# **Business Plan Template**

# Five Important Tips Before You Start!

- 1. The business plan should tell a compelling story about your business, explaining who, what, when, where, how and why.
- 2. Your plan should be focused and clear. It's not about the number of pages or style of the cover.
- 3. The plan should define specific business objectives and goals with general parameters to guide the organization.
- 4. Writing a business plan should force logic and discipline into a business.
- 5. A good business plan is a living document. It should be updated regularly.
