

CAMBRIDGE INTERNATIONAL EXAMINATIONS COURSE LIST

1. Cambridge International Examinations (CIE) offers academic programs that include instructionally aligned curricula, assessments and pedagogy at the Secondary and Advanced Levels:
 - a) Secondary Level: IGCSE (International General Certificate of Secondary Education) courses prepare students for advanced coursework in Cambridge AS and A Level courses and are generally taken in the grades 9 and 10.
 - b) Advanced Level: AICE (Advanced International Certificate of Education) courses are offered at the AS and A Levels and are generally taken in grades 11 and 12. A (Advanced) Level subjects are studied over the course of two years (360 hours) and then tested. AS (Advanced Subsidiary) Level subjects are studied for one year (can be the first year of A Level subject) and tested at the end of one year.
 - c) The AICE Diploma program is an advanced qualification for students who are studying Cambridge International AS and A Level subjects. Students must demonstrate subject mastery by passing the AS and/or A Level exams in four areas: Mathematics & Science, Languages, Arts & Humanities, and Global Perspectives & Research.
