SUMMARY

SixSigma.us offers online, onsite and open enrollment Six Sigma and Lean training, as well as the following certifications through our staff of Master Black Belts:

- Six Sigma Green Belt
- Six Sigma Black Belt
- Six Sigma Master Black Belt
- Six Sigma Champion
- Lean Agent Certification

Since our founding in September of 2004, we have maintained a staff of consultants who not only have the academic credentials and classroom training for Six Sigma, but also possess many years of “in the trenches” experience in the business environment. This enables us to offer not just the “book smarts” of the Six Sigma methodology, but also the “street smarts.”

Six Sigma.us has had over 1000 organizations send attendees to its programs and has delivered public programs in more than a dozen locations across the United States. We have also worked with numerous government employees representing many areas of federal government, including all branches of the US military, FEMA, DHS, FAA, FDA, USDA and more.
