

## Christchurch Boys' High School eLearning Student agreement

The use of a personal device (laptop, tablet, wearable or mobile phone) for learning at Christchurch Boys' High School is guided by the school's values:

### Respect

*A device used at school should be used primarily for learning, especially in the classroom. Students must obtain the permission of each of their teachers to use their devices in that teacher's class and this may change from lesson to lesson.*

### Integrity

*Using a device to create, share or acquire abusive, threatening or offensive material is not permitted. Students must not record video, images or audio without permission of the subject.*

*Use the internet wisely – always act within the law, do not plagiarise, and ensure the work of others is properly referenced.*

### High Expectations

*Keep your device safe. Insurance and security is the responsibility of the owner/user. Students bring devices at their own risk. Students may leave devices with the Bursar or other staff members if necessary. All devices should be permanently named to allow the return and/or tracing of devices.*

*All passwords must be kept safe and not shared with anyone. Students are expected to take responsibility for any activity on their own devices.*

*Student devices are expected to be fully charged at the beginning of the school day.*

### Meaningful relationships

*The CBHS ICT technicians will assist students with network-related issues if they are unable to be solved without expert assistance, but students should know their own devices. Students should consult the Moodle I.T. Help page in the first instance for trouble shooting issues.*

Failure to adhere to any of the above school values may result in disconnection from the network, suspension of the device's use at school and further discipline from the school. Parents may be asked to pick up devices that have been misused, and permission to bring them in future may be withdrawn.

I accept the terms of this policy and agree to use my personal devices responsibly.
