REVENUE

Sales and Use Tax

February 2013
Report No. 2013-15

<http://auditor.mo.gov>

CITIZENS SUMMARY

Findings in the audit of the Department of Revenue, Sales and Use Tax

Individual Consumer Use Tax and Internet Sales

Missouri's individual consumer use tax requirements are not well known by the general public and are difficult to enforce and administer. The audit report expresses no opinion on the economic effect of collecting the tax but notes the unworkable structure in place now. Missouri law imposes an individual consumer use tax on the storage, use, or consumption of tangible personal property which is required to be paid unless sales or use tax is paid to the seller or the property is tax exempt. Also, use tax is due on purchases from a seller which is not engaged in business. A purchaser is required to file a use tax return if the cumulative purchases subject to use tax exceed \$2,000 in a calendar year. The United States Supreme Court has held that states cannot require companies that do not have a physical presence in the state to collect state and local sales taxes. University studies have estimated that Missouri state and local governments have lost and will continue to lose sales/use tax revenue of between \$358 million and \$474 million annually by not collecting taxes on these sales. The Streamlined Sales and Use Tax Agreement (Agreement) is a cooperative effort among states, local governments, and businesses to simplify sales and use tax collection and administration by retailers and states, intended to minimize costs and administrative burdens on retailers that collect sales tax while encouraging out-of-state sellers to collect tax on sales to customers in the Streamlined states. Forty-four states, including Missouri, signed the Agreement, but Missouri has not passed implementing legislation.

The Department of Revenue (DOR) does not include a specific line that requires state individual income taxpayers to state whether they made purchases exceeding \$2,000 for which sales or use tax was not paid, and, as a result, most taxpayers are not likely aware of the consumer use tax requirement. If the state continues to impose the individual consumer use tax, there are additional enforcement procedures the DOR should consider.

Ongoing Concerns

The DOR does not track and report information regarding some sales and use tax exemptions, and so the cost in terms of reduced state revenue for each exemption cannot be determined. DOR records indicate adjustments to gross sales receipts totaled over \$154 billion, \$144 billion, and \$147 billion in fiscal years 2011, 2010, and 2009, respectively. The DOR has agreed that tracking exemptions is a good idea, but it believes the recommendation increases the reporting burden on vendors and has indicated the current sales tax system might not have the capacity to handle the additional information. However, the DOR and the Office of Administration awarded a contract in February 2012 for a new Missouri Integrated Revenue System (MIRS) which should not have similar limitations.

The state is foregoing a significant amount of sales tax revenue because there is no cap on the amount of timely discounts large vendors can take. Business were allowed to keep approximately \$102 million, \$94 million, and \$95 million in state and local sales tax revenues collected from purchases in fiscal years 2011, 2010, and 2009, respectively, as an incentive for timely submitting state sales tax payments. Moreover, the DOR does not routinely report the amount of timely discounts to the General Assembly.

When consumers overpay sales or use taxes, the DOR refunds the vendor the overpayment plus interest, but vendors are not required to return these funds to the original purchaser, resulting in a windfall for the vendor. The DOR has previously agreed to support legislation that would require sales and use tax refunds and related interest to be returned to the original purchaser, but, to date, such legislation has not been successful.

The General Revenue Fund (GRF) does not receive reimbursement from local funds for their proportionate share of interest paid on refunds of sales and use taxes. Sales and use tax refunds, including interest, are made from the GRF, and adjustments are automatically made to reimburse the GRF for the principal amount due from local funds. However, adjustments are not automatically made to reimburse the GRF for the amount of interest due from local funds. Although the DOR has previously agreed that local funds should pay their proportionate share of this interest, the DOR has not been able to develop a method for recovering this interest with the current tax system, but according to DOR personnel the new MIRS should not have this limitation.

Automated Sales Suppression Device

Missouri law does not prohibit the creation, sale, purchase, installation, transfer, or possession of an automated sales suppression device (a software program commonly known as a zapper). Zapper software enables businesses to evade tax liability by altering the electronic sales records in a cash register to make it appear that fewer transactions have occurred. At least 10 other states have passed or are considering similar legislation.

In the areas audited, the overall performance of this entity was Good .*

American Recovery and Reinvestment Act (Federal Stimulus)

The Department of Revenue did not receive any federal stimulus monies for sales and use tax operations during the audited time period.

