

AUTO CHECK 101

USED CAR PRE-PURCHASE CHECKLIST

After watching the DVD: www.AutoCheck101.com - Use this checklist to evaluate any used car you are considering buying. Following this checklist, prepared By www.AutoCheck101.com assures you will cover all the bases when checking out a vehicle.

We recommend performing this Inspection on one of your current vehicles for practice before an actual pre-purchase inspection.

Preliminaries

Wear older clothes. Bring a rag for handling greasy or dirty items. If desired, also bring clean paper towels and hand-cleaner for cleaning up after performing the inspection.

Other items to bring:

- flashlight
- small magnet
- notepad
- pen or pencil
- copy of this checklist

- copy of a reliability report and inspection tips for the vehicle you plan to inspect
- [CARFAX Vehicle History Report](#) – or www.AutoCheck.com report. The first step to protecting yourself against buying a used car with costly hidden problems

Tips

- If you are meeting a private party to look at a vehicle, try to get there 15 to 20 minutes early. You may discover the vehicle being prepared for your visit.
- Try to get the seller to set a time for you to see the vehicle when it has been sitting overnight. You want to see how it will start first thing in the morning.
 - Always try to inspect vehicles during the day, when you can see better than at night.
 - Don't be afraid to ask the seller to help or show you something.
 - Take time to perform an inspection to your satisfaction. Don't hurry or let yourself be rushed.
- At some point during a test drive, try to drive at 20 to 30 mph on the local road, and if all possible, try to drive on the interstate where you can get the speed up to 65 mph. Radio off. Listen for wind noise etc.
- For practice, inspect a vehicle you already own. Doing so will familiarize you with the process and also provide a reference point for vehicles you are considering for purchase.

Check Dash Lights: Very Important

- Turn Key in ON position, Look at what warning lights are on.
 - ALL warning lights should light up for a few seconds
- If some lights Do Not light up, someone as tampered with the warning lights, This is BAD, you may want to walk away.
 - Check ABS light – Air Bag Lights – Any engine Lights

Exterior

YES NO

Body

- Are seams where doors and fenders meet even and straight? Smooth edges?
 - Are seams where the hood and trunk meet the fenders even and straight? Smooth edges?
 - Does a magnet cling to all steel body panels? (Be sure to test fenders, the lower corners of doors, and rocker panels—the areas below doors. If a magnet doesn't cling, suspect body filler was used to repair rust or accident damage.)
 - Are all body panels the same color? Check metallic in Paint also..
 - Has the car been recently repainted? (Look for signs of spray paint on moldings; also check the edges of the doors, hood, and trunk to be sure they are all the same color. Fresh paint may cover rust that will continue to progress.)
-

YES NO

Tires

- Do all tires have the same amount of tread? Outside & inside tread..
- Are all tires the same size? (Check tire size markings on tire sidewalls.)
- Are all tires the same brand?
- Is there a spare tire, jack, and lug wrench? If the vehicle has locking hubcaps, is there a key for removing them?
- Is the spare tire inflated (Press hard against the side with your thumb; the tire should be firm.)

YES NO

Suspension

- Does the vehicle sit level?
- Bounce each corner of the vehicle. Do all corners respond the same? (Corners should only bounce once or twice before stopping.)
- Do you hear a creaking noise when bouncing the vehicle's corners?
-

YES NO

Frame

- Examine inside trunk, wheel wells, and under hood. Do you see areas that look like they have been crumpled and straightened? Black thick paint used to cover a repair?
- Look underneath each side of the vehicle for a row of holes in the frame just inside the vehicle's outer edge. Do holes appear scratched or recently cleaned? (If so, suspect the frame has been straightened after a crash. May need a mechanic & a lift)
-

YES NO

Gas Cap and Filler Neck

- Is there a gas cap? Does it fit correctly? (If the cap locks, is there a key?) Overspray?
- Remove the gas cap and check inside the filler neck. Is there a fuel-nozzle restrictor to prevent adding leaded fuel? (Most states require them.)
-

YES NO

Interior

- Is upholstery in good condition? (Look for tears, stains, and burns.)
- Are the dashboard and headliner in good condition?
- Do seats adjust easily?
- Are any window cranks/buttons, door locks, handles, dash controls or similar items missing?
- Do all interior lights and dash bulbs work?
- Does carpet condition match the age of the vehicle? Wear on Brake pedal, match miles?

