Cal/OSHA requires training records to be kept by the employer. If you would like EEAP to keep a backup copy of these records, you may fax, email or mail a copy of this Training Attendance Record Sheet to EEAP. On the EEAP website there is an area in the client login page where a backup copy of the Attendance Sheet may be kept. The only records contained on the website are the records you have provided to us. **This is for backup purposes only.** EEAP is not responsible for keeping a history of your training.
