Pain Society of the Carolinas
Annual Meeting and Scientific Sessions
OCTOBER 22 - 25, 2015
The Hyatt Hotel, Downtown Greenville, South Carolina

DANNEMILLER

Jointly Provided by Dannemiller and the Pain Society of the Carolinas

ABOUT THE PAIN SOCIETY OF THE CAROLINAS

LAUNCHED TO SERVE THE PHYSICIANS AND HEALTHCARE PRACTITIONERS IN NORTH AND SOUTH CAROLINA!

You're Invited to the Scientific Sessions -- Register and Membership is free!

The Pain Society of the Carolinas was launched in 2010 to address the growing need for an independent medical society dedicated to the treatment of acute and chronic pain and invites all physicians and practitioners (Nurses, NP's, PA's, Therapists, Pharm D's etc.) with an interest in pain management to join. With the goals of networking, education, and advocacy, the Society is here to serve you.

We want to welcome you to join us for the 2015 Annual Meeting and Scientific Sessions. We hope to enhance your knowledge and support your practice and patients with informative and interactive sessions. Our faculty consists of highly qualified pain management specialists selected for their excellent teaching skills, approachability and insight to help you advance your performance and comprehensive practice in both interventional and non-interventional pain management.

The Annual Meeting and Scientific Sessions are carefully designed for both practicing physicians and practitioners. We have joint sessions and parallel tracks that address specific issues facing the team of experts in your medical practice. On behalf of the Board of Directors, we look forward to seeing you in Greenville South Carolina this October - a time when our beautiful mountains are in their autumn splendor!

Jeffrey Folk MD, President

Welcome to Greenville, South Carolina

The Board of Directors chose the Hyatt Greenville South Carolina as the venue for our 2015 Annual Meeting. Greenville's renaissance over the past decade has earned it many accolades including, "Top 5 Great Getaways in the USA" and "Top 10 Best Downtowns of 2015." The venue is conducive to informal networking among professionals to promote scientific and diagnostic exchange and is sited to allow you to enjoy the vibrant restaurants in the evening at the close of sessions. Greenville is one City that should be on your "bucket list!"

Richard Boortz-Marx MD MS & Scott Runyon MD, Program Co-Chairs

PURPOSE

The purpose of this program is to educate physicians and healthcare practitioners in evolving acute and chronic pain management and provide a forum for participants to gain valuable understanding in evidenced based techniques, treatments and solutions for patients suffering from pain. In addition, legal issues and coding/ billing will be presented in a didactic, interactive format.

Educational Objectives

At the end of this program, participants should be able to:

1. Employ key diagnostic and treatment techniques for the management of pain.
2. Identify and administer appropriate safe opioid usage in patients.
3. Understand and include behavioral analysis in the evaluation of a chronic pain patient.
4. Identify and resolve issues relating to the law and billing for pain management.
5. Apply evidenced based strategies to clinical practice for managing complex pain patients.

Relating Content to Scope of Practice – Target Audience

Physicians and healthcare practitioners in anesthesiology, surgery, ER, internal medicine, neurology, family practice, orthopedics, PM&R, psychiatry, pharmacy and addiction will benefit from attending this course.
