#### **RETURN FILING TIPS**

 FILE ELECTRONICALLY - File electronically instead of using paper tax forms. If you file electronically and choose direct deposit, you can receive your refund in less than 30 days.

- CHECK THE IDENTIFICATION NUMBERS When filing a return, carefully check the identification numbers usually Social Security numbers for each person listed. Incorrect or illegible Social Security numbers can delay or reduce a tax refund.
- MAILING ADDRESS- Make sure your mailing address is complete and accurate on your return.
- DOUBLE-CHECK YOUR FIGURES You should double-check that you have correctly calculated the refund or balance due.
- CHECK THE TAX TABLES If you are filing using a paper return you should double-check that you have used the right figure from the tax table.
- SUPPORTING DOCUMENTS- Include copies of all income statements (W-2, 1099, etc.) indicating Georgia income tax withheld. You are not required to submit 1099 forms with your Georgia return unless Georgia income tax was withheld.
- SIGN YOUR FORM Taxpayers must sign and date their returns. Both spouses must sign a joint return, even if only one had income. Anyone paid to prepare a return must also sign it.
- MAILING YOUR RETURN Mail your return, payment and all necessary documentation to the appropriate address listed on the return. For additional mailing addresses, please check the section called "Where Do You File?" in the tax instruction booklet. Sending your return via certified mail or courier will not speed processing of your return and will delay your refund.
- ELECTRONIC PAYMENTS Electronic payment options are convenient, safe and secure methods for paying taxes. You can authorize an electronic funds withdrawal, or use a credit card or a debit card. For more information on electronic payment options, visit the DOR website at https://etax.dor.ga.gov/inctax/creditcardpay.aspx or GTC at https://gtc.dor.ga.gov/ /#1
- MAILING A PAYMENT If you are filing a paper return; mail your return, 525 TV payment voucher and your payment to the address that appears on the return. The check or money order should be made payable to "Georgia Department of Revenue". Make sure to include the Social Security number and tax year on all payments and correspondence. For faster, more accurate posting of your payment, use a payment voucher with a valid scanline from the Department of Revenue's website at <a href="https://www.dor.ga.gov/inctax/individual\_income\_tax\_forms.aspx\_">www.dor.ga.gov/inctax/individual\_income\_tax\_forms.aspx\_">www.dor.ga.gov/inctax/individual\_income\_tax\_forms.aspx\_</a>.
- EXTENSION TO FILE By the April due date, taxpayers should either file a return or request an extension of time to file. Remember, the extension of time to file is not an extension of time to pay. Please use form IT-560 to make an extension payment. Your extension payment can be paid via the DOR website <a href="https://gtc.dor.ga.gov//#1">https://gtc.dor.ga.gov//#1</a> to "Make a quick payment".
- **DOR WEBSITE** Forms and publications and helpful information on a variety of tax subjects are available around the clock on the Georgia Department of Revenue Web site at <a href="https://www.etax.dor.ga.gov">www.etax.dor.ga.gov</a>.
- AMENDED RETURNS- File Form 500X to correct information reported on Form 500. Do not use Form 500 to correct a previously filed return or Form 500X as an original return. Form 500X is located on the DOR website at <a href="https://etax.dor.ga.gov/inctax/individual\_income\_tax\_forms.aspx">https://etax.dor.ga.gov/inctax/individual\_income\_tax\_forms.aspx</a>. Please mail your completed Form 500X to Georgia Department of Revenue, PO Box 740318, Atlanta, GA 30374-0318.

#### **NEW DEVELOPMENTS**

Increased Exemption Amounts for Married Individuals. See Line 14 instructions on page 13 for more information.

Qualified Investor Tax Credit. This provides a 35% credit for amounts invested in certain Georgia headquartered small businesses. However, the aggregate amount of credit allowed an individual person for one or more qualified investments in a single taxable year, whether made directly or by a pass-through entity and allocated to such individual, shall not exceed \$50,000.00. The credit is available for investments made in 2011, 2012, 2013, 2014, and 2015. The credit is claimed 2 years later, in 2013, 2014, 2015, 2016, and 2017 respectively. The taxpayer must get approval between September 1 and October 31 of the year the credit is claimed as provided in O.C.G.A. § 48-7-40.30 before claiming the credit. This became effective January 1, 2011. See Code Section 48-7-40.30 and Regulation 560-7-8-.52 for more information.

HB 266 (O.C.G.A. § 48-1-2 and 48-7-40.12) There are two sections of this bill (Section 1 and Section 3) that affect income tax. Section 1 is applicable to taxable years beginning on or after January 1, 2012 (thus it also includes 2013). The bill adopts certain provisions of all federal laws related to the computation of Federal Adjusted Gross Income (Federal Taxable Income for non-individuals) that were enacted on or before January 3, 2013. Please see the Federal Tax Changes section for more information.

