

MEMORANDUM

Date: May 29, 2013

To: The Honorable Chairman and Members
Pima County Board of Supervisors

From: C.H. Huckelberry
County Administrator 

Re: **Itemization of Non-medical Consultants Contained in the Fiscal Year (FY) 2013/14 Budget (Object 5152)**

Non-medical Consultants Object 5251 in the County budget is defined as follows:

"Service provided by outside consultants in areas such as management services and data processing, services which deal in the relation and application of facts and specialized knowledge to accounting, legal problems; services of draftsman; services provided by registered land surveyors; services provided to determine the value or worth of something; moving and storage services; musicians; program presenters; veterinarian services; all other professional services not included in other service objects. Includes any similar professional services purchased online."

The attached listing is an analysis of each of the non-medical consultants contained in department budgets by fund, department and unit. This memorandum highlights the top 10 budgeted amounts and provides explanations for the expenditures. These top 10 non-medical consultants total nearly \$15 million of the budgeted \$26 million for these accounts.

FY 2013/14 Tentative Adopted Budget: Top 10 Non-medical Consultants.

Department	Tentative Amount	Vendor	Justification
Office of Medical Services, Office of Behavioral Health	\$ 4,922,519	Community Partnership of Southern Arizona	Administrative costs for Restoration to Competency cases. This cost is mandated by State statute and began a number of years ago. When first initiated, the full cost of the program was absorbed by the State. The State has since shifted the full cost of this mandated program to county governments.

The Honorable Chairman and Members, Pima County Board of Supervisors
**Re: Itemization of Non-medical Consultants Contained in the Fiscal Year 2013/14 Budget
 (Object 5152)**

May 29, 2013

Page 2

FY 2013/14 Tentative Adopted Budget: Top 10 Non-medical Consultants.

Department	Tentative Amount	Vendor	Justification
Regional Wastewater Reclamation	3,000,000	Tucson Water and Local Municipalities	The largest amount of this budget line item is allocated to Tucson Water. The cost is associated with having each water utility include, on their monthly water bill, County monthly wastewater charges that are collected and then remitted to Pima County.
Regional Wastewater Reclamation	2,000,000	Hoffman Southwest	Services mandated by federal Clean Water Act permitting that are administered by the Arizona Department of Environmental Quality.
Community Development Grants	1,094,350	Allwyn Priorities, LLC, Fixcity LLC, Real Solutions Consulting Network LLC, Richard Crystal, The University of Arizona	These contracts relate to administrative support services for programs specific to brownfields, Neighborhood Stabilization Program 2. Federally funded. Allwyn contracts are specific to brownfields assessments.
Non-Departmental	1,090,040	American Traffic Solutions	Contract related to photo traffic enforcement.
Community Development Grants	564,304	Allwyn Priorities, American Western of Arizona, Desert Earth and Wood, El Pueblo Roofing, Reed Enterprises, Sun Southwest Contracting, Tron Mechanical, Woodstock Builders	These contracts relate to home repair, weatherization and septic repair and replacement for low income homes (mobile and conventional) in rural Pima County. The Arizona Department of Housing is the primary funding source.
Contingency	500,000	Various	These professional programming services are for the purpose of assisting in managing information from the newly-installed County financial management system through PimaCore, known as Advantage Management System (AMS).

The Honorable Chairman and Members, Pima County Board of Supervisors
 Re: **Itemization of Non-medical Consultants Contained in the Fiscal Year 2013/14 Budget**
 (Object 5152)
 May 29, 2013
 Page 3

FY 2013/14 Tentative Adopted Budget: Top 10 Non-medical Consultants.

Department	Tentative Amount	Vendor	Justification
Contingency	500,000	Various	The County remains on an outdated and fragile mainframe Cobalt payroll application. These funds are to assist in the transition to ADP Payroll Solutions.
Development Services	476,700	Vendor to be determined	Updating the Comprehensive Plan is mandated by State statute.
Justice Courts Tucson Court Automation Fund	450,000	Contracted Programmers	Projected cost for five contracted programmers for implementation of new case management system.
Total Top 10 Budgeted Amounts	\$14,597,913		

As can be seen, the vast majority of these expenses are mandated by the State. In fact, some of the expenses were paid entirely by or shared by the State until recent years.

If you have specific questions about any line item within the Non-medical Consultants budget for any department, fund or organization, please contact me.