- Does carpeting smell of mildew or stale water, suggesting moisture underneath (or worse, flood damage)?
 - Check under the dash at the top of the carpet. Are there stains suggesting heater core or air conditioner leakage?
-

YES NO

Accessories

- Do all accessories, such as the heater, air conditioner, audio system, and alarm system, operate fully? Test all functions of each.
-

YES NO

Engine Compartment

- Are there signs of oil or fluid leaks? Any scratches on any bolts, showing work done?
 - Run the engine at full operating temperature. Are there abnormal smells that might be due to leaking fluids on hot engine parts? Oil cap, clean or dirty or milky?
 - Are there unusual noises, such as clattering or metallic sounds, or sharp hissing, in the engine compartment when the engine is running? (Normal sound is smooth whirring of belts and fan.)
 - Does anything appear to be missing? (Look for shiny or clean areas where parts may have been removed.)
-

YES NO

Under the Vehicle

- Are there fluid leaks on the underside of the engine and transmission, at axle ends, at brake line connections, or on the ground beneath the vehicle? Green fluid is usually antifreeze; reddish fluid is usually power steering or transmission fluid; dark brown or black fluid is usually oil or brake fluid.
- Are any parts loose, with the exception of exhaust parts slung from flexible rubber "donuts"?
- Does anything appear missing, such as bolts, clamps, brackets or cables?
- Are exhaust system parts rusty?
- Are there marks from scrapes, indicating the car has bottomed out on rocks or pavement.

- Examine exhaust when the car is operating at normal temperature. Do you see white or blue smoke? (Both can indicate an engine problem, especially if the smoke burns your eyes. A small amount of steam is normal, especially in cold weather.)
-

Performance

YES NO

Engine

- Does the engine start easily?
- Does the engine stall at any time?
- Does the engine idle smoothly?
- Does the idle speed seem too slow or fast?
- Does the engine hesitate or stumble on acceleration?
- Does the engine run smoothly during operation?
- Does the engine seem to lack power?
- If the vehicle has cruise control, do all features work correctly?
- Do engine or other system warning lights appear? Temp gauge, normal?
- Does the engine diesel (continue running) when shut off?
-

YES NO

Transmission and Clutch

- Is automatic shifting smooth? Under a faster acceleration too?
- On a manual-shift vehicle, is take-off smooth, without grabbing or jerking?
- On a manual-shift vehicle, accelerate hard in a higher gear (third or fourth) or while going uphill. If engine rpms rise without a corresponding increase in vehicle speed, the clutch could be slipping. It may need to be adjusted or replaced.
- On a manual-shift vehicle, try shifting to a lower gear when going slowly. Does the transmission shift easily, without grinding?

YES NO

4-Wheel Drive

- Engage 4-wheel drive only on soft surfaces unless the owner's manual specifically says the feature can be used on hard-surfaced roads. On a suitable surface, test-drive the vehicle in forward and reverse with 4-wheel drive engaged. Does the vehicle shift smoothly in both directions?
- Turn tight corners to the right and left. Are there clunking sounds or other noises?
- Do the wheels bind or pull, whether turning or going straight?

YES NO

Brakes

- Apply the brakes several times at different speeds. Also try a sudden stop. Does the vehicle pull to one side when brakes are applied?
- Do brakes stop the vehicle adequately?
- If the vehicle has antilock brakes (ABS), try stopping suddenly. Do wheels lock? (A pulsing brake pedal is normal.)
- Does the parking brake hold firmly and release completely?

YES NO

Steering

- Does the vehicle pull to one side during normal operation?
- Is steering difficult at any speed?
- Turn sharply in both directions. Do you hear clunking or other noises, or feel rubbing or binding?
- Does the vehicle shake or vibrate while moving? (Take the vehicle up to freeway speed for this test.)
- Is the steering wheel centered when the vehicle is traveling straight ahead?

Other Concerns

-
- Is there evidence of flood damage? By law, this information should be on the title. Signs are upholstery and carpet stains, odor, and rust in normally dry areas such as beneath the dashboard and inside the glove compartment, powdery green or white residue inside lowest electrical connectors.
 - Is the owners' manual in the vehicle?
- How about the operating instructions for any accessories, and any warranty information that still applies to items like tires and exhaust?
- Are previous repair and service records available? (Complete records are a sign that the owner has taken good care of the vehicle.)
 - Does seller have clear title to vehicle?

Use this Check List, after watching the Inspection DVD from www.AutoCheck101.com this along with whatever Vehicle History report you decide to use, will give you a Real True Evaluation of the car you are looking to purchase. Always take your time when inspecting a car to purchase. This process could keep you from making a costly mistake, or at least give you the knowledge to negotiate a better purchase price to allow form some repairs.

- If you find issues that your just not sure about going through the inspection process, I would recommend taking the vehicle to a mechanic that can perform a more detailed inspection on those concerned areas.

If you are pleased with our self inspection process and believe it can save you from making a costly mistake, please share with a friend. If you purchased from Amazon.com - please leave a positive review, so this will allow us to help others.

Thank you,