Section 3 clarifies that any tax credits earned for qualified research expenses under Code Section 48-7-40.12 in any taxable year beginning before January 1, 2012, and any carryforward attributable thereto, are governed by such Code section in effect for the taxable year in which the credit was earned. Section 3 of House Bill 266 became effective upon its approval by the Governor on March 5, 2013 and is applicable to all taxable years beginning on or after January 1, 2012.

HB 283 (O.C.G.A. §§ 20-2A-1, 20-2A-2, 20-2A-3, and 48-7-29.16) The income tax portions of this bill (Sections 33A through 33D) make changes to the Qualified Education Expense Credit as follows:

Code Section 20-2A-1:

•Changes the definition of "eligible student".

Code Section 20-2A-2:

- •Modifies the percentage amount that student scholarship organizations (SSOs) must obligate from their revenue received from donations for scholarships or tuition grants based on the donation revenue received.
- •Provides that on or before the end of the calendar year following the calendar year in which an SSO receives revenues from donations and obligates them for the awarding of scholarships or tuition grants, the SSO shall designate the obligated revenues for specific student recipients. Once the SSO

designates obligated revenues for specific student recipients, in the case of multiyear scholarships or tuition grants, the SSO may distribute the entire obligated and designated revenues to a qualified school or program to be held in accordance with the Department rule for distribution to the specified recipients during the years in which the recipients are projected in writing by the private school to be enrolled at the qualified school or program. In making a multiyear distribution to a qualified school or program, the SSO shall require that if the designated student becomes ineligible or for any other reason the qualified school or program elects not to continue disbursement of the multiyear scholarship or tuition grant to the designated student for all the projected years, then the qualified school or program shall immediately return the remaining funds to the SSO.

- •Specifies that once the SSO designates obligated revenues for specific student recipients, in the case of multiyear scholarships or tuition grants for which the SSO distributes the obligated and designated revenues to a qualified school or program annually rather than in one disbursement, if the designated student becomes ineligible or for any other reason the SSO elects not to continue disbursement for all years, then the SSO shall designate any remaining previously obligated revenues for a new specific student recipient on or before the end of the following calendar year.
- Provides that each SSO in awarding scholarships or tuition grants shall consider financial needs of students based on all sources.
- •Provides that until obligated revenues are designated for specific students, the SSO shall hold the obligated revenues in a bank or investment account owned by the SSO and over which it has complete control.
- •Specifies that the audit must verify that the SSO has complied with all requirements of Code Section 20-2A-2, including but not limited to financial requirements. Each SSO shall provide a copy of the audit to the Department in accordance with Code Section 20-2A-3.
- •Provides that notwithstanding Code Sections 20-2A-7, 48-2-15, 48-7-60, and 48-7-61, if the copy of the audit submitted fails to verify that the SSO obligated its annual revenue received from donations for scholarships or tuition grants as required by the statute; that obligated revenues were designated for specific student recipients within the statutory time frame; and that all obligated and designated revenue distributed to a qualified school or program for the funding of multiyear scholarships or tuition grants complied with all applicable Department rules, then the Department shall post on its website the details of such failure to verify. Until any such noncompliant SSO submits an amended audit, which, to the satisfaction of the Department, contains the required verifications, the Department shall not preapprove any contributions to the noncompliant SSO.

#### **NEW DEVELOPMENTS** continued

Code Section 20-2A-3:

- •Provides that the annual report submitted by the SSOs to the Department by January 12<sup>th</sup> must also include the total number of families of scholarship recipients who fall within each quartile of Georgia adjusted gross income as defined and reported annually by the Department of Revenue and the average number of dependents of recipients for each quartile.
- Eliminates the requirement that the Department shall not require any other information from the SSO's.
- •Specifies that all information, except the statistical information, provided by the SSO's is confidential.

Code Section 48-7-29.16, the qualified education expense credit:

- Defines "eligible student".
- •Provides that the credit amount for an individual who is a member of a limited liability company duly formed under state law, a shareholder of a Subchapter 'S' corporation, or a partner in a partnership, is the amount expended or \$10,000.00 per tax year, whichever is less; provided, however, that tax credits shall only be allowed for the portion of the income on which such tax was actually paid by such member of the limited liability company, shareholder of a Subchapter 'S' corporation, or partner in a partnership.
- •Specifies that the tax credit shall not be allowed if the taxpayer designated the taxpayer's qualified education expense for the direct benefit of any particular individual, whether or not such individual is a dependent of the taxpayer.
- •Provides that in soliciting contributions, an SSO shall not represent, or direct a qualified private school to represent, that in exchange for contributing to the SSO, a taxpayer shall receive a scholarship for the direct benefit of any particular individual, whether or not such individual is a dependent of the taxpayer. The status as an SSO shall be revoked for any such organization which violates this provision.
- •Provides that the annual maximum amount (amount of tax credits allowed per tax year) shall be \$58 million and shall no longer be adjusted annually using the Consumer Price Index.
- •Provides that the preapproval application must be submitted electronically to the Department in the manner specified by the Department.