Several years ago, as part of the planning process for a future bond election, we retained a consultant to research and report on the pros and cons of holding a bond election in the month of May versus the month of November, as well as to review the success rate of each bond question by type since 1974 (\$5,000).
1000	Finance & Risk Management	FN - Non Departmental	42,700	Present contract with Racy Associates, Inc.	Contract for State and Federal Legislative Representation

FY 2013-14 Recommended Budget

Detail information for Object 5152 - Non-Medical Consultants

Fund	Department Name	Unit Name	Amount	Vendor	Comments
1000	Finance & Risk Management	FN - Special Projects	25,000	We typically request a funding allocation for consultants in case we need it. We do not currently have a consultant lined up for these funds.	In recent years this funding allocation has been spent on contracts for the following purposes: (1) retaining an expert in water quality impacts associated with mining to review and serve as an expert witness for Pima County's appeal of Rosemont's Aquifer Protection Permit (\$5,000); (2) development of a 3-D model of the proposed Rosemont Mine for educational purposes and to assist the US Forest Service in their review of impacts from the mining proposal (\$14,000); and (3) retaining expert legal representation for County participation in the Arizona Corporation Commission line siting proceedings for Rosemont (\$15,000).
1000	Finance & Risk Management - Non Departmental	FN - Photo Traffic Enforcement	1,090,040	American Traffic Solutions	Contract with American Traffic Solutions for Photo Traffic Enforcement
1000	Finance & Risk Management - Contingency	FN - IT PimaCore Reports	500,000	To be determined	Contingency funds for professional programming services to develop reports out of County's accounting, budget systems, etc.
1000	Finance & Risk Management - Contingency	FN - IT ADP Development	500,000	To be determined	Contract with IT consultants for possible new Human Resources/Payroll System
1000	Information Technology	IT - Administration Services Center	10,191		Balance of operating cost adjustments
1000	Information Technology	IT - Application Platform Admin	30,000		With the startup of the new Website in early FY 14, we have reserved \$30,000 in the event we need the Website Software Vendor to provide technical expertise to make an architectural change as volume grows within the new website environment
1000	Information Technology	IT - Infrastructure Services	50,000		As required, to address Data Center VMWare/NetApp storage virtualization engineering services, to address changes to the architecture of this highly complex virtualized/disaster recovery environment
1000	Information Technology	IT - Infrastructure Services	7,000		As required, specialized Electrical Engineering expertise from the vendor (Titan) in the event Universal Power Supply engineering services need to be engaged due to data center power change requirements. The County does not have an Electrical Engineer on staff
1000	Information Technology	IT - Infrastructure Services	75,000		Microsoft Premier Engineering Services to recommend engineering changes in the data center's Microsoft environment for implementing complex software engineering releases
1000	Information Technology	IT - Client Services	25,000		If required, supplemental staffing during high volume personnel computer deployment periods
1000	Information Technology	IT - Applications Technology	398,000		As required, contract supplemental staffing to address unplanned project initiatives defined as a priority by the County Administrator. The enterprise Land and Permit Management project and Payroll/Human Resources project will utilize up to 32 of the 57 Application resources during FY 14. This supplemental staffing will be used based on County Administrator direction only.
1000	Information Technology	IT - Network Operations Center	4,000		Mainframe technical support, if required to make any payroll W2 printing form changes in FY 14. (Planet Press mainframe software)
1000	Information Technology	IT - Network Operations Center	25,000		Vendor Consulting Services to recommend a configuration solution within the Online Service Catalog software to implement the Assets module to accommodate all entry and ongoing maintenance of IT operational assets in use under the County Administrator's direct line Departments
1000	Information Technology	IT - Public & Support Services Relationship	25,000		As required, specialized software expertise not covered by Pima County's existing vendor maintenance agreement in the event Finance / Procurement requires a specialized technical change in the AMS Advantage system
1000	Information Technology	IT - Non PCWIN Tower Maint & Franchise Licenses	5,000		County Towers that are not part of PCWIN - one planned Structural Engineering Analysis on a Tower to confirm Structural Integrity
1000	Information Technology	IT - Electronic Document Mgmt Software	20,000		With the startup of the new eDMS system in late FY 13, we have reserved \$20,000 in the event we need the eDMS Software Vendor to provide technical expertise to enhance the architecture of the eDMS solution as volume continues to grow in the solution

FY 2013-14 Recommended Budget

Detail information for Object 5152 - Non-Medical Consultants

Fund	Department Name	Unit Name	Amount	Vendor	Comments
1000	Information Technology	IT - Electronic Document Mgmt. Software	104,000		Our approach with the eDMS Departmental rollout has been to leverage the vendor's resources and expertise located in Phoenix to develop the technical design / solution with Pima County staff training and supporting the final solution within Pima County based on the internal Application Staffing Resource limitations in FY 14.
1000	Information Technology	IT - Work Order Mgmt Software	136,000		One-time FY 14 incremental staffing required to support the new Maximo Work Order system and larger than expected support effort as we work with the vendor CGI to remediate many "bug/warranty gap" issues. Once the "bug/warranty" gap issues are 100% remediated by the vendor targeted for the end of FY 14 this contract expense will be eliminated.
1000	Information Technology	IT - FMS Legacy & ADOA Software	165,000		This contractor supports our Legacy Mainframe Payroll system since the system has had major changes made over the years, they were not documented and the employee that supported the system has retired. This expense is required until Pima County replaces this legacy Payroll system.
1000	Justice Court Tucson Consolidated	JCT - Finance	400	State of Arizona	
1000	Justice Court Tucson Consolidated	JCT - Administration	3,900		Transfer made monthly by IET document by department FN.