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

THOMAS A. SCHWEICH

Missouri State Auditor

Honorable Jeremiah W. (Jay) Nixon, Governor
and
Brian K. Long, Director
Department of Revenue
Jefferson City, Missouri

We have audited certain operations of the Department of Revenue, sales and use tax collections, as required by Sections 32.087 and 67.525, RSMo. The scope of our audit included, but was not necessarily limited to, the years ended June 30, 2011, 2010, and 2009. The objectives of our audit were to:

1. Evaluate the department's internal controls over significant management and financial functions.
2. Evaluate the department's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and operations, including certain financial transactions.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the department; analysis of comparative data obtained from internal sources; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We tested certain of those controls to obtain evidence regarding the effectiveness of their design and operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the department's management and was not subjected to the procedures applied in our audit of the department.

For the areas audited, we identified (1) a deficiency in internal controls, (2) no significant noncompliance with legal provision, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Department of Revenue, sales and use tax collections.

A handwritten signature in black ink, reading "Thomas A. Schweich". The signature is fluid and cursive, with the first name "Thomas" and last name "Schweich" clearly legible.

Department of Revenue

Sales and Use Tax

Management Advisory Report - State Auditor's Findings

1. Individual Consumer Use Tax and Internet Sales

Missouri's individual consumer use tax requirements are not well known by the general public, require extensive taxpayer record keeping, are generally not complied with, and are difficult to enforce and administer. This report expresses no opinion on the economic effect of collecting the tax on the economy of Missouri; the report simply notes the unworkable structure in place now.

Background information

State law imposes an individual consumer use tax on the storage, use, or consumption of tangible personal property in Missouri. The consumer use tax is required to be paid unless sales or use tax is paid to the seller or the property is tax exempt. Also, use tax should be paid on purchases from a seller which is not engaged in business. A purchaser is required to file an annual use tax return with the Department of Revenue (DOR) if the cumulative purchases subject to use tax exceed \$2,000 in a calendar year. The use tax is computed on the purchase price of all goods once purchases exceed \$2,000. Consumer use tax information and requirements are posted on the DOR website.

The type of purchases subject to use tax include, but are not limited to, 1) catalog purchases, 2) magazine subscriptions, 3) cross-border purchases of goods, 4) TV marketing purchases, 5) computer software and hardware, 6) mail-order supply purchases, 7) furniture and equipment purchases from out-of-state sellers, 8) purchases of goods over the Internet (e-commerce) and by phone, and 9) purchases of goods from outside the United States. Currently, state law requires local businesses to collect sales tax, even if they have an online business, because these businesses have a physical presence (nexus) in the state. However, under a 1992 U.S. Supreme Court ruling¹, states cannot require companies that do not have nexus to collect state and local sales taxes. As a result, Missouri cannot require businesses without nexus to collect sales tax on goods sold to Missouri residents. Federal legislation has been proposed that would enable states to require online retailers to collect and remit sales taxes, while also providing businesses with an effective means to comply. Such legislation includes the Marketplace Fairness Act, the Main Street Fairness Act, and the Marketplace Equity Act.

With the increasing popularity and usage of the Internet, e-commerce sales have grown significantly over recent years. University studies² have

Fox, LeAnn Luna, "State and Local Government Sales Tax Revenue Losses from Electronic Commerce," University of Tennessee, Center for Business and Economic Research, <<http://cber.bus.utk.edu/ecommerce.htm>>, accessed on April 27, 2012; and Huanfm Ting, John Kosash and Andrew Wesemann (2012). "Internet Sales and Use Tax Issues in Missouri" Report 01-2012, University of Missouri Columbia, Institute of Public Policy, <<http://ipp.missouri.edu/Publications/306>>, accessed on June 5, 2012.

Department of Revenue
Sales and Use Tax
Management Advisory Report - State Auditor's Finding

estimated that Missouri state and local governments have lost and will continue to lose sales/use tax revenue of between \$358 million and \$474 million annually by not collecting taxes on these sales. Both studies also noted that local vendors face a competitive disadvantage because consumers that make purchases online avoid paying sales/use taxes. However, it is possible that if taxes were collected on e-commerce sales, consumer purchasing habits could change resulting in less revenue for the state than forecasted. The issues of revenue, consumer spending habits, and the economic effect of increased taxation are beyond the scope of this report.

