## SAMPLE BUDGET FOR CHILD CARE CENTER OPERATIONS IN MARYLAND

The figures in this sample operations budget reflect the mid-range of expenses incurred by a variety of programs in Maryland over the last few years. Actual costs vary significantly depending on local costs, local regulations, and the costs for individual program policy and enhancement choices.

The following sample budget for operations is based on this fictitious child care center designed to represent a typical center.
The following characteristics are true of this center:

- Center is sponsored by a private, non-profit organization.
- Center operates 255 days per year, 52 weeks per year.
- Center capacity is 97 children, classroom and weekly fee ${ }^{1}$ breakdown is:
- One room for 6 infants ( 6 weeks to 18 months)
- One room for 9 toddlers ( 18 months to 2 years)
- One room for 12 two year olds
- One room for 20 three year olds
- One room for 20 four year olds
- One room for 30 five year olds
\$186 per week $\$ 186$ per week $\$ 116$ per week $\$ 116$ per week \$116 per week
$\$ 106$ per week
- Indoor space of 75 square feet per child or $7,275 \mathrm{sq}$. ft. total. This includes the 35 sq . ft. per child required by Maryland regulations for use by the children, as well as an additional 40 sq. ft. per child for lavatories, storage, office, hallway, and non-commercial (warm-up) kitchen.
- Outdoor space of 75 square feet per child. This figure reflects the average amount of outdoor space for playground, landscaping, walkways, and parking.
- Substitute staff is to cover classroom positions for two weeks of vacation time, three days of personal leave, and sick time, for a total of 4.5 weeks for each of twelve staff people.
- Rent is figured at $\$ 20$ per square foot. In this example rent is paid by the sponsor, (i.e. the church). Other building costs are paid for by the center, including, cleaning, maintenance, and utilities.
- Snacks and beverages are provided by the center. Lunch is brought from home.

## Income:

| Item | Description/Detail | Number of Children | Amount | Total for year |
| :---: | :---: | :---: | :---: | :---: |
| Child Care Fees | Infant/toddler (ages 0-2): \$186 (per week) X 15 (children in age group) X 52 (weeks in year) X .8 $(80 \% \text { utilization rate })^{2}=$ | 15 | \$116,064.00 | 499,283.20 |
|  | Preschool: \$116(per week) X 52(children in age group) $X 52$ (weeks in year) $\times .8(80 \%$ utilization rate $)=$ | 52 | \$250,931.20 |  |
|  | School age (ages 5 and up): $\$ 106$ (per week) X 30 (children in age group) X 52 (weeks in year) X . 8 ( $80 \%$ utilization rate)= | 30 | \$132,288.00 |  |
| Registration Fees | Charged one time per year for each child $\$ 75.00$ per child $\mathrm{X} 97=$ | 97 | \$7,275.00 | 7,275.00 |
| CACFP | $\$ .05^{3} \times 97$ children $\times 255$ days $\times 2$ snacks per day x 8 ( $80 \%$ utilization rate) $=$ | 97 | \$1,978.80 | 1,978.80 |
| Fund Raising | Amount raised by center |  | \$4,000.00 | 4,000.00 |
| Other Income | Late pick-up fees, late payments, miscellaneous |  | \$600.00 | 600.00 |
| Total for year |  |  | \$513,137.00 | 513,137.00 |

${ }^{2}$ An $80 \%$ utilization rate is used when computing income from weekly child care fees. The utilization rate is used to compensate for the normal fluctuations in enrollment due to illness, family vacation, etc.
${ }^{3}$ The Child and Adult Food Program (CACFP) reimbursement is figured on the basis of 97 children receiving the lowest level subsidy for two snacks per day. We are assuming that lunches are brought from home.