The income tax portions of House Bill 283 became effective upon its approval by the Governor on May 7, 2013 and are applicable to taxable years beginning on or after January 1, 2013.

- HB 318 (O.C.G.A. § 48-7-40.30) The income tax portion of this bill (Section 6) changes the qualified investor tax credit (also known as the angel investor tax credit)
- •Extends the tax credit to qualified investments made in 2014 and 2015.
- •Provides that the total aggregate amount of all tax credits allowed to qualified investors for qualified investments made in the 2014 calendar year and claimed and allowed in the 2016 taxable year shall not exceed \$5 million.
- •Provides that the total aggregate amount of all tax credits allowed to qualified investors for qualified investments made in the 2015 calendar year and claimed and allowed in the 2017 taxable year shall not exceed \$5 million. Note: The total aggregate amount under current law for calendar years 2011, 2012, and 2013 is \$10 million per year.

The income tax portion of House Bill 318 became effective upon its approval by the Governor on April 29, 2013.

- **SB 137 (O.C.G.A. § 48-7-40.1)** The income tax portion of this bill (Section 2) makes changes to the job tax credit for less developed areas. The bill:
- •Changes the term "comprised" to "composed" in subsection (c).
- •Gives the Commissioner of Economic Development, the authority to designate along with the Commissioner of Community Affairs less developed areas described in subsections (c)(1), (c)(3) and (c)(4). Under current law, only the Commissioner of Community Affairs makes designations of less developed areas.

The income tax portion of Senate Bill 137 became effective upon its approval by the Governor on May 6, 2013.

The Department of Revenue has entered into an alliance with certain software companies to offer free on-line filing services to Georgia taxpayers. Under this agreement, qualified taxpayers can prepare and file their Georgia individual income tax returns for free using approved software.

Some software companies have income limitations and other restrictions for their free services. Please review each company's offer before selecting a product. For more information, visit our website at <a href="https://www.etax.dor.ga.gov/IndTax\_TSD.aspx">https://www.etax.dor.ga.gov/IndTax\_TSD.aspx</a>.

If you do not qualify for free electronic services, you may file electronically using software produced by an approved vendor listed at the following web address, <a href="https://www.etax.dor.ga.gov/IndTax">https://www.etax.dor.ga.gov/IndTax</a> TSD.aspx.

#### WHEN ELECTRONIC FILING IS REQUIRED

Taxpayers that remit payments by electronic funds transfer, whether on a mandatory or voluntary basis, must file all associated returns electronically. Also, a return preparer who prepares an income tax return, must electronically file the return, when the federal counterpart of such return is required to be filed electronically pursuant to the Internal Revenue Code of 1986 or Internal Revenue Service regulations.

#### CREDIT CARD PAYMENTS

The Georgia Department of Revenue accepts Visa, American Express, MasterCard, and Discover credit cards as payment for current year individual income tax due on original Forms 500, 500EZ, and 500ES, as well as for liabilities presented to taxpayers via Georgia Department of Revenue assessment notices. To make a payment, use Official Payments Corporation's (OPC) secure website or call OPC toll-free at 1-800-2PAY-TAX. When calling, use Jurisdiction Code 2000.

For more information, visit our website at <a href="https://etax.dor.ga.gov/inctax/creditcardpay.aspx">https://etax.dor.ga.gov/inctax/creditcardpay.aspx</a>

#### **ELECTRONIC PAYMENTS**

In May 2009, the Department of Revenue implemented a new system, (GTC) to allow taxpayers to file and pay certain business taxes electronically. Since November 2011, the system has been expanded to accept individual income and estimated tax payments. For information about the GTC, visit our website at <a href="https://gtc.dor.ga.gov//#1">https://gtc.dor.ga.gov//#1</a> or visit our self service Instructional Videos at <a href="http://gataxinfo.org/">http://gataxinfo.org/</a> for additional information or contact the Taxpayer Services Call Center at 1-877-423-6711.

#### WHERE'S MY REFUND?

You may check the status of your refund on-line at <a href="https://gtc.dor.ga.gov//#1">https://gtc.dor.ga.gov//#1</a>. You may also check the status of your refund by calling 1-877-GADOR11 (1-877-423-6711).

Before making an inquiry, please allow:

- · 4 weeks for returns filed electronically.
- · 9 weeks for paper returns filed prior to April 1st.
- · 12 weeks for paper returns filed after April 1st.

