A **"Serious Health Condition"** means an illness, injury impairment, or physical or mental condition that involves one of the following:

1. Hospital Care

   Inpatient care (*i.e.*, an overnight stay) in a hospital, hospice, or residential medical care facility, including any period of incapacity[2] or subsequent treatment in connection with or consequent to such inpatient care.

2. Absence Plus Treatment

   (a) A period of incapacity[2] of **more than three consecutive calendar days** (including any subsequent treatment or period of incapacity[2] relating to the same condition), that also involves:

   (1) **Treatment**[3] **two or more times** by a health care provider, by a nurse or physician's assistant under direct supervision of a health care provider, or by a provider of health care services (*e.g.*, physical therapist) under orders of, or on referral by, a health care provider; or

   (2) **Treatment** by a health care provider on **at least one occasion** which results in a **regimen of continuing treatment**[4] under the supervision of the health care provider.

3. Pregnancy

   Any period of incapacity due to **pregnancy**, or for **prenatal care**.

4. Chronic Conditions Requiring Treatments

   A **chronic condition** which:

   (1) Requires **periodic visits** for treatment by a health care provider, or by a nurse or physician's assistant under direct supervision of a health care provider;

   (2) Continues over an **extended period of time** (including recurring episodes of a single underlying condition); and

   (3) May cause **episodic** rather than a continuing period of incapacity[2] (*e.g.*, asthma, diabetes, epilepsy, etc.).

5. Permanent/Long-term Conditions Requiring Supervision

   A period of **Incapacity**[2] which is **permanent or long-term** due to a condition for which treatment may not be effective. The employee or family member must be **under the continuing supervision of, but need not be receiving active treatment by, a health care provider**. Examples include Alzheimer's, a severe stroke, or the terminal stages of a disease.

6. Multiple Treatments (Non-Chronic Conditions)

   Any period of absence to receive **multiple treatments** (including any period of recovery therefrom) by a health care provider or by a provider of health care services under orders of, or on referral by, a health care provider, either for **restorative surgery** after an accident or other injury, **or** for a condition that **would likely result in a period of Incapacity**[2] **of more than three consecutive calendar days in the absence of medical intervention or treatment**, such as cancer (chemotherapy, radiation, etc.), severe arthritis (physical therapy), and kidney disease (dialysis).

This optional form may be used by employees to satisfy a mandatory requirement to furnish a medical certification (when requested) from a health care provider, including second or third opinions and recertification (29 CFR 825.306).

[3] Treatment includes examinations to determine if a serious health condition exists and evaluations of the condition. Treatment does not include routine physical examinations, eye examinations, or dental examinations.

[4] A regimen of continuing treatment includes, for example, a course of prescription medication (*e.g.*, an antibiotic) or therapy requiring special equipment to resolve or alleviate the health condition. A regimen of treatment does not include the taking of over-the-counter medications such as aspirin, antihistamines, or salves; or bed-rest, drinking fluids, exercise, and other similar activities that can be initiated without a visit to a health care provider.
