The Retirement Systems Division is in the process of auditing service credit in each retirement account. If your service credit has NOT been audited, your total creditable service as of December 31, 2006 is listed in calendar year 2006 as "legacy membership". If your service credit has been audited, your service will be listed separately in each year in which the service credit was accrued. Please do not rely on the total years of service shown on an unaudited account. Instead, please request an audit in order for us to verify your service record. Audits are routinely performed when we receive a retirement application but can be requested at any time. Your salary history is shown for each calendar year. Your service and contribution history (as of Sep,2012) is as follows:

- Annual leave in excess of 30 days will be transferred to your sick leave balance at retirement.
- For certified employees earning personal leave, any unused personal leave is transferred to your sick leave balance at retirement.

121-140 = 7 months

141-160 = 8 months

161-180 = 9 months

181-200 = 10 months

Estimated Social Security at 62 = \$1,100 Option

(Only one monthly beneficiary can be named for Options 2, 3, 6-2 and 6-3.)

	Jane's Monthly Benefit	at Jane's Death - to Tom
• Maximum	\$2,226.05	\$0
• Option 2 100%	\$2,037.73	\$2,037.73
• Option 3 50%	\$2,127.66	\$1,063.83
• Option 4(SS leveling)		
To age 62	\$2,568.88	\$0
After age 62	\$1,468.88	\$0
• Option 6-2	\$2,023.03	\$2,023.03

Payment Options

Maximum Option

You receive the most out of your retirement benefit. After you die, if you still have contributions in your retirement account, what is left will be paid to a Guaranteed Refund Beneficiary in a lump sum.

to Jane \$2,226.05
to Tom at Jane's death \$0

Option 2 – 100% Joint and Survivorship

You receive monthly benefits for life. After you die, your beneficiary receives the same amount monthly for life.

to Jane \$2,037.73
to Tom at Jane's death \$2,037.73

Payment Options Continued

Option 4 – Social Security Leveling

You receive inflated monthly payments to the age of 62. At age 62, your monthly retirement amount is reduced. You file for your Social Security to begin at 62. When you combine the reduced retirement and the SS amount, the two total to the same amount you were receiving before from the Retirement System. After you die, if you still have contributions in your retirement account, what is left will be paid to a Guaranteed Refund Beneficiary in a lump sum.

to Jane (to age 62) \$2,568.88

- Retirement checks are paid 12 times a year.
- Cost of Living Adjustment (COLA) – if approved by the General Assembly.

Taxes

- Retirement is subject to Federal tax.
- The taxable portion of the monthly retirement benefit consists of:
 - Contributions made on a “pre-taxed” basis after July 1, 1982.
 - Additional service credit purchased with “pre-taxed” dollars after January 1, 2003.
- Retirement is subject to North Carolina State tax.
- If you have 5 full years of contributory service in the State prior to August 12, 1989, then you are **EXEMPT** from State tax.
- Social Security is NOT deducted out of your monthly retirement benefit.

Optional Benefits Through the Retirement System

- Pierce Insurance Agency offers dental, vision, term and whole life insurance plans. You will receive information concerning these plans or visit their website at www.pierceins.com
- \$10,000 Death Benefit - The Retirement System offers this one-time benefit at time of retirement. The cost depends on your age at time of retirement. The death benefit is payable to your legal spouse at time of death or legal representative if not survived by a legal spouse.
- The cost for these optional benefits are deducted from your monthly retirement check.

Changes After Retiring

- Retirees can not change their payment option once the first retirement check is cashed or deposited except under the conditions below.
- Exceptions:
 - Divorce from spouse (Options 2, 3, 6-2, 6-3)
 - Return to employment covered under TSERS and contribute to a new retirement account for at least 3 years
 - Re-designation of spouse under Options 2 and 3. Re-designation must be made within 90 days of remarriage and must be filed with the Retirement System no later than 120 days after remarriage.

Leave and Longevity Payouts

- Annual Leave (AL) is paid out up to 30 days.
- If you have Bonus Leave (BL), the balance of it is paid out.
- If you are receiving Longevity, it will be paid out either on a pro-rated or full basis. This depends on your retirement date and your longevity date.
- If your 4 highest years of salary are your last 4 years, then for calculating your Average Final Compensation (AFC), your payouts will be included in the AFC.

Payouts

To calculate an **estimate** of your Annual Leave (AL) and/or Bonus Leave (BL) payout, take your monthly salary and divide it by 22. This will give you the daily rate of pay (DRP). Then multiply the DRP by the number of AL and/or BL days you will have at time of retirement.

For example – your monthly salary is \$3269 and you have 30 days of AL to be paid.

$\$3269 / 22 = \148.59 which gives you the DRP.

$\$148.59 \times 30 \text{ AL days} = \4457.73

Payouts

- Payouts are typically paid out at the end of the month following retirement, except for January and July retirements. For these months, the payout occurs in December and June.
- Payouts are taxed at a flat rate of 48%.
- If you wish to contribute your payout amounts to your payroll deducted 401k or 403b, you should work with the provider. Your Central Office payroll representative can provide you with the payout amounts.
- If you are a 10 month employee and have your pay over 12 months, the escrow money will be paid out in a lump sum. This is not taxed at the flat rate.

Health Insurance

- **1st hired prior to October 1, 2006:** You will need 5 years of contributory State service to be eligible for State-paid health insurance (individual coverage) at retirement.
- **1st hired on or after October 1, 2006:** You will need 20 years of retirement service credit to be eligible for State-paid health insurance (individual coverage) at retirement.
 - If 5 years but less than 10 years, you may enroll and pay the full cost.
 - If 10 years but less than 20 years, you may enroll and pay 50% of the cost.

Health Insurance

- You will have your health insurance coverage for the remainder of your life.
- Your health insurance coverage through the Retirement System will begin on the first day of the month following your retirement date. For example: Retire 7/1; Coverage is effective 8/1. - The 80/20 plan does have an additional cost per month and will be deducted out of your monthly retirement check.
- Dependent coverage may also be continued with the premium being deducted out of your monthly retirement check.