Note: A claim for refund must be made within three (3) years from the later of the date the tax was paid or the due date of the return, including extensions.

#### TWO-DIMENSIONAL BARCODE RETURNS

If you choose to file a paper return, we recommend using a return containing a two-dimensional (2D) barcode. A 2D barcode is similar to the one located on the back of your Georgia driver's license. Information from your return is captured by a machine-readable barcode rather than manually entered, which reduces processing errors. The 2D barcode is only visible after your return has been printed.

The Department's fill-in Form 500 and Form 500EZ have a 2D barcode option. You can print a 2D barcode on your return when you electronically complete and print the form directly from the Department's website.

A list of companies that produce forms with a 2D barcode is available at <a href="https://etax.dor.ga.gov/IndTax">https://etax.dor.ga.gov/IndTax</a> TSD.aspx.

#### REQUESTING AN EXTENSION

You have an automatic six-month extension to file your Georgia return when you receive an extension to file your Federal return. The Georgia return must be filed along with a copy of Federal Form 4868 or the IRS confirmation letter on or before the extended Federal due date. If you do not need a Federal extension, you may use Georgia Form IT 303 to request an extension to file your Georgia return.

An extension to file does not extend the date for paying the tax. Tax must be paid with Form IT 560 by the statutory due date to avoid late payment penalty and interest. The amount paid should be entered on Form 500, Line 21.

#### **REVIEW OF ASSESSMENTS**

If you are audited and it is believed that you owe additional taxes, you will generally be issued a Proposed Assessment. If the Proposed Assessment is not protested or paid within 30 days, an Official Assessment and Demand for Payment will be issued. When either of these assessments is issued, you are entitled to an administrative review upon written request. You must complete the appropriate form. For your convenience, these forms are available on the Department's website at <a href="https://www.etax.dor.ga.gov">www.etax.dor.ga.gov</a>.

#### Filing for Deceased Taxpayers

The surviving spouse, administrator, or executor may file a return on behalf of a taxpayer who dies during the taxable year. When filing, use the same filing status that was used on the Federal income tax return. The due date for filing is the same as for Federal purposes.

To have a refund check in the name of a deceased taxpayer reissued, mail Georgia Form 5347 and a copy of the death certificate along with the check to the address on the form.

#### Part-year Residents and Nonresidents

Instructions for part-year residents and nonresidents are available on pages 17 through 18.

#### Military Personnel

**Residents.** Military personnel whose home of record is Georgia or who are otherwise residents of Georgia are subject to Georgia income tax on all income regardless of the source or where earned, unless specifically exempt by Georgia law. Military personnel who serve outside of the continental U.S. may file their Georgia income tax return within six months after they come back to the continental U.S. No penalties or interest will accrue during this period.

Members of the National Guard or Air National Guard who are on active duty for a period of more than 90 consecutive days are allowed a tax credit against their individual income tax. The credit cannot exceed the amount expended for qualified life insurance premiums or the taxpayer's income tax liability and should be claimed on Form IND-CR.

Nonresidents. Military personnel whose home of record is not Georgia and who are not otherwise residents of Georgia are only required to file a Georgia income tax return if they have earned income from Georgia sources other than military pay. If required, nonresident military personnel should file Georgia Form 500 and use Schedule 3 to calculate Georgia taxable income. (See pages 17-18 for instructions on completing Schedule 3.)

Combat Zone Pay. Effective tax year 2003, military income earned by a member of the National Guard or any reserve component of the armed services while stationed in a combat zone or stationed in defense of the borders of the United States pursuant to military orders is not subject to Georgia income tax. The exclusion from income is only with respect to military income earned during the period covered by such military orders. A copy of the Federal return must be enclosed with the Georgia return to claim this exclusion. The exclusion is limited to the amount included in Federal Adjusted Gross Income.

#### Taxpayers Required to File Form 1040NR

Individuals who are required to file Federal Form 1040NR must file Georgia Form 500. Similar to Federal income tax rules, most Georgia taxpayers are only allowed to deduct the applicable Georgia personal exemption and expenses reflected on Form 1040NR. Most taxpayers are not allowed to take the standard deduction and they are allowed only limited itemized deductions as shown on Form 1040NR, Schedule A.

#### Other State's Tax Return

If you claim a credit for taxes paid to another state(s), you must include a copy of your return filed with that state along with your Georgia return. No credit for taxes paid to another state will be allowed unless the other state's return is enclosed with the Georgia return.

#### Amended Returns

File Form 500X to correct information reported on Form 500. Do not use Form 500 to correct a previously filed return or Form 500X as an original return.

