### Other interesting options at [paycheckcity.com](http://paycheckcity.com):

1. Form W-4 - walks you through the process of filling out and completing Form W-4.
2. 401k Planner - Helps you estimate the future value of your (TDA) retirement plan.
3. Hourly Paycheck Calculator - Calculate take home pay based on different pay rates. As an example, you can enter both your regular and overtime hourly rate and hours.

### Other web sites:

[www.irs.gov/individuals](http://www.irs.gov/individuals) - Choose Withholding Calculator

This easy-to use calculator can help you figure your 2002 Federal income tax withholding so your employer can withhold the correct amount from your pay. This is particularly helpful if you've had too much or too little withheld in the past year, your situation has changed, or you are starting a new job.