Streamlined Sales and Use
Tax Agreement

The Streamlined Sales and Use Tax Agreement (Agreement) is a cooperative effort among states, local governments, and businesses to simplify sales and use tax collection and administration by retailers and states. The Agreement aims to minimize costs and administrative burdens on retailers that collect sales tax, while also encouraging out-of-state sellers to collect tax on sales to customers in the Streamlined states. Forty-four states, including Missouri, signed the Agreement, originally adopted in November 2002, and 24 of these states have passed legislation to conform to the Agreement. Legislation was introduced in Missouri during the 2012 legislative session and in prior years to implement the provisions of the Agreement; however, such legislation has not passed. Participation in the Agreement is voluntary for businesses and consumers; therefore, Missouri cannot require out-of-state sellers without nexus to collect sales taxes on purchases made by Missouri residents. However, according to the University of Missouri report, each state that has entered into the Agreement collected, on average, an additional \$30.7 million, in total, in e-commerce tax revenue between 2005 to 2010.

Some states (such as Washington, North Dakota, New York, Kansas, and Kentucky) have entered into agreements with large Internet sellers, to collect and remit state and local sales taxes. Large Internet sellers have also negotiated deals with other states to collect sales tax in the future. In other instances, Internet sellers have agreed to disclose sales and use tax requirements on their Internet sites for certain states. Such disclosures inform customers that many states require purchasers to file a sales or use tax return reporting all taxable purchases that were not taxed and to pay tax on those purchases, and may include a link to that state's website.

Individual income tax
forms

The DOR does not include a specific line that requires state individual income taxpayers to state whether they made purchases exceeding \$2,000 for which sales or use tax was not paid. As a result, most taxpayers are not likely aware of the consumer use tax requirements as evidenced by the small amount of consumer use tax collections.

Department of Revenue
Sales and Use Tax
Management Advisory Report - State Auditor's Finding

According to DOR records, the following consumer use tax was paid:

Tax Year	2011 (1)	2010	2009	2008
Number of individual tax returns	2,917,023	2,876,787	3,019,358	3,080,945
Number of use tax returns	168	190	125	96
Use tax paid	\$205,087	301,474	110,784	40,714

(1) Tax year 2011 information through August, 2012.

If the state continues to impose the individual consumer use tax, there are additional enforcement procedures the DOR should consider. Our review of other states' procedures noted some states include a specific line on its individual income tax return to report purchases made for which sales or use tax was not paid. In addition, to reduce taxpayer recordkeeping burden, some states provide an optional use tax reporting table which bases the consumer's use tax liability on a percentage of adjusted gross income rather than actual purchases.

To increase taxpayer compliance with existing individual consumer use tax laws, the DOR should consider revising individual income tax forms to include a specific line regarding purchases made for which sales or use tax was not paid, and an optional use tax reporting table which bases consumer use tax liability on a percentage of adjusted gross income rather than actual purchases.

Recommendation

The DOR revise the individual income tax forms to increase taxpayer compliance with existing individual consumer use tax laws.

Auditee's Response

The Department supports the collection of all taxes due the state of Missouri, including use taxes. However, adding a line on the return may not have much impact on use tax collections, but it would delay the availability of general revenue funds. This delay could be substantial in the April-May time frame when the majority of individual income tax revenues are received.

Individual income tax revenues are all general revenue funds and currently are deposited very quickly, usually the same or next day even during the April-May time frame. If those funds were combined with use tax funds, all money would need to be deposited in a suspense account until the return is processed and the appropriate local and state fund distribution can be determined. This could delay availability of the funds by as much as six weeks. The Department will continue to explore other ways to encourage compliance with use tax laws that do not negatively affect the timely transfer of funds to the general revenue fund.

Auditor's Comment

We do not agree with the Department's contention that enforcing existing consumer use tax law would need to unnecessarily delay the availability of general revenue funds. The DOR could place only the consumer use tax portion in the suspense account thereby eliminating any need to delay the availability of general revenue funds.

2. Ongoing Concerns

The DOR does not track and report information regarding some sales and use tax exemptions or routinely report to the General Assembly for its consideration the amount of timely discounts taken by businesses. Under Missouri law, vendors are not required to return sales and use tax refunds to the original purchaser when applicable, and local funds are not paying their proportionate share of interest paid on refunds of sales and use taxes.