The Governor signed House Bill 266 into law. Consequently, for taxable years beginning on or after January 1, 2013, with exceptions as discussed below, Georgia has adopted the provisions of all federal acts (as they relate to the computation of federal adjusted gross income (AGI) for individuals or federal taxable income for non-individuals) that were enacted **on or before** January 3, 2013. For 2013, the I.R.C. Section 179 deduction is \$250,000 and the related phase out is \$800,000. Georgia has not adopted the Section 179 deduction for certain real property.

#### Exceptions

Georgia has **not** adopted I.R.C. Section 168(k) (the 30%, 50% and 100% bonus depreciation rules) except for I.R.C. Section 168(k)(2)(A)(i) (the definition of qualified property), I.R.C. Section 168(k)(2)(D)(i) (exceptions to the definition of qualified property), and I.R.C. Section 168(k)(2)(E) (special rules for qualified property) and Georgia has not adopted I.R.C. - Additional itemized deduction for the sales tax on the purchase of a new vehicle in 2009, I.R.C. Sections 164(a)(6) and 164(b)(6). Please note: Georgia also does not allow the increased standard deduction for sales tax on the purchase of a new vehicle in 2009 because Georgia has its own standard deduction.
- The election to increase the normal two year net operating loss carryback to 3, 4, or 5 years for tax years 2008 and 2009, I.R.C. Sections 172(b)(1)(H) and 810(b)(4).
- The transition rule that would allow a taxpayer to revoke a prior election to forego the net operating loss carryback period.

- 5 year carryback of NOLs incurred in the Kansas disaster area after May 3, 2007, I.R.C. Section 1400N(k).
- 5 year carryback of certain disaster losses, I.R.C. Sections 172(b)(1)(J) and 172(j).
- The election to deduct public utility property losses attributable to May 4, 2007 Kansas storms and tornadoes in the fifth tax year before the year of the loss, I.R.C. Section 1400N(o).
- Special rules relating to a financial institution being able to use ordinary gain or loss treatment for the sale or exchange of certain preferred stock after Dec. 31, 2007, I.R.C. Section 1221.
- Temporary tax relief provisions relating to the Midwestern disaster area, I.R.C. Sections 1400N(f) and 1400N(k).

**Depreciation Differences.** Depreciation differences due to the Federal acts mentioned above should be treated as follows (If the taxpayer has depreciation differences from more than one Federal act, it is not necessary to make a separate adjustment for each act):

- A. Depreciation must be computed one way for Federal purposes and another way for Georgia purposes. To compute depreciation for Federal purposes, taxpayers should use the current year IRS Form 4562 and attach it to the Georgia return. This should be entered on the other addition line of the return.
- B. Depreciation must also be computed for Georgia purposes. Taxpayers should use Georgia Form 4562 to compute depreciation for Georgia purposes and attach it to the Georgia return. This should be entered on the other subtraction line of the return.

Federal deduction for income attributable to domestic production activities (IRC Section 199). This adjustment should be entered on the addition line of the applicable return. An adjustment to the Georgia partnership or S Corporation return is not required if the partnership or S Corporation is not allowed the Section 199 deduction directly, but instead passes through the information, needed to compute the deduction, to the partners or shareholders.

Other Differences. Other differences should be placed on the other addition or subtraction line of the applicable return. Attach a statement to the return explaining these differences. Additionally, the provisions listed above may have an indirect effect on the calculation of Georgia taxable income.

Adjustments for the items listed below should be added or

Adjustments for the items listed below should be added or subtracted on your Georgia income tax form.

- 1. When property is sold for which the bonus depreciation was claimed, there will be a difference in the gain or loss on the sale of the property.
- 2. The depreciation adjustment may be different if the taxpayer is subject to the passive loss rules and is not able to claim the additional depreciation on the Federal return.
- 3. Other Federal items that are computed based on Federal Adjusted Gross Income or Federal Taxable Income will have to be recomputed if the provisions of the Federal Acts are claimed.

Furthermore, in 2003 the IRS started requiring separate reporting, to shareholders of S Corporations and partners of partnerships, for the gain from asset sales for which an I.R.C. Section 179 deduction was claimed. Georgia follows the separate reporting treatment of the gain and the Section 179 deduction. Accordingly, the gain should not be reported directly on the S Corporation or partnership return, but the gain, along with any Georgia adjustment to the gain (due to the Federal acts), should be reported separately to the shareholders or partners.

Such an election shall remain in effect until revoked by the payee.

Box 740380, Atlanta, Georgia 30374-0380. A taxpayer who fails to notify the Commissioner within 180 days forfeits any Georgia refund as a result of an audit if the normal statute of limitations has expired. However, 90 percent of any overpayment can be applied to a balance due for another year that is a result of the same IRS audit.