5008	Regional Wastewater Reclamation	WW - Directors Office	5,800	Optum Health - Care 24	Employee Assistance Program and environmental consultation and assistance from Dept of Environmental Quality.
5008	Regional Wastewater Reclamation	WW - Directors Office	200,000	Business Enterprise Mapping	This is related to the Continuous Improvement initiative embodied in the Departmental 5-Year Strategic Plan. The workshops and impact project will be focused upon the critical core processes in the areas of Capital Improvement Program (CIP) project delivery and customer service to infrastructure developers. As the Regional Optimization Master Plan (ROMP) nears completion, it is imperative that the department's CIP delivery processes function at their greatest efficiency. The provider of these services (BEM) has been involved in the implementation of the county's new Land and Permit Management System (LPM). Their methodology has also been used to varying degrees in Public Works, Development Services, and the Department of Transportation.
5008	Regional Wastewater Reclamation	WW - Directors Office	355,000	City of Tucson	Environmental consultation and assistance provided by PCDEQ for the Intergovernmental Agreement between the City of Tucson and Pima County for the Household Hazardous Waste Collection and Education Program.
5008	Regional Wastewater Reclamation	WW - Directors Office	(75,000)	City of Tucson	Household Hazardous Waste

FY 2013-14 Recommended Budget

Detail information for Object 5152 - Non-Medical Consultants

Fund	Department Name	Unit Name	Amount	Vendor	Comments
5008	Regional Wastewater Reclamation	WW - Environmental Planning & Safety/Compliance	20,000		Professional consultant services to ensure environmental compliance, CMOM capacity and exposed risk analysis \$20,000 annually.
5008	Regional Wastewater Reclamation	WW - Conveyance Management	310,000	National Environmental Solutions (NES)	Manhole and clean-out treatment services for vector control to minimize the cockroach population for the health protection of the general public and for the workers maintaining the system. This population resides primarily in the public sanitary sewerage conveyance
5008	Regional Wastewater Reclamation	WW - Industrial Treatment	2,500		Specialized services that are required for the IWC Program; expert witness fees, plans review data migration.
5008	Regional Wastewater Reclamation	WW - Laboratory Services	400	County Attorney's office	These consulting fees are to cover EPA required annual certification for weights and measures for validation of the accuracy of the laboratory analytical balances in the laboratory.
5008	Regional Wastewater Reclamation	WW - Planning Services	150,000		An engineering or non-engineering firm to help with limited elements of the facility plan as the Dept goes through the mainly in-house process of writing and issuing a revised facility plan by January, 2014. The Facility Plan provides guidance for the Department's long term planning horizon. The last version of the Department's Facility Plan was published in March 2006 followed by the Regional Optimization Master Plan in November 2007. Since that time there have been significant changes in the economy, the needs of the community, and the way in which resource and infrastructure utilization are planned. In conjunction with the County's Comprehensive Planning efforts, the Department will be compiling and publishing a new Facility Plan by the end of 2013/2014. The majority of the writing will be done by Department staff with the requested funding to go towards the editing and formatting of the document prior to the presentation to the Advisory Committee and the Board of Supervisors.
5008	Regional Wastewater Reclamation	WW - Planning Services	10,000		The PCRWRD's Flow Monitoring Group operates 47 permanent flow-metering sites located across the PCRWRD's sewer service area to verify and ensure the County's public sewer system has the capacity necessary to serve both it's existing and future customers. Each of these sites is solar powered, and each site transmits real-time flow data to a central data repository (SCADA system) via radio signals. A solar panel, a radio antenna, and a metal cabinet are mounted to a radio mast at each of these sites. The radio mast is a wooden or metal pole that holds the solar panel high enough that it is not shaded by adjacent trees, allowing the solar panel to collect as much power as possible. The radio mast also holds the radio antenna high enough that the radio transmissions from the site are not blocked by adjacent trees or buildings. The term "permanent flow metering site" is somewhat of a misnomer: While a permanent flow metering site may operate for 10 years or more at the same location, two to three of the 47 permanent metering sites will need be taken out of service each year, and new permanent flow metering sites constructed to replace them. This is most commonly caused by the development (or re-development) of the property on which the permanent flow metering sites is located, or the development of adjacent properties. The purpose of this \$10,000 line item is to fund a contract (not yet in place) for the removal of radio masts from permanent flow metering sites that have been taken out of service, and the installation of radio masts at new permanent flow metering sites. These are tasks that the PCRWRD Flow Monitoring Group cannot perform.
5008	Regional Wastewater Reclamation	WW - Reg Permit & Compliance	10,000		Used to cover the cost of professional contract services necessary for Water Quality whole effluent toxicity studies performed by contract laboratories. These are mandated test for which we are currently unable to perform at the present time. With the new Ina Road and Roger Road facilities coming on line in FY 2014-2015, we anticipate additional testing will be required to verify compliance with the effluent toxicity testing requirements. Cost is estimated at \$10,000 annually.

