How your insurance credit score is determined

A lower score is better, as it indicates that you have carefully and consistently managed credit over many years. Consumers who use credit responsibly are statistically less likely to be involved in auto accidents and may be eligible for lower rates. To determine your insurance credit score, we subtract points for items that are better than average and add points for items that are worse than average.

Every consumer starts with the same number of points **100**

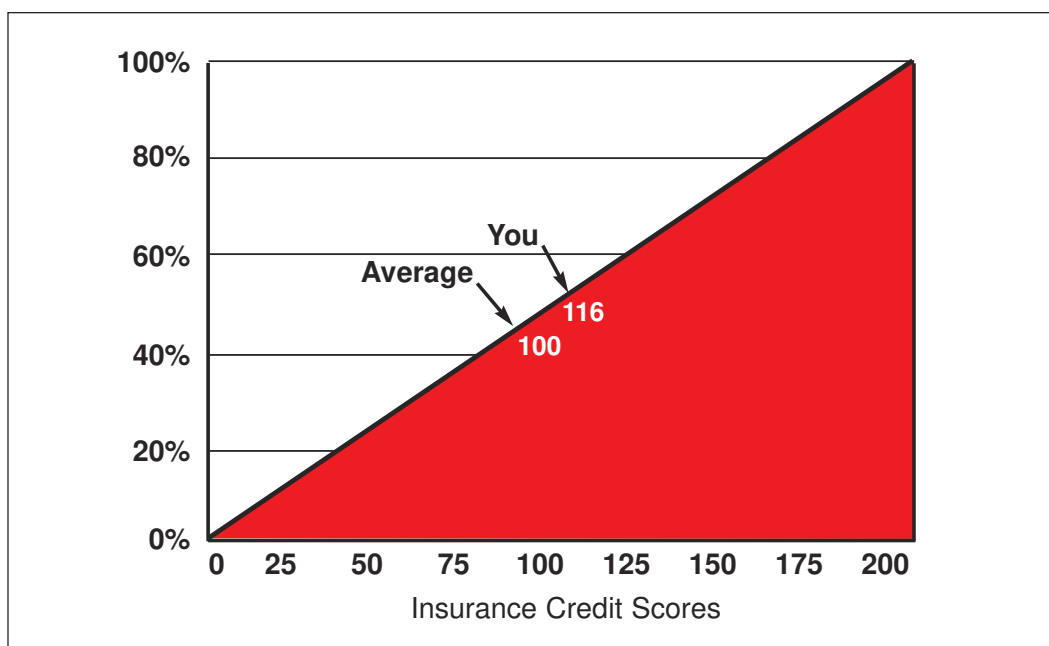

Items better than average:

First established credit at age 16	-10	
12 months since last auto loan was made	<u>-7</u>	
Total of all better than average items		-17

Items worse than average:

Managed credit for 48 months	18	
2 loans and accounts that are current	8	
88% of available credit in use	4	
5 credit inquiries in the past 25 months	<u>3</u>	
Total of all worse than average items		<u>33</u>

Your insurance credit score = **116**

Consumers who received a quote from Progressive in the past 6 months had an average insurance credit score of 100.

Your insurance credit score is 116 and is lower than 44% of consumers who received a quote from Progressive in the past 6 months, but is higher than the average.