- 3. Lump sum distributions from employee benefit plans reported on IRS Form 4972.
- 4. Depreciation because of differences in Georgia and Federal law during tax years 1981 through 1986.

- 7. Payments for more than \$600 in a taxable year made to employees which are not authorized employees and which are not excepted by Code Section 48-7-21.1. An authorized employee is someone legally allowed to work in the United States.
- 8. Portion of charitable contributions for which a qualified education expense credit was claimed.
- 9. Taxable portion of withdrawals on the Georgia Higher Education Savings Plan (see Regulation 560-7-4-.04). Note: If a taxpayer receives a state refund and is not required to include the refund in Federal AGI since they were subject to Federal Alternative Minimum Tax, they are not required to include the refund for Georgia purposes.
- 10. For the Land Conservation credit, the charitable donation relating to the credit. See Regulation 560-7-8-.50 for more information.

#### The following adjustments may be SUBTRACTED:

  - (A) 62 64 years of age, or
  - (B) less than 62 and permanently disabled to such an extent that they are unable to perform any type of gainful employment.

#### The retirement exclusion is \$65,000 if the taxpayer is 65 or older.

The exclusion is available for the taxpayer and his/her spouse; however, each must qualify on a separate basis. If both spouses qualify, each spouse may claim the amounts above. Income from property that is jointly owned should be allocated to each taxpayer at 50% of the total value. Up to \$4,000 of the maximum allowable exclusion may be earned income. Use the worksheet on page 14 to calculate the exclusion and document the adjustment on Form 500, Schedule 1.

- 2. Interest and dividends on U.S. Government bonds and other U.S. obligations. These must be reduced by direct and indirect interest expenses which are attributable to the income. Interest received from the Federal National Mortgage Association, Government National Mortgage Association, Federal Home Loan Mortgage Corporation, and from repurchase agreements is taxable.
- 3. Social security or railroad retirement (tier 1 and tier 2) paid by the Railroad Retirement Board included in Federal adjusted gross income.
- 4. Salaries and wages reduced from Federal taxable income because of the Federal Jobs Tax Credit.

#### FORM 500 INSTRUCTIONS (continued)

- 9. Income from any fund, program or system which is exempted by Federal law or treaty.
- 10. Adjustment to Federal adjusted gross income for Georgia resident shareholders for Subchapter S income where the Sub S election is not recognized by Georgia or another state in order to avoid double taxation. This adjustment is only allowed for the portion of income on which the tax was actually paid by the corporation to another state(s).

In cases where the Sub S election is recognized by another state(s) the income should not be subtracted. Credit for taxes paid to other states may apply.

- 11. Adjustment for teachers retired from the Teacher's Retirement System of Georgia for contributions paid between July 1, 1987 and December 31, 1989 that were reported to and taxed by Georgia.
- 12. Amount claimed by employers in food and beverage establishments who took a credit instead of a deduction on the Federal return for FICA tax paid on employee cash tips.
- 13. An adjustment of 10% of qualified payments to minority subcontractors or \$100,000, whichever is less, per taxable year by individuals, corporations or partnerships that are party to state contracts. For more information call the Department of Administrative Services at 404-657-6000 or visit their website: <a href="http://doas.ga.gov/Suppliers/Pages/SupplierMBE.aspx">http://doas.ga.gov/Suppliers/Pages/SupplierMBE.aspx</a>.
- 14. Deductible portion of contributions to the Georgia Higher Education Savings Plan. The deduction is limited on a return to the amount contributed but cannot exceed \$2,000 per beneficiary.

- 18. Adjustments to Federal adjusted gross income for Georgia resident partners in a partnership or member(s) in a LLC where such entities income has been taxed at the entity level by another state. Adjustment is only allowed for the portion of income on which the tax was actually paid.

- 19. An amount equal to 100 percent of the premium paid by the taxpayer during the taxable year for high deductible health plans as defined by Section 223 of the Internal Revenue Code. The amount may only be deducted to the extent the deduction has not been included in federal adjusted income and the expenses have not been provided from a health reimbursement arrangement and have not been included in itemized deductions. In the event the taxpayer claims the expenses as itemized deductions, the taxpayer should multiply the expense by the ratio of total allowed itemized deductions after the federal limitation to the total allowed itemized deductions before the federal limitation to determine the amount that is not allowed to be deducted pursuant to this paragraph. For example the taxpayer has \$1,000 in high deductible health insurance premiums. They also have \$7,000 of other medical expenses which means they have total medical expenses of \$8,000. After the limitation, the taxpayer is only allowed to deduct \$2,000 of medical expenses. The \$1,000 deduction must be reduced by \$250 (\$2,000/\$8,000 x \$1,000). Which means the taxpayer is allowed to deduct \$750 pursuant to this paragraph.
- 20. Federally taxable interest received on Georgia municipal bonds designated as "Build America Bonds" under Section 54AA of the Internal Revenue Code of 1986. "Recovery Zone Economic Development Bonds" under Section 1400U-2 of the Internal Revenue Code or any other bond treated as a 'Qualified Bond" under Section 6431(f) of the Internal Revenue Code are considered "Build America Bonds" for this purpose.
- 21. Federally taxable interest received on Georgia municipal bonds issued by the State of Georgia and certain authorities or agencies of the State of Georgia for which there is a special exemption under Georgia law from Georgia tax on such interest.
- 22. Interest eliminated from federal itemized deductions due to the Federal Form 8396 credit.

