

# Group Self-Assessment

It starts with Scouts.

The Group Self Assessment tool is designed to help Group Commissioners assess the health of their various Sections and the whole Group. The Self Assessment should be based on the outcomes of the Group Commissioner's visits to each Section and should be completed at least 3 times annually. The purpose of the health check is to facilitate the development of resourcing plans for the Group as well as the development of Group plans that can be reviewed with the Area Commissioner.

Group							Date		
Youth Membership & Participation	Beaver Scouts	Cub Scouts	Scouts	Venturer Scouts	Rover Scouts	Group	Green	Yellow	Red