These issues are ongoing concerns and have been reported in prior audit reports.

2.1 Sales and use tax exemptions

The DOR does not track and report information regarding some sales and use tax exemptions. As a result, the cost in terms of reduced state revenue for each exemption cannot be determined.

According to DOR records, there are currently 150 sales and use tax exemptions provided by state law. The DOR only tracks exemptions related to the 3 percent reduction on food sales, textbook sales, and manufacturing sales.

Vendors remit monthly, quarterly, or annual sales and use tax returns to the DOR. The returns include gross sales receipts, adjustments to gross sales receipts, and taxable sales. The adjustment amounts include, but are not limited to, exempt sales for the period of the sales tax return (file period), and corrections of errors from previous file periods.

DOR records indicate adjustments to gross sales receipts totaled over \$154 billion, \$144 billion, and \$147 billion in fiscal years 2011, 2010, and 2009, respectively. Detailed information of what is included in the adjustments total is not required to be provided on returns, and according to DOR personnel, only taxable sales are reported on some returns, with the gross sales receipts or adjustment amounts not included.

Although the DOR has previously agreed that tracking exemptions is a laudable goal, the DOR believes the recommendation increases the burden of reporting on taxpayers (vendor) and is contrary to the provision which requires simplified returns in the Streamlined Sales and Use Tax Agreement, (see MAR finding number 1). The DOR has indicated that when Missouri comes into substantial conformity with the Agreement, the DOR will require filers to submit a report of consolidated exempt sales by exemption type in accordance with the Agreement. However, as previously

Department of Revenue
Sales and Use Tax
Management Advisory Report - State Auditor's Finding

noted, legislation is required to put the state into conformity with the Agreement and Missouri has yet to pass such legislation.

The DOR has also indicated the current sales tax system would require significant reprogramming, and might not have the capacity to handle the additional information from tracking and reporting exemptions. In February 2012, the DOR and the Office of Administration awarded a contract for a new Missouri Integrated Revenue System (MIRS). According to DOR personnel, although the new system is currently in the developmental stages, it should not have similar limitations.

2.2 Timely discounts

The DOR does not routinely report to the General Assembly for its consideration the amount of timely discounts taken by businesses. This discount was established for businesses to recover a portion of their costs for compliance with state sales tax laws. However, the state is foregoing a significant amount of sales taxes revenue because there is not a cap on the amount of timely discounts taken by large vendors.

Approximately \$102 million, \$94 million, and \$95 million in state and local sales tax revenues were collected from purchasers but retained as timely discounts by businesses remitting sales and use taxes in fiscal years 2011, 2010, and 2009, respectively.

Section 144.710, RSMo, allows businesses remitting sales and use taxes to retain 2 percent of taxes payable to the DOR if the business remits payments in a timely manner. These discounts reduce the amount of sales and use taxes received by the state and local governments. According to a November 2008 report³, 46 states (including the District of Columbia) impose state sales taxes, 26 states allow businesses a discount and/or compensation for recording and remitting sales tax collections, and 13 states, including Missouri, have not established a ceiling to limit amount of taxes businesses can retain. Of the eight states contiguous to Missouri, three (Iowa, Kansas and Tennessee) do not allow businesses to retain any compensation, and four (Arkansas, Kentucky, Nebraska, and Oklahoma) have established ceilings to limit the amount of discount and/or compensation retained by businesses.

Sales and use tax revenues are used to fund significant portions of state and local government budgets. For example, in fiscal year 2011, sales and use taxes comprise approximately 25 percent of the state's general revenue. The General Assembly needs timely and accurate information regarding reductions to sales and use tax revenues resulting from timely discounts to make informed financial decisions.

³ *Skimming the Sales Tax*, Good Jobs First, November 2008.

Department of Revenue
Sales and Use Tax
Management Advisory Report - State Auditor's Finding

The DOR previously indicated they provided the timely discount information when requested, and is willing and able to do so.

2.3 Refunds

State law does not require vendors to return sales and use tax refunds and related interest to the original purchaser when applicable, resulting in a windfall for the vendor. In addition, in many instances, the vendor may not even be able to identify the original purchasers to whom the refunds are due, further increasing the likelihood of a windfall. The DOR distributed sales and use tax refunds, including interest, of approximately \$50 million, \$60 million, and \$71 million during fiscal years 2011, 2010, and 2009, respectively.