It costs the State of Georgia approximately \$1 to print mail and process each tax refund check. Last year, the State of Georgia spent over 1 Million dollars processing tax refund checks. Please consider choosing Direct Deposit, which is free to the State of Georgia, or a Debit Card, which is also free, for your tax refund method.

#### **Direct Deposit Option**

**Line 36a** Check the appropriate box for the type of account. **Do not check more than one box**. You must check the correct box to ensure your direct deposit is accepted.

The routing number must be nine digits. The first two digits must be 01 through 12 or 21 through 32. On the sample check below, the routing number is 807100013. John Doe would use that routing number unless their financial institution instructed them to use a different routing number for direct deposits.

Ask your financial institution for the correct routing number to enter on line 36a if:

- •The routing number on a deposit slip is different from the routing number on your checks.
- •The deposit is to a savings account that does not allow you to write checks or
- Your checks state they are payable through a financial institution different from the one at which you have your checking account.

The account number can be up to 17 characters (both numbers and letters). Include hyphens, but omit spaces and special symbols. Enter the number from left to right and leave any unused boxes blank. On the sample check above, the account number is 978653421. Do not include the check number. On the sample check above, the check number is 5678.

Reasons your direct deposit may be rejected – If any of the following apply, your direct deposit request will be rejected and a check will be sent:

- •Any numbers or letters are crossed out or whited out.
- •Your financial institution will not allow a joint refund to be deposited to an individual account. The State of Georgia is not responsible if a financial institution rejects a direct deposit.
- •You request a deposit of your refund to an account that is not in your name (such as your tax preparer's own account).

**LINE 36b** Select this box to opt-in to receive a Debit Card. With the Georgia Department of Revenue Tax Refund Debit Card, your refund is faster, easier and more secure.

#### Low Income Credit Worksheet

You may claim the low income credit if your Federal adjusted gross income is less than \$20,000 and you are not claimed or eligible to be claimed as a dependent on another taxpayer's Federal or Georgia income tax return. Full-year residents should claim the credit on Form 500, Schedule 2, Line 11 or Form 500EZ, Line 5. Part-year residents may only claim the credit if they were residents at the end of the tax year. Taxpayers filing a separate return for a taxable year in which a joint return could have been filed can only claim the credit that would have been allowed had a joint return been filed. You cannot claim this credit if you are an inmate in a correctional facility. Please note for tax years beginning on or after January 1, 2010, the credit cannot exceed the taxpayer's income tax liability.

Income or losses should be allocated to the person who owns the item. If any item is held jointly, the income or loss should be allocated to each taxpayer at 50%.

Part-year residents and nonresidents must prorate the retirement income exclusion. The earned income portion and the unearned income portion must be separately prorated. The earned income portion shall be prorated using the ratio of Georgia source earned income to total earned income computed as if the taxpayer were a resident of Georgia for the entire year. The unearned portion shall be prorated using the ratio of Georgia source unearned retirement income to total unearned retirement income computed as if the taxpayer were a resident of Georgia for the entire year.

<sup>\*</sup>Retirement income does not include income received directly or indirectly from lotteries, gambling, illegal sources or similar income.

#### WORKSHEET FOR OTHER STATE(S) TAX CREDIT

Georgia allows a credit for tax paid to another state on income taxable to Georgia <u>and</u> the other state. Use these worksheets to compute the other state(s) tax credit for full-year and part-year residents. Do not file these worksheets with your return. Keep them for your records.

Enter the Total Tax Credit on Form 500, Schedule 2, Line 1. **Enclose a copy of tax return(s) filed with other state(s).** The credit is for <u>state</u> income tax only. No other income taxes such as local, city, province, U.S. Possession, foreign countries, etc., qualify for this credit.

#### INSTRUCTIONS FOR PART-YEAR RESIDENTS AND NONRESIDENTS

Part-year residents and nonresidents who work in Georgia or receive income from Georgia sources are required to file Georgia Form 500 and complete Schedule 3 to calculate Georgia taxable income. A married part-year resident or nonresident with income earned in Georgia whose spouse is a nonresident with no Georgia source income may file either a separate return claiming himself/herself only, or a joint return claiming total allowable deductions. If one spouse is a resident and one is a part-year resident or nonresident, enter 3 in the residency status box and complete Form 500, Schedule 3 to calculate Georgia taxable income.

