

FIPSE COMPREHENSIVE PROGRAM

Proposal Development Template

I. What is the problem or need?

What is the evidence of significant need – locally, nationally?

II. What is the approach to solving the problem or meeting the need?

What is the context nationally? What other approaches to the problem have been tried? How successfully? How is your approach likely to improve results? How is it innovative, compared to other efforts across the country?

III. What are the goals of your project?

IV. Who are the key players in the project? Partner institutions? Administrative and faculty involvement?

V. How will the project achieve greater impact?

VI. How will the project be sustained or continued after grant funding?

VII. How will you know whether the project has been successful?