FY 2013-14 Recommended Budget

Detail information for Object 5152 - Non-Medical Consultants

Fund	Department Name	Unit Name	Amount	Vendor	Comments
5008	Regional Wastewater Reclamation	WW - Sewer Maintenance	5,000	Pima County Attorney	SSO claims for contractor caused incidents where the Conveyance Division has to pursue them for monetary compensation utilizing County Attorneys. This accounts is also used for courier service.
5008	Regional Wastewater Reclamation	WW - Training & Development	55,000		Educational and training services for a variety of programs including but not limited to: external instructors, curricula development, distant learning and occupational learning analysis. RWRD plans to have 2 Train-the-Trainer sessions, 3 DACUM Analysis sessions, 3 Articulate sessions, 2 instructors for MS Office Applications, 4 instructors for Leadership for Supervision, 2 instructors for Management Training, 1 instructor for MBTI, 8 Instructional Videos (WW Treatment, 4 Safety Training Videos, 3 Utility Maintenance Worker Videos, 4 Coaching Services and 2 Instructional Program Assessments.
5008	Regional Wastewater Reclamation	WW - Utility Blue Stake Services	72,000	Az Blue Stake Services	The Arizona Blue Stake Center has been established as a statewide one-call notification system created by underground facility owners. It was established to assist excavators with the statutory requirements to notify underground facility owners prior to excavation. Arizona Blue Stake provides these excavation notifications to RWRD.
5008	Regional Wastewater Reclamation	WW - Ina Road WRF	5,000	ADEQ	Permit required emission testing for FY 2011/2012. Testing interval determined by Air Quality Permit. Testing due on 5 year cycle at an estimated cost of \$5,000.
5008	Regional Wastewater Reclamation	WW - Special Assistance Office	3,000,000	Tucson Water and local municipalities	Cost for including sewer billing fee services in water users monthly water invoices.
5008	Regional Wastewater Reclamation	WW - Special Assistance Office	50,000		The Department's Continuity of Operations Plan was originally developed in response to the directive of County Administration in late 2009. It was developed specifically to respond to the H1N1 flu pandemic. The plan has not been updated since that time. To be fully effective, the COOP needs to be expanded to cover all hazards, including floods, fires, major aircraft accidents and terrorist attacks.
5008	Regional Wastewater Reclamation	WW - Special Assistance Office	50,000	Sonoran Institute	The Living River Study is being continued along the Lower Santa Cruz River to begin to help track changes to water quality and river condition. Significant steps are already underway to improve this reach, most notably by upgrading the quality of the effluent discharged into the river. The Study will also demonstrate to community members the value and benefits of expensive upgrades to wastewater treatment. Historical conditions will be summarized and indicators selected that will enable the tracking of current and future water quality conditions in order to identify restoration needs.
5008	Regional Wastewater Reclamation	WW - Special Assistance Office	30,000		The new card-swipe system is instrumental in the functioning of the department's secure entry system being installed on the 8th floor of the Public Works Building during July 2013. Training on the Incident Command System (ICS) is a FEMA requirement for all Pima County's critical infrastructure, and RWRD's 5-year renewal of its 2006 training effort is already overdue.

Detail information for Object 5152 - Non-Medical Consultants

Fund	Department Name	Unit Name	Amount	Vendor	Comments
6001	Information Technology	IT - Wireless Services	290,000		FCC or other spectrum licensing fees as required; and \$250K to decommission the legacy EF Johnson radio system once PCWIN is live for the entire County. The entire County Wireless Services team will be supporting and implementing PCWIN across all Public Safety agencies (e.g., Drexel Heights, U of A, Pima Community College, etc.). Our goal is to work with Procurement to avoid expenditure of this \$250,000 by "trading" the legacy equipment to the vendor for their "free removal", if this can be accomplished through Procurement Code.
6002	Fleet Services	FS - Administration-Accounting	500	Hutsell Enterprises	Fees for appraisers to evaluate value of vehicles and equipment based on mileage, wear and tear, and hours used.
