Optical Comparator 6X (Eye Gage) for

Intelligent Mail® Barcode

Cat. No. 100700

DISCLAIMER:

In the past, the USPS tested the scanners, verifiers, and bar coding tools provided by the companies listed below. However, the USPS does not suggest or recommend using any of or only these devices. The use of any device does not necessarily ensure compliance with Domestic Mail Manual (DMM) and Intelligent Mail® Barcode requirements. The information regarding these manufacturers is a guide but in no way provides a guarantee to their performance since the USPS has no control of their third-party products. The USPS does not plan to add any new manufacturers to the list and has the option to remove any or all names from the list.

This site and the secondary websites and services operated by the Postal Service contain links to websites operated by parties other than the Postal Service. Such links are provided solely for User's convenience. The Postal Service does not control such third-party websites and is not responsible for the contents of such sites. The Postal Service's inclusion of links to such third-party websites does not imply any endorsement of the material on such sites or any association with their operators. The Postal Service does not monitor websites linked to by the User, and the use of any such links is performed strictly at the User's own risk.

In no event shall the Postal Service be liable for special or consequential damages that result from activity occurring on non-Postal Service websites when a User links to such sites. Additionally, the Postal Service will not be liable for indirect or consequential damages in connection with the use of products from the manufacturers listed below.