**Part-year Residents.** If you are a legal resident of Georgia for only a portion of the tax year and are required to file a Federal income tax return, you are required to file a Georgia income tax return.

Part-year residents who claim a credit for taxes paid to another state for income earned while a resident must include a copy of the individual income tax return filed with that state(s) with a copy of their Georgia return. Otherwise the credit will not be allowed.

**Nonresidents.** Nonresidents who work in Georgia or receive income from Georgia sources and are required to file a Federal return are required to file a Georgia income tax return.

Legal residents of other states are not required to file a Georgia tax return if their only activity for financial gain or profit in Georgia consists of performing services for an employer as an employee where the wages for such services does not exceed the lesser of five percent of the income received from performing services in all places during the taxable year or \$5,000.

A nonresident, who receives deferred compensation or income from the exercise of stock options that were earned in Georgia in a prior year is required to pay tax on the income, but only if the prior year's income exceeds the lesser of: 1) 5 percent of the income received by the person in all places during the current taxable year; or 2) \$5,000. However, the income is not taxed if federal law prohibits the state from taxing it. Federal law prohibits state taxation of some types of retirement income including pensions as well as income received from nonqualified deferred compensation plans if the income is paid out over the life expectancy of the person or at least 10 years. See Regulation 560-7-4-.05 for more information.

**Adjusted Gross Income.** The percentage on Schedule 3, Line 9 is zero if Georgia adjusted gross income (AGI) is zero or negative. If the adjusted Federal AGI is zero or negative, the Line 9 percentage is 100%. The percentage is also considered to be 100% if both adjusted Federal and Georgia AGI are zero or negative. In this case, the taxpayer is entitled to the full exemption amount and deductions.

#### COMMON MISTAKES THAT WILL DELAY YOUR REFUND

- 1. Sending your return by certified mail. The postal service imposes special handling procedures for certified mail that could delay processing of your return.
- 2. Not filling in the name, social security number(s), address, residency code, and/or filing status.
- Failing to list your spouse's social security number when filing a separate return.
- 4. Incorrectly listing or failing to list exemptions, dependents, income, and deductions.
- 5. Failing to submit required schedules, statements, and supporting documentation, including W-2s, other states' tax returns, or necessary federal returns and schedules.
- 6. Entering information on a special funds line when a donation is not being made; including a check for a donation with a refund return.
- 7. Not entering the amount owed or the refund amount. Do not enter amounts on both lines.
- 8. Not verifying calculations, including the tax rate, or placing zeros on lines that are not being used.
- 9. Incorrectly completing Schedule 3 or failing to include it with your return when required.
- 10. Mailing your Georgia return to the wrong address.

#### REMINDERS

- Mail your return, payment and all necessary documentation to the appropriate address listed on the return. For additional mailing
  addresses, please check the section called "Where Do You File?" in the tax instruction booklet.
- Enclose copies of required returns, schedules and other documentation with your return. Failure to enclose proper documentation could delay your refund.
- If you have an overpayment, indicate the amount to be refunded, credited to estimated tax and/or contributed to one of the special funds.
- Mail Payment Voucher 525 TV with your return and payment to the address on Form 500 or 500EZ to ensure proper
  posting to your account. If you file electronically, mail the voucher and your payment to the address on the voucher.
- Make your check or money order payable to the Georgia Department of Revenue. If you owe less than \$1, you do not need to send a payment. If you are due a refund of less than \$1, submit Form IT 550 to request a refund.
- Do not staple your check, W-2s or any other documents to your return.

#### PENALTY AND INTEREST

Tax not paid by the statutory due date of the return is subject to 1 percent interest and ½ of 1 percent late payment penalty per month, or fraction thereof. Also a late filing penalty is imposed at 5% of the tax not paid by the original due date. Interest accrues until the tax due has been paid in full; the combined total of late filing and late payment penalty cannot exceed 25 percent of the tax not paid by the original due date. An extension of time for filing the return does not extend the date for making the payment. Additional penalties may apply as follows:

- Frivolous Return Penalty \$1,000. (A frivolous return is one that contains incorrect or insufficient information to accurately compute the appropriate tax liability with the intent to delay or impede Georgia tax law or is based on a frivolous position.)
- Negligent Underpayment Penalty 5 percent of the underpaid amount.
- Fraudulent Underpayment Penalty 50 percent of the underpaid amount.
- Failure to File Estimated Tax Penalty 9 percent per year for the period of underpayment. Use Form 500 UET to calculate the penalty.
