II. Health information	II.a. Certificat reference number	II.b. TRACES reference number
------------------------	-----------------------------------	-------------------------------

1. Public Health attestation

I, the undersigned official veterinarian, hereby certify, that the animals described in this certificate:

- come from holdings which have been free from any official prohibition on health grounds, for the past 42 days in the case of brucellosis, for the past 30 days in the case of anthrax and for the past six months in the case of rabies, and, have not been in contact with animals from holdings which did not satisfy these conditions;
- have not received:
 - any stilbene or thyrostatic substances,
 - oestrogenic, androgenic, gestagenic or b- agonist substances for purposes other than therapeutic or zootechnic treatment (as defined in Council Directive 96/22/EC);

2. Animal Health attestation:

I, the undersigned official veterinarian, hereby certify, that the animals described above meet the following requirements:

- they come from the territory with code: (3) which, at the date of issuing this certificate :
 - has been free for 24 months from foot-and-mouth disease, for 12 months from rinderpest, bluetongue, Rift valley fever, contagious bovine pleuropneumonia, lumpy skin disease, peste des petits ruminants, sheep pox and goat pox, contagious caprine pleuropneumonia and epizootic haemorrhagic disease and for 6 months from vesicular stomatitis, and
 - where during the last 12 months, no vaccination against these diseases has been carried out and imports of domestic cloven-hoofed animals vaccinated against these diseases are not permitted.;
- they have remained

either in the territory described under point 2.1 since birth, or for at least the last six months before dispatch to the European Community and without contact with cloven-hoofed animals imported into this territory less than six months ago; (5) or

in the country of dispatch for at least 60 days since entry, if they are animals of the relevant species listed in Annex IV, Part 4 to Decision 79/542/EEC and they were imported directly under the conditions specified for each species in Annex IV, Part 4 to Decision 79/542/EEC from a third country during a period of less than six months prior to embarkation to the European Community and in any case they have been separated from other animals not of the same health status after being released in the exporting country and before exportation to the EU.(10). (5)
- they have remained since birth or at least 40 days before dispatch in the holding / establishment (5) described under point I.11:
 - in and around which in an area of radius of 150 km, there has been no case/outbreak of bluetongue and epizootic haemorrhagic disease during the previous 100 days, and
 - in and around which in an area of 20 km radius, there has been no case/outbreak of the other diseases mentioned under point 2.1 during the previous 40 days;
- they are not animals to be killed under a national programme for the eradication of diseases, nor have they been vaccinated against any of the diseases mentioned under point 2.1 , and they:

either come from a herd which is recognised as officially tuberculosis free, and (5) (11) or

have been subjected to an intradermal tuberculin test within the past 30 days with negative results, and (5) (12)

they have not been vaccinated against brucellosis and they:

either come from a herd which is recognised as officially brucellosis free; (5) (11) or

have been subjected to a serum agglutination test which showed a brucella count of less than 30 IU of agglutination per ml, within the past 30 days; (5) (12) or

are castrated males of any age; (5)
- according to my knowledge and to the written declaration made by the owner, the animals:
 - do not come from holdings / establishments (5), and have not been in contact with animals of a holding, in which the following diseases have been clinically detected :
 - contagious agalactia of sheep or goats (*Mycoplasma agalactiae*, *Mycoplasma capricolum*, *Mycoplasma mycoides* var. *mycoides* 'large colony'), within the last six months,
 - paratuberculosis and caseous lymphadenitis, within the last 12 months,
 - pulmonary adenomatosis, within the last three years, and
 - Maedi/Visna or caprine viral arthritis/encephalitis,

either within the last three years, (5) or

within the last 12 months, and all the infected animals were slaughtered and the remaining animals subsequently reacted negatively to two tests carried out at least six months apart, (5)
 - are included in an official system for notification of these diseases, and
 - have been free from clinical or other evidence of tuberculosis and brucellosis during the three years prior to export;
- they are dispatched from the holding described under point I.11 directly to the European Community and, until dispatched to the European Community:
 - they did not come in contact with other cloven-hoofed animals not complying with at least the same health requirements as described in this certificate, and
 - they were not at any place where, or around which within a 20 kms radius, during the previous 30 days there has been a case/outbreak of any of the diseases mentioned under point 2.1;
- any transport vehicles or containers in which they were loaded were cleaned and disinfected before loading with an officially authorised disinfectant;
- they were examined by an official veterinarian within 24 hours of loading and showed no clinical sign of disease;
- they have been loaded for dispatch to the European Community the (13) in the means of transport described under point I.15 above that were cleaned and disinfected before loading with an officially authorised disinfectant and so constructed that faeces, urine, litter or fodder could not flow or fall out of the vehicle or container during transportation.