Vendors collect sales and use taxes from their customers and remit the taxes to the DOR. Section 144.190, RSMo, authorizes the DOR to issue sales and use tax refunds due to an overpayment of sales or use taxes. For some refunds the vendor is the original purchaser and some refunds are the result of taxpayer errors, incorrect quarter-monthly filer estimates, or other circumstances in which sales and use taxes were not collected from a purchaser, and as a result, should be retained by the vendor. However, in many cases, the refund is the result of an over collection of sales tax by the vendor and the refund is due back to the original purchaser.

Section 144.190.6, RSMo, provides, ". . . if a person legally obligated to remit the tax levied pursuant to sections 144.010 to 144.525 has received a refund of such taxes for a specific issue and submits a subsequent claim for refund of such taxes on the same issue for a tax period beginning on or after the date the original refund check issued to such person, no refund shall be allowed" This section further provides situations in which this section shall not apply and a refund shall be allowed. These include the receipt of additional information or an exemption certificate from the purchaser of the item at issue, a decision of a court of competent jurisdiction or the Administrative Hearing Commission, or changes in regulations or policy by the DOR. However, Section 144.190.6, RSMo, does not provide that refunds must be returned to the original purchaser. In addition, it appears that a vendor may not be able to identify the original purchaser in some cases, such as cash transactions or other point of sale settings where purchaser name or contact information is not captured. In these situations, the vendor would be unable to forward the refund to the original purchaser and would receive the windfall refund.

The DOR has previously agreed to support legislation that would require sales and use tax refunds and related interest to be returned to the original purchaser. However, to date, such legislation has not been successful. The legislation should also address how the refund should be handled when the original purchasers cannot be identified.

Department of Revenue
Sales and Use Tax
Management Advisory Report - State Auditor's Finding

2.4 Interest paid on refunds local funds

The General Revenue Fund (GRF) does not receive reimbursement from local funds for their proportionate share of interest paid on refunds of sales and use taxes.

Based on the percentage of distributions to local funds to total distributions to state and local funds (exclusive of the GRF), interest payments of approximately \$383,000, \$1,723,000, \$2,133,000 should have been allocated to local funds during fiscal years 2011, 2010, 2009, respectively, and is due to the GRF from local funds.

Sales and use tax refunds are issued from the GRF. To reimburse the GRF, adjustments are automatically made in the DOR tax system for the principal and interest amount of the refunds due from other state funds and the principal amount of the refunds due from local funds. However, adjustments are not automatically made to local funds for the interest paid on sales tax refunds.

Although the DOR has previously agreed that local funds should pay their proportionate share of interest paid on refunds, the DOR has been unable to develop any alternatives for recovering interest from local governments without the acquisition of a new tax system. As noted above, a new MIRS is currently being developed, and according to DOR personnel, the limitations of the current tax system should not be an issue with the new system.

Recommendations

The DOR:

- 2.1&2 Ensure the tracking and reporting of exemptions and the timely discount is a component of the new MIRS, so that the reductions of state revenue related to each exemption and the timely discount can be determined and reported to the General Assembly.
- 2.3 Continue to support legislation that would require sales and use tax refunds and related interest to be returned to the original purchaser. Such legislation should also address whether a refund should be made when the original purchaser is not known.
- 2.4 Ensure the new MIRS has the capability to calculate the reimbursement to the GRF for local funds' proportionate share of interest paid on sales and use tax refunds.

Auditee's Response

2.1&2 Tracking and reporting exemptions is an appropriate goal. Reporting exemptions would substantially increase the burden on businesses. Also, based on prior attempts to track limited exemptions, the data collected is likely to be highly inaccurate due to businesses errors in reporting. In addition, to track and report exemptions, the Department would require a substantial increase in

Department of Revenue
Sales and Use Tax
Management Advisory Report - State Auditor's Finding

FTE, which the current budget does not support. The Department is in the process of implementing an integrated revenue system that may be able to track at least some exemptions, but tracking and reporting the data will still be a significant burden on businesses and the data collected will still be likely to be inaccurate.

The Department has provided information regarding the timely filing discount when requested by elected officials from time-to-time, but has not been requested to report this information on a regular basis. The Department is willing and able to do so.

