BCIT exclusive permission to use this information for purposes of promotion of BCIT programs and graduates and marketing in any published or displayed media format for no charge.

Participant Name: _____

Parent Name: _____

Parent Signature: _____

Date: _____

Please rank your workshop attendance order of preference.

1. Please rank your choice: 1= 1st choice

2 = 2nd choice

Workshop A (December 7-11, 2015)

Workshop B (April 25- 29, 2016)

1st Choice

1st Choice

2nd Choice

2nd Choice

Please answer the following questions:

1. What are your long-range career goals?
2. On a Scale from 1 to 10 (10 being very comfortable), how comfortable are you asking questions to professionals and post-secondary instructors?
3. What courses have you taken in secondary school that would relate to this career field?
4. What have you done to prepare yourself to study and work in this area (volunteer experience, related jobs, extra curricular activities, etc.)?