3. Animal transport attestation

I, the undersigned official veterinarian, hereby certify, that the animals described above have been treated before and at the time of loading in accordance with the relevant provisions of Council Directive 91/628/EEC, in particular as regards watering and feeding, and they are fit for the intended transport.

4. Specific requirements

- According to official information, no clinical or pathological evidence of infectious bovine rhinotracheitis (IBR) has been recorded in the holding(s) of origin referred to in point I.11, for the last 12 months;
- the animals referred to in point I.28:
 - have been isolated in accommodation approved by the competent authority for the last 30 days immediately prior to dispatch for export, and
 - have been subjected to a serological test for IBR on sera taken at least 21 days after entry into isolation, with negative results, and all animals in isolation have also given negative results to this test, and
 - have not been vaccinated against IBR.;
- Further requirements and/or tests: (5) (5) (14)

(1) Live animals of the taxa Proboscidea and Artiodactyla (excluding Suidae, *Bos taurus*, *Bison bison*, *Bubalus bubalis*, *Ovis aries* and *Capra hircus*). After importation the animals must be conveyed without delay to the holding of destination where they shall remain for a minimum period of 30 days before further movement outside the holding, except in the case of a dispatch to a slaughterhouse. (2)

(2) Issued by the competent authority.

Part II: Certification

II. Health information	II.a. Certificat reference number	II.b. TRACES reference number
<p>(3) Country and code of territory as appearing in Part 1 of Annex I to Council Decision 79/542/EEC (as last amended).</p> <p>(4) The registration number(s) of rail-wagon or lorry and the name of the ship should be given as appropriate. If known, the flight number of the aircraft. In case of transport in containers or boxes, the total number, their registration and seal numbers, if present, should be indicated under point I.22/I.23.</p> <p>(5) Keep as appropriate.</p> <p>(6) Complete if appropriate.</p> <p>(7) Live animals of the taxa Proboscidea and Artiodactyla (excluding Suidae, Bos taurus, Bison bison, Bubalus bubalis, Ovis aries and Capra hircus). After importation the animals must be conveyed without delay to the holding of destination where they shall remain for a minimum period of 30 days before further movement outside the holding, except in the case of a dispatch to a slaughterhouse. (2)</p> <p>(8) The animals must bear:</p> <p>(9) Age (months). Sex (M = male, F = female, C = castrated).</p> <p>(10) Tests that may have been carried out in the animal during 30 days prior to dispatch for exportation. Use, as appropriate, the codes as appearing in Part 3.C of the Annex I to Council Decision 79/542/EEC identifying the diseases, that have been tested in accordance with the protocols of this Part 3.C or using tests for diseases requested by the Member State of destination.</p> <p>(11) In this case the health certificate has to be accompanied by the official document on quarantine and test conditions in Annex I, Part 1 to Decision 79/542/EEC (model "CAM").</p> <p>(12) Officially tuberculosis/brucellosis free regions or herds recognised as equivalent to the requirements laid down in Annex A to Council Directive 64/432/EEC and which appear in column 6 of Part 1 of Annex I to Council Decision 79/542/EEC (as last amended), with the entry " VII ", as regards tuberculosis, " VIII ", as regards brucellosis.</p> <p>(13) Tests carried out in accordance with the protocols that, for the disease concerned, are described in Part 3.C of the Annex I to Council Decision 79/542/EEC. However for the tuberculin test a result of an increase in skin fold thickness of 2mm or more, or clinical signs of such as oedema, exudation, necrosis, pain and/or inflammation shall be deemed to be positive.</p> <p>(14) Date of loading. Imports of these animals shall not be allowed when the animals were loaded either prior to the date of authorisation for exportation to the European Community of the territory mentioned under (3), or during a period where restrictive measures have been adopted by the European Community against imports of these animals from this territory.</p> <p>(15) When required by the EU Member State of destination.</p>
