### Beautify your swimming pool with a professional pool liner certain to transform your pool into a spectacular backyard showcase. Professionally-designed, beautifully varied.

Appearance and quality construction come together beautifully in a Merlin pool liner. It all begins with the design; many of our patterns are Merlin "exclusives," developed in collaboration with professional designers whose creations reflect the latest home décor and color trends. The result is a liner certain to make your pool the centerpiece of your backyard.

As varied as they are attractive, Merlin liners are available in both 27 mil and 20 mil thicknesses of 100% virgin vinyl – including our Value Max liners, which offers 27 mil thickness at 20 mil prices! All of our U.S.A.-made vinyls provide extra U.V. and antibacterial protection to look better, longer.

### See how Merlin's professional pool liner patterns will look on your pool!

### The Best Fitting Liners in the Business.

Merlin pool liners are custom-designed for your pool to provide the best possible fit and durability. Each liner is CAD-designed and custom manufactured to accommodate steps, angles, objects and unique configurations.

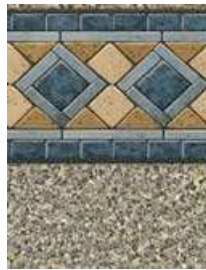

### Silk Seam

Merlin even has your seam covered. Our SilkSeam process creates a flat seam that's easy on your feet and less likely to catch sediment and debris.

### Liner Patterns

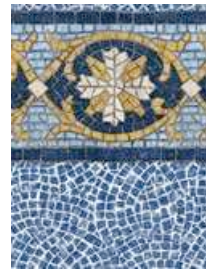

**Caicos Tile**
