Special Needs:

Important Note: Registration is restricted to farm based businesses.

Course Description: This course will train farm based food processors principles of acidification, and container closure evaluation programs for acidified canned foods as required by FDA regulations in CFR 108 and 114 as adopted by reference by the State of Connecticut pursuant to 21a-115-54 and 21a-115-59, RCSA. The purpose of these regulations is to help ensure the safety of consumers by training producers. This course will also satisfy Connecticut Department of Consumer Protection training requirements pursuant to Section 21a-24a, CGS.