2.3 *The Department reviews and makes recommendations with respect to existing laws and proposed legislation every year. The Department will review this issue and support appropriate legislation.*

2.4 *This is a requirement in the request for proposal and is scheduled to be implemented when the sales and use tax portion of the system is implemented in 2016.*

3. Automated Sales Suppression Device

Missouri law does not prohibit the creation, sale, purchase, installation, transfer, or possession of an automated sales suppression device. This device gives retailers the ability to hide the amount of cash transactions, and thus, evade paying sales taxes on cash transactions.

An automated sales tax device, commonly known as a zapper, is a software program that falsifies the electronic records of point of sale (POS) systems for the purpose of tax evasion. Most often, transactions in stores and restaurants are recorded by a POS system, rather than a mechanical cash register. The POS system records are generally not alterable by the operator and are used as the basis of tax assessments and audits by tax authorities. To hide the removal of cash, a zapper often runs untraceably from a USB flash drive and alters the electronic sales records in a cash register. This makes it appear that fewer transactions occurred than was actually the case. The use of zapper software reduces the tax liability of the business.

Due to concerns about the potential of sales tax zappers to reduce state and local government revenues, some states are enacting legislation to address this type of fraud. According to a recent study⁴, Georgia, Maine, Utah, and West Virginia, have passed legislation to subject the technology (automated sales suppression device) that facilitates the fraud to enforcement measures.

⁴ Robert T. Ainsworth, "An American Look at Zappers", Boston University School of Law Working Paper No. 12-14, <http://www.bu.edu/law/faculty/scholarship/workpapers/2012.html#>>, accessed on October 17, 2012.

Department of Revenue
Sales and Use Tax
Management Advisory Report - State Auditor's Finding

Other states, such as Florida, Indiana, Michigan, New York, Oklahoma, and Tennessee have similar legislation pending.

According to DOR management, the DOR is familiar with zapper technology and has taken steps to monitor for the use of zappers. However, the DOR has not identified any business using zappers, and is not aware of pending legislation to address zapper technology.

Recommendation

The DOR work with the General Assembly on legislation to address the possession and use of automated sales suppression devices by businesses.

Auditee's Response

The Department reviews and makes recommendations with respect to existing laws and proposed legislation every year. The Department will review this issue and support appropriate legislation.

Department of Revenue

Sales and Use Tax

Organization and Statistical Information

The Department of Revenue (DOR) was created by Article IV, Section 12, Missouri Constitution as the central collection agency for state revenues. The Director of Revenue is appointed by the Governor, with the advice and consent of the Senate, and is responsible for all operations and policies. DOR responsibilities include:

- 1) Administering and collecting state taxes and fees, including sales and use tax, motor vehicle sales tax, and highway use tax.
- 2) Collecting certain taxes and fees for local governments, including local sales and use tax.
- 3) Titling and licensing motor vehicles, trailers, and boats.
- 4) Licensing motor vehicle operators.

The DOR consists of four divisions and the Director's office.

Motor Vehicle and Driver Licensing Division: This division consists of three bureaus. 1) The Motor Vehicle Bureau issues titles and registers motor vehicles, trailers, all-terrain vehicles, manufactured homes, and marine craft. In addition, the bureau issues registration certificates to motor vehicle and salvage dealers and leasing companies. 2) The Driver Licensing Bureau issues, renews, suspends, revokes, and reinstates driver and nondriver licenses and driving permits. The bureau also processes and maintains records regarding license issuance, traffic violation point assessments, and failure to appear in court for traffic violations, and administers the alcohol and abuse laws for alcohol/drug offenders. 3) The License Offices Bureau manages the operations of the contract license offices throughout the state. These local offices provide driver licensing and motor vehicle services. This division collects motor vehicles sales and use taxes.

Taxation Division: This division consists of four bureaus which collect taxes and administer state tax law. 1) The Business Tax Bureau administers sales and use, financial institutions, insurance premiums, franchise, cigarette and other tobacco products, motor fuel, corporate income, withholding, and county taxes and fees. 2) The Personal Tax Bureau administers individual income, partnership, fiduciary, and estate taxes, plus the property tax credit and homestead preservation tax credit. 3) The Collections and Tax Assistance Bureau provides tax assistance to individuals and businesses and handles unpaid tax liabilities. 4) The Field Compliance Bureau audits businesses both in-state and out-of-state to ensure compliance with the state's tax laws.

