PART III – ANNUAL NARRATIVE

Section A: Description of Progress and Status Update: [Please provide a brief overview of overall project status, staff changes, staff training or other major developments with regard to the PABSS program. This could include information about boards and committees where decisions are made concerning disability service delivery and local policy.]

One of the Virginia Office for Protection and Advocacy's Disability Rights Advocates working under this grant secured a position with another state government agency (Department for the Blind and Vision Impaired) as a rehabilitation counselor. Although VOPA misses her and her fine work, we are pleased that she is in another state agency and is available to collaborate on behalf of individuals with disabilities. With the experience she gained at VOPA, she has voiced that this will increase her effectiveness as a rehabilitation counselor. The cases assigned to this staff have been re-assigned to other VOPA staff who have completed the BPAO/PABSS Training. The transition of cases went smoothly.

VOPA provides information and referral services to SSI/SSDI beneficiaries calling with questions regarding the Ticket to Work legislation and program implementation status in Virginia. Information has also been provided on issues relating to Medicaid 1619b

status and employment discrimination. The SSA approved Ticket to Work Fact Sheet has been distributed to these individuals and others.

In addition to providing case level advocacy and legal services, VOPA participates in a number of activities that support the effort to assist SSI/SSDI beneficiaries gain/sustain/maintain employment.

VOPA participates in the interagency Medicaid Buy-In Workgroup. Principal agencies are the Department of Medical Assistance Services (DMAS), the Department of Rehabilitative Services (DRS), and VOPA. Other agencies, including Social Security, the Department of Mental Health Retardation, and Substance Abuse Services (DMHMRSAS), and several local agencies are also participants. Representation on this Workgroup has been reassigned to the VOPA Policy Director.

VOPA offers trainings on the Ticket to Work Act.

VOPA represents people who have disputes with entities providing employment services.

VOPA provides technical assistance to people with employment discrimination complaints.

VOPA represents people who have had their SSI and SSDI benefits discontinued or reduced due to alleged overpayments.

VOPA developed publications regarding the rights of SSI/SSDI recipients who have had their benefits reduced or discontinued due to overpayment. However, they were not approved by SSA. We are exploring other options for publications/funding of the publications.

VOPA entered into an agreement with DRS ensuring that DRS will appropriately provide educational funding for SSI/SSDI recipients. Previously, DRS had improperly considered the resources of SSI/SSDI recipients, resulting in DRS clients being denied educational funding. VOPA investigated and found that DRS was violating federal law by doing so. VOPA demanded that DRS change its practice and, after settlement negotiations, DRS agreed to do so. VOPA has reviewed DRS' new policy and is of the opinion that it is in compliance with federal law.

VOPA continues to represent DRS clients, including those with brain injuries, HIV and mental illness, who have been denied appropriate employment services.

Other collaborative activities include the following:

- VOPA participates in the Virginia BPAO electronic listserv and the nationwide PABSS listserv.
- VOPA participates in teleconferences with BPAO staff throughout Region III.
- VOPA staff attended several PABSS-specific sessions at the annual conference of the National Association of Protection and Advocacy Systems (NAPAS).

Section B: Detail of Actions Taken on the Project:

1. Case Summaries: [Please provide summaries of three cases undertaken as part of the PABSS project. Indicate clearly the issue or problem, the PABSS intervention, and the results if known]

VOPA filed an appeal of a decision finding a client ineligible for Impairment Related Work Expenses (IRWEs). After an administrative hearing, the Hearing Officer found in the client's favor with regard to all three of the IRWEs we appealed.

A client is being released from a mental facility after several years there. He receives SSDI, and has an overpayment issue. We have intervened to ensure that the discharge plan established for this client does not involve a forfeiture of social security benefits or a scenario whereby he would lose Medicaid eligibility. This is an ongoing case.

A client has been assessed an overpayment, and he insists he notified the social security administration when he returned to work. We are reviewing his file to assess his eligibility and overpayment, and will assist him in negotiating a repayment if necessary.

