HELP GUIDE

Purair® 20

M. Main Filter Area: You need one main filter and one pre-filter for each blue filter door. This example shows that two main filters and two pre-filters are needed.

W. Filter Part Number: Look in the filter window to determine the main filter part number.

DOES MY UNIT HAVE THE OPTIONAL SAFETY FILTER?

Look at the top of the unit. If you can see the filter bolted by screws, your unit has this option.

In the photo above, the filter can be readily seen on the top of the unit. If you just see solid white on top, it does not have the optional safety filter.
