DISCONTINUATION GENERAL INFORMATION

1. This is the discontinuation of a single specialty ambulatory surgical treatment center with one operating room..
2. N/A
3. The anticipated date of discontinuation is seven days after approval by the Board. If this application is approved at the October 4, 2011 meeting, the discontinuation will take place October 11, 2011.
4. The physical plant and equipment will be used as a medical office by Dr. John Grady, the owner of the applicant.
5. Medical records of the ASTC will be maintained in a locked storage area in Dr. Grady's office. Records will be maintained for three years or whatever length of time is required by statute or rule, whichever is longer.
6. A Certification that questionnaires and data required by this Board and the Illinois Department of Public Health will be filed follows this page.

REASONS FOR DISCONTINUATION

The facility is closing due to insufficient use. Foot & Ankle Associates, Ltd., which includes Dr. John Grady, applicant's owner, is the only physician practice using the ASTC. In 2009, only 52 surgeries were performed. In 2010, the number dropped to 11.

There are several reasons for the continuing reduction in volume. First, two physicians left Foot & Ankle Associates, Ltd. and relocated their practices to other cities. There have also been changes in the reimbursement for the patients of the physician practice. More of our patients have insurance that does not have a contract with the ASTC which would result in significant additional cost to the patient of the procedures were performed at the applicant.

IMPACT ON ACCESS

1. Applicant had less than 100 procedures performed at its facility in the last two years. Only one physician practice uses the facility. Discontinuing the facility will not cause any adverse impact on residents in the facility's market area. Nine facilities submitted letters stating that they can absorb applicant's workload. Dr. Grady has privileges at Christ Hospital, Little Company of Mary Hospital, Ingalls Memorial Hospital, Ingalls Same Day Surgery Center and Tinley Woods Surgery Center allowing him to perform procedures on his patients at a facility within applicant's service area.

ATTACHMENT 10

2. Included as Attachment 10a is a list of approximately 90 facilities sent a request for an impact statement. A copy of the letter requesting the statement is included as Attachment 10b. All letters were sent certified mail.
3. Copies of all impact statements received follow this section. A list of nine facilities that submitted letters stating that they could absorb applicant's workload is included as Attachment 10c. One facility is located within five miles of applicant.

CERTIFICATION

I certify that all questionnaires and data required by the Illinois Health Facilities Services Review Board or the Illinois Department of Public Health will be provided through the date of discontinuation and that required information will be submitted not later than 60 days following the date of discontinuation.

Dear Mr. Rogal:

I am writing this letter to support the decision of the Illinois Center for Foot & Ankle Surgery located at 4650 Southwest Highway, Oak Lawn, IL 60453, to discontinue its services of ambulatory surgical treatment. Due to the present economy, we have experienced a drop in our census and fully understand the dilemma that medical facilities throughout the state are realizing.

South Shore Hospital is able to receive Podiatry patients at anytime, due to our able staff of Podiatrists. Thank you for notifying us of this situation in your letter of June 22, 2011.

Dear Mr. Rogal,

In regards to the discontinuation of the ambulatory surgery treatment center listed above, the Plainfield Surgery Center would have no difficulty absorbing the volume of cases described in your letter. Also, Illinois Center for Foot & Ankle Surgery is over 30 miles from our location. It is unlikely that patients in that area would seek to have services at our location.

The discontinuation of the Illinois Center for Foot & Ankle Surgery would have little impact on the operation of the Plainfield Surgery Center.
