

HOME INVENTORY CHECKLIST

Determining the value of your personal property requires an extensive analysis on your part. You should go through each room of your house and list every piece of furniture and fixture within it. Some insurance companies provide Household Inventory lists which can be helpful with this task. Items such as sofas, tables, beds, TVs, refrigerators, and lawn mowers should be included in such a schedule.

As you compile your inventory, supplement it with receipts indicating the date of purchase and purchase price and photographs of major items. Your inventory should be updated on an annual basis, or at the very least, whenever you purchase a large appliance or item of furniture.

Additionally you may want to make a video of your possessions. If you do, make sure all the drawers and/or doors of your furniture are open so you have a record of what is stored. It is also helpful to verbally describe major items as you record the video. When complete, make a back up of the video and store this inventory list and video in a safe place away from your home, such as in a safe deposit box, in the home of a friend or relative or in your workplace.

Checklist Contents			
Items Grouped According to Room	Page #	Items Grouped According to Category	Page #
