RD-108T Instructions:

A. Entered on RD-108 line 1 Purchase Price of Vehicle

Box A includes the purchase price of a vehicle, factory-installed accessories, freight destination charge and the dealer-installed accessories.

B. Entered on RD-108 line 2 Other Taxable Charges

Box B includes all other taxable charges (e.g., document fee, service fee, temporary registration fee, CVR fee, etc.).

Please Note: CVR dealers must include in box B the CVR fee from line 2A of the RD-108e.

C. Total price used to calculate sales tax credit trade-in

Box C is calculated by adding the purchase price of the vehicle and other taxable charges. Enter the sums of Boxes A and B (Box A + Box B = Box C).

D. Trade-In Credit

Box D is the agreed-upon value of the trade-in vehicle as part payment up to a maximum of \$2,000.00.

E. Entered on RD-108 line 3 Total Taxable Price

Box E is calculated by subtracting the trade-in credit listed in Box D from the total price used to the calculate trade-in Box C (Box C – Box D = Box E).

F. Sales Tax Due – Included in RD-108 line 4

Enter the amount of sales tax owed by multiplying the total taxable price by the 0.06 Michigan sales tax rate (Box E x 0.06 = Box F).

G. Entered on RD-108 line 6 Total Delivered Price

Important: When there is a trade-in credit RD-108 line six is calculated by adding lines one, two, four and five as the total delivered price (RD-108 Lines 1+2+4+5 = Line 6).

Please Note: Page 1 of this form must accompany the completed RD-108 on any vehicle sales transactions with a sales tax trade-in credit. Do not submit the instructions on page 2 of this form with the transaction.