Administration Division: This division consists of two bureaus. 1) Personnel Services Bureau is responsible for the DOR personnel matters, policies and procedures, training, and written communications. 2) The Financial and General Services Bureau is responsible for accounting, procurement,

Department of Revenue
Sales and Use Tax
Organization and Statistical Information

banking, and general services such as telecommunications, safety issues, and maintenance.

Legal Services Division: This division ensures DOR compliance with law and internal policies. The General Counsel's Office advises the director and divisions on legal matters and represents the DOR in court. The Criminal Tax Investigation Bureau investigates and develops information for local prosecution of individuals and businesses suspected of violating laws the DOR administers. The Compliance and Investigation Bureau investigates illegal motor vehicle titling and registration, odometer fraud, and tax fraud involving motor fuel sales tax. The bureau also reviews and evaluates the DOR administrative, operations, and internal accounting controls and contract license offices.

Director's Office: This office includes the Director, Deputy Director and key administrative staff. The Director of Communications works with the news media and acts as the DOR spokesperson. The legislative liaison manages the DOR relationship with the General Assembly and other governmental branches. This office also develops fiscal and revenue estimates on proposed legislation.

The Directors of Revenue from July 2008 to November 2012 include:

Omar D. Davis, December 2007 to January 2009

Karen King Mitchell, January 2009 to July 2009

Alana M. Barragan-Scott, (Acting) July 2009 to November 2012 (officially appointed Director in October 2009)

In December 2012, Brian K. Long was appointed Director.

American Recovery and
Reinvestment Act 2009
(Federal Stimulus)

The DOR did not receive any federal stimulus monies for sales and use tax operations during the 3 years ended June 30, 2011.

* To preserve confidentiality, sales and use tax distributions for districts with less than 6 taxpayers are reported as zero per Department of Revenue policy.

Appendix E

Department of Revenue Sales and Use Tax Description of Sales and Use Tax Funds and Accounts

Sales and use tax receipts collected from businesses, motor vehicle sales tax receipts collected from businesses and individuals, and highway use tax receipts collected on vehicles purchased outside of Missouri but titled in Missouri, are deposited into various state and local funds. Marine and ATV sales and use tax collections are deposited into the same funds as state sales and use tax. Motor vehicle leasing sales tax collections are deposited into the same funds as motor vehicle sales tax.

For operating purposes, the Department of Revenue (DOR) has been charged with the responsibility of administering transactions in the funds and accounts listed below.

State Funds

The State Treasurer, as fund custodian, and the Office of Administration provide administrative control over fund resources within the authority prescribed by the General Assembly for all state funds.

General Revenue Fund: This fund, authorized by Section 144.700, RSMo, receives 75 percent of the collections from the 4 percent state sales and use tax. This fund also receives payments from common carriers in interstate air transportation, as authorized by Section 144.807, RSMo. In addition, the General Revenue Fund pays all motor vehicle sales tax refunds and receives motor vehicle sales tax collections as reimbursement from other state funds for their applicable share of the refunds.

Aviation Trust Fund: This fund, authorized by Section 144.805, RSMo, receives sales and use tax on aviation jet fuel from common carriers. These taxes are paid as a result of exemptions to General Revenue sales tax. The exemptions are a result of direct-pay agreements between common carriers and the DOR.

Conservation Commission Fund: This fund, authorized by Article IV, Section 43(a), Missouri Constitution, receives collections of the 0.125 percent state sales and use tax, motor vehicle sales tax, and highway use tax.

Highway Department Fund: This fund, as authorized by Section 144.440, RSMo, receives 75 percent of the collections from the 4 percent highway use tax.

Parks Sales Tax Fund: This fund, authorized by Article IV, Section 47(a) and 47(b), Missouri Constitution, receives 50 percent of the collections from a 0.1 percent state sales and use tax, motor vehicle sales tax, and highway use tax.

School District Fund: This fund, authorized by Section 144.701, RSMo, receives 25 percent of the collections from the 4 percent state sales and use tax and 12.5 percent of the collections from the 4 percent motor vehicle sales tax.

Soil and Water Sales Tax Fund: This fund, authorized by Article IV, Section 47(a) and 47(b), Missouri Constitution, receives 50 percent of the collections from a 0.1 percent state sales and use tax, motor vehicle sales tax, and highway use tax.

State Road Bond Fund: This fund, authorized by Article IV, Section 30(b), Missouri Constitution (Amendment 3), receives 37.5 percent of the collections from the 4 percent motor vehicle sales tax.

