Mileage Log – For Mileage Reimbursement When Your Personal Car is Used for Business

This log is to be used when you are requesting reimbursement for <u>multiple</u>, short trips around the Atlanta <u>or Oxford area</u> and submitting them all at once for reimbursement. This would serve as your supporting documentation for mileage when filling out your Expense Report.

However, <u>trips outside of the local Atlanta or Oxford area</u> need to be submitted with a MapQuest printout showing miles driven instead. The MapQuest printout serves as your supporting documentation when filling out your Expense Report.

* Miles driven to/from home and usual place of work (aka commuter miles) as well as personal miles cannot be reimbursed and need to be removed from the total.