VOPA represented a woman she had been found ineligible for SSI/SSDI benefits. VOPA filed an appeal of the decision. After a trial, the Judge found in the client's favor and found her eligible for benefits.

VOPA represented 9 people who had their SSI/SSDI benefits reduced or discontinued due to overpayment.

VOPA represented a client whose case was opened due to an overpayment. Social Security Administration informed the client that he owed \$8,464.00 due to an overpayment. They failed to consider that RP had Impairment Related Work Expenses and Subsidies. VOPA attained and provided documentation of these Work Incentives. Based on VOPA's work, the overpayment has been reduced from \$8,464.00 to \$1,998.00. VOPA is continuing to work on this case in the hope of erasing the overpayment in its entirety.

*PABSS staff participated in a local radio station's program on recent developments in educational law. It was a "point-counterpoint" format with a representative from Virginia's Department of Education. Within the discussion about transition, PABSS staff addressed the necessity of benefits planning for students with disabilities.

2(b). Other Activities Narrative: [Describe the agency's outreach efforts. Describe the trainings presented by the staff including information about the topics covered, the purpose of the training, and a description of the attendees. Describe media events, informational materials developed or other activities undertaken as part of the PABSS project. Do not repeat information that was previously reported in another section] Use separate sheets if necessary.

VOPA provides "Office Hours" at several Centers for Independent Living across the State. Staff provides consumers with information about VOPA in general and our efforts under PABSS as well.

VOPA maintains a website that posts all of our federal grants' priorities, goals, and objectives, including TBI. This website also has the notices for the Board of Directors' and VOPA's Advisory Councils meetings. Job vacancies, announcements, VOPA publications, quarterly newsletters, and disability-related links are also available

The VOPA newsletter mailing list was reviewed and updated to better reflect inclusion of underserved populations. It has been updated to include more consumer and family representation. In addition, other advocacy entities have been added. The newsletter mailing list is not a static work product; VOPA considers it to be an on-going project that will consistently be reviewed and updated to best reflect the disability communities in Virginia.

VOPA routinely provides training and speaking engagements through our Speakers Bureau. This is VOPA staff being available to provide training and presentations that are related to the Office's current Goals/Focus areas/Objectives (priorities). VOPA also provides exhibits and/or materials for fairs, conferences, and other functions. VOPA's Speakers Bureau has been busy over the past year. Whenever a presentation is conducted about VOPA in general, it addresses some of the work we do related to work incentives and Social Security issues. In particular, our presentations related to special education/transition services and Medicaid may be helpful to Social Security Beneficiaries.

Section C: Diversification activities: [Please provide a description of activities undertaken to address the needs of individuals with disabilities from diverse ethnic and racial communities.]

VOPA is fortunate to have developed a representative committee that reflects the disability and Spanish Speaking communities and is assisting with implementing a planful, strategic outreach effort. Representatives from the VOPA Advisory Councils have been recruited to join this effort. The Committee has developed an outreach plan to be implemented in August 2005. The plan will mirror the current FY05 Goals and Focus Areas in many respects. VOPA has begun the general education process by meeting with the Limited English Speaking Program in Richmond to discuss VOPA's mission and services. VOPA has also met with the Governor's Latino Advisory Commission Liaison to discuss the findings of the Latino Advisory Commission's report on the needs of the Latino community in Virginia. VOPA made a radio appearance for WRIR (97.3 FM), a newly created independent radio station in Richmond which provides many public interest shows targeted at the Spanish-speaking community in Richmond. One of the challenges related to providing outreach to Spanish speaking communities is that VOPA does not have any Spanish speaking staff even though we are actively recruiting for bi-lingual/bi-cultural staff.

VOPA experienced some staff changes in key positions related to outreach and publication development. This has been recognized and the outreach advocate position is being re-evaluated in relationship to the needs of the overall agency.