State Road Fund and State Transportation Fund: These funds, authorized by Section 144.070, RSMo, and Article IV, Section 30(b), Missouri Constitution, receive 37.5 percent of the collections from the 4 percent motor vehicle sales tax. In addition, as authorized by Section 144.440, RSMo, the State Road Fund receives 18.75 percent of the collections of the 4 percent highway use tax.

Local Funds

Actual tax proceeds for local funds are deposited into interest-bearing bank accounts until distributed. Subsequently 99 percent of the collections and earned interest are distributed to the various political subdivisions with the remaining 1 percent going to the General Revenue Fund for a collection fee, except for the Local Fuel Tax and Bond Trust Fund which receives all of the collections. The DOR has sole responsibility for maintaining and disbursing fund resources for all local funds.

Local Fuel Tax and Bond Trust Fund: This fund, authorized by Section 144.440, RSMo, receives 12.5 percent of the collections from the 4 percent motor vehicle sales tax and 6.25 percent of the collections from the 4 percent highway use tax. In addition, this fund receives collections from the motor fuel tax authorized by Section 142.803, RSMo, and distributed to counties and incorporated cities.

Local Sales and Use Tax Trust Fund:

This fund:

- Receives collections generated from local sales taxes imposed by local political subdivisions, as authorized by Chapters 66, 67, 70, 92, 94, 162, 190, 238, 321, and 644, RSMo.
- Receives collections generated by a use tax, authorized by Section 144.757, RSMo, based on the local sales tax in effect, upon all transactions subject to taxes imposed under Sections 144.600 to 144.745, RSMo, except as otherwise provided. Net taxes and interest are subsequently distributed to the counties and cities.
- Receives collections from motor vehicle sales and use tax paid under protest. Protested motor vehicle sales and use taxes and the related earned interest, are either returned to the taxpayer or remitted to the state and the appropriate political subdivisions, based upon decisions reached by the DOR, the Administrative Hearing Commission, or various courts.
- Receives collections from local sales and use taxes paid under protest. These monies paid under protest are either returned to the taxpayer or remitted to the state and the appropriate political subdivisions, based upon decisions reached by the DOR, the Administrative Hearing Commission, or various courts.
- Receives collections from Web/Internet based sales and use tax filings. These collections are paid through ACH debit transactions initiated by the taxpayer through a DOR approved service provider. The DOR transfers the collections to the appropriate state and local funds after processing the corresponding sales tax returns.
- Receives unidentified sales and use tax collections when these collections are unable to post to the automated Missouri Integrated Tax System (MITS). When these collections become identifiable, they are posted to MITS and are then transferred to the appropriate sales tax funds.

Custodial Accounts

The DOR has been charged with the responsibility of administering transactions in the custodial accounts. Except for the Protested Sales Tax General Revenue Account and Sales Tax Bond Account held by the State Treasurer, actual custody of accounts' resources ultimately rests with the DOR. Collections for the custodial accounts held by the DOR are deposited in interest-bearing bank accounts.

Compliance Clearing Account: This account receives tax payments from taxpayer audits. The DOR holds these payments in this account pending final audit review. Depending on the results of the audit review, the DOR transfers the tax payment to the appropriate state and local funds or issues a refund to the taxpayer.

Motor Vehicle Clearing Account: This account receives collections from motor vehicle agent offices and the central office for various taxes and fees. These receipts are subsequently transferred to various state and local funds.

Protested Sales Tax General Revenue Account: This account receives the 3 percent General Revenue Fund portion of the state sales taxes paid under protest. These protested monies are deposited in the General Revenue Fund. However, these protested monies are reported by the DOR in this account.

Sales Tax Bond Account: This account, authorized by Section 144.087, RSMo, receives cash bonds posted by taxpayers. All bond collections are deposited in the General Revenue Fund and reported by the DOR in this account. Cash bonds and related interest are refunded to the taxpayer after 2 years if they are determined to have satisfactory tax compliance and if their bond was posted before January 1, 1984. If the bond was posted on or after January 1, 1984, the Attorney General has ruled that no interest should be refunded. In the event of uncollectible sales tax liabilities, the bonds and related interest, if any, are forfeited to the DOR which subsequently distributes the monies to the state and the appropriate political subdivisions.
